

City of Menasha COVID-19 Pandemic Resilient Plan

Date: October 21 2021

Summary/What's New

- The FDA authorized booster doses of the Moderna and Johnson & Johnson COVID-19 vaccines for certain populations on October 20. Now, the CDC will meet to consider the FDA's authorization and determine if it will make a recommendation. Moderna and J&J booster doses cannot be administered until the CDC has provided a recommendation.
- People who are 65 and older and certain populations who are at high risk of COVID-19 can receive a booster shot of the Pfizer vaccine at least six months after the completion of their Pfizer vaccine primary series to strengthen their immunity. To see if you qualify for a booster, visit [this webpage](#).
- The Pfizer-BioNTech (Comirnaty) COVID-19 vaccine received **full approval** from the FDA for individuals age 16 and older. This vaccine is still available for 12-15 year olds, booster doses for specific populations, and for a 3rd dose for immunocompromised individuals under its EUA.
- [CDC guidance](#) from July 27 recommends that everyone, including those who are fully vaccinated, wear a mask in indoor public settings in areas where community transmission is at substantial or high levels. **The City of Menasha is currently experiencing a high level of community transmission and strongly recommends all individuals follow the CDC guidance.**
- The majority of COVID-19 cases in Wisconsin are occurring in people who are not fully vaccinated. **Vaccination is still the best tool to prevent serious disease, hospitalization, and death due to COVID-19 and its variants, including the Delta Variant.**
 - WI DHS has updated its [COVID-19: Illness after Vaccination website](#) with data from September 2021. Data show that the rates of cases, hospitalizations, and deaths are all higher for people who are not fully vaccinated than for people who are fully vaccinated.
- Wisconsin residents age 12 and older are eligible to receive the COVID-19 vaccine. Only the Pfizer-BioNTech vaccine is currently authorized to be used for those ages 12-17. Visit the Menasha Health Department's [COVID-19 vaccine webpage](#) for vaccine clinic information.
 - If you have questions about the COVID-19 vaccine, call: 211 or 877-947-2211. Spanish, Hmong, Chinese Mandarin, Hindi, and Somali language assistance is available. You can also visit [vaccines.gov](#) to find a place to get your FREE COVID-19 vaccine.
 - 211 Wisconsin provides a special directory to find to find pop-up vaccine clinics in the state. To find pop-up vaccine clinics near you, visit [this website](#).
- Testing is available if you have symptoms of COVID-19, if you believe you were exposed to the virus, attended a large social gathering, or if you think you need a test even though you don't have symptoms. Visit our [COVID-19 testing sites webpage](#) for information about testing sites.
- As of October 19, 55.4% of City of Menasha residents have received at least one dose of the vaccine and 53.1% are fully vaccinated. To read more about vaccine data, see [this dashboard](#).
- Currently in the City of Menasha the burden of confirmed and probable COVID-19 cases is very high and the activity level is very high. The combined case rate for this 2-week period (Oct 6 – Oct 19) is 546.5 cases per 100,000 population, which is a decrease from the case rate of 739.8 from the previous 2-week period (Sept 29 – Oct 12).

Background

This data summary provides preliminary data on the cases of COVID-19 in the City of Menasha from Oct 6, 2021 – Oct 19, 2021. Most data included in this report is for laboratory confirmed cases of COVID-19 (lab-confirmed). Some data is available for probable cases of COVID-19. A person is counted as a probable case of COVID-19 if they are not positive by a confirmatory laboratory test method (PCR/molecular test), but has a positive antigen test OR has symptoms of COVID-19 AND has a known exposure to COVID-19. Case counts utilized for all graphs and tables are based on the date public health staff received and recorded the test results. Numbers here may not represent final case counts for this reporting period.

City of Menasha Weekly COVID-19 Data Summary

Number and percent of residents of the Menasha 54952 zip code who have received at least one dose of the COVID-19 vaccine, by age range (as of Oct 18)

Age Group	Residents who have received at least 1 dose	Age-Specific Population Count	Percent of Age-Specific Population
<12**	0	4,006	0.0%
12-15	538	1,323	40.7%
16-17	287	660	43.5%
18-24	1,028	2,125	48.4%
25-34	1,764	3,744	47.1%
35-44	1,973	3,416	57.8%
45-54	1,893	3,938	48.1%
55-64	2,300	3,001	76.6%
65+	2,999	3,152	95.1%
Total	12,782	25,365	50.4%
Eligible Residents Total	12,782	21,359	59.8%

** Population data for those under 1 year old is not available. For more information about population in Menasha, please visit: <https://www.unitedstateszipcodes.org/54952/#stats>. There is currently no authorized COVID-19 vaccine for children under 12 years of age.

Public Health
Prevent. Promote. Protect.

Number and percent of City of Menasha residents who have received the COVID-19 vaccine (as of Oct 19)

Received at least 1 dose	Completed vaccine series	Population
10,044 (55.4%)	9,622 (53.1%)	18,114

*Vaccine data was retrieved from: <https://www.dhs.wisconsin.gov/covid-19/vaccine-data.htm> under "Municipality" tab. Other demographic data is not yet available.

Case counts, case rate per 100,000 people, burden class, trajectory and activity level in the City of Menasha and the State of Wisconsin for the past two weeks (Oct 6 – Oct 19)

Note: The case rate, burden class, trajectory class, and activity level reflect both lab-confirmed and probable cases. WI DHS is undergoing continuous data cleaning and data may change as it is reviewed.

	Case Count for Past 2 Weeks (lab-confirmed & probable)	Case Rate (per 100,000 people)	Burden Class*	Trajectory Class (N/A=no statistically significant change; N/D=no data available)	Activity Level*	Population**
City of Menasha	99	546.5	Very High	N/D	Very High	18,114
Wisconsin	34,391	594.9	Very High	Shrinking	Very High	

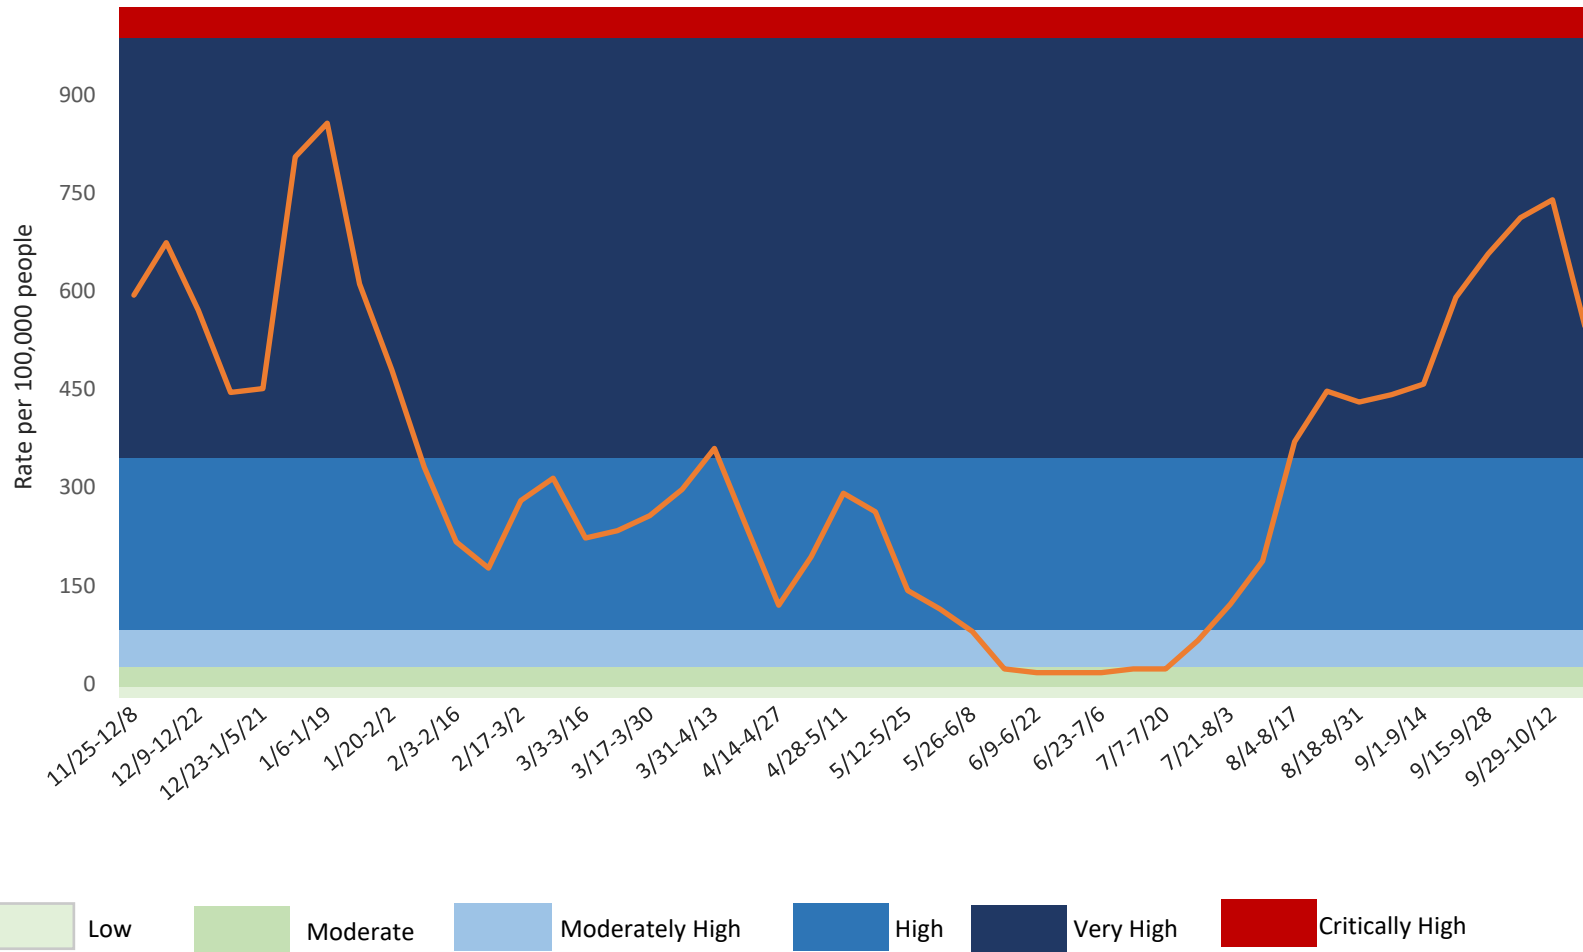

*Burden Class is based off of the case rate per 100,000 people in the past two weeks. Visit the DHS website for more information about Burden and Activity Level visit: <https://www.dhs.wisconsin.gov/covid-19/local.htm>

**Population for the City of Menasha was retrieved from <https://data.census.gov/cedsci/table?q=Menasha%20City,%20Wisconsin&t=Age%20and%20Sex&tid=ACSST5Y2019.S0101&hidePreview=false>

Burden (lab-confirmed & probable case rate)

Burden Status	Case Rate per 100,000 residents in the past two weeks	City of Menasha number of cases in the past two weeks
Low	Case rate is less than or equal to 10.	Less than 2 cases.
Moderate	Case rate is greater than 10, but less than or equal to 50.	Greater than 1 cases, but less than or equal to 9 cases.
Moderately High	Case rate is greater than 50, but less than or equal to 100.	Greater than 9 cases, but less than or equal to 18 cases.
High	Case rate is greater than 100, but less than or equal to 350.	Greater than 18 cases, but less than or equal to 63 cases.
Very High	Case rate is greater than 350, but less than or equal to 1,000.	Greater than 63 cases, but less than or equal to 181 cases.
Critically High	Case rate is greater than 1,000.	Greater than 181 cases.

City of Menasha COVID-19 laboratory confirmed and probable case rate trend and burden by 2-week periods*

*see the table above for more information about burden status

Testing metrics in the City of Menasha from the last 5 reporting periods

Metric	Reporting Period				
	Current: 10/6 – 10/19	9/29 – 10/12	9/22 – 10/5	9/15 – 9/28	9/8 – 9/21
7-Day Average Percent Positive	14.5%	17.7%	21.2%	16.7%	13.7%
7-Day Average New Test Results	23.6	29.9	32.3	29.9	39.6
7-Day Average New Cases (lab-confirmed & probable)	5.3	8.9	10.3	8.1	8.9

Number and percentage of laboratory confirmed and probable cases of COVID-19 by age range, cumulative and past two weeks

Age Group	Cumulative Total Cases (Confirmed + Probable)		Total Cases (Confirmed + Probable) in the Past Two Weeks	
	Number of Cases	Percentage of Total Cases	Number of Cases	Percent of Cases in Past Two Weeks
0-9	180	6.4%	11	11.1%
10-19	333	11.9%	15	15.2%
20-29	468	16.8%	6	6.1%
30-39	511	18.3%	25	25.3%
40-49	422	15.1%	10	10.1%
50-59	411	14.7%	15	15.2%
60-69	257	9.2%	11	11.1%
70-79	125	4.5%	4	4.0%
80+	87	3.1%	2	2.0%
Combined Total	2,794	100%	99	100%

Cumulative total and percentage of laboratory-confirmed and probable cases of COVID-19 by age range

Case Incidence Metrics

Metric	Thresholds	Current Status
Centers for Disease Control and Prevention: City of Menasha Total New Confirmed Cases per 100,000 in the past 7 days*	Red (High Transmission): ≥ 100 Orange (Substantial Transmission): 50-99 Yellow (Moderate Transmission): 10-49 Blue (Low Transmission): 0-9	132.5 per 100,000 / 7 days
Harvard Global Health: City of Menasha Confirmed Case Incidence per 100,000 (7-day rolling average)**	Red: >25 Yellow: $1<10$ Orange: $10<25$ Green: <1	18.9 cases per 100,000 / day

Additional Metrics

	Metric	Thresholds	Current Status
Testing	Percent PCR Positive Tests (7-day average)	Red: $>10\%$ Yellow: 5-10% Green: $<5\%$	14.5% positive tests / day
	Daily Number of Tests (7-day average)	Red: <14 tests/day Yellow: 14-28 tests/day Green: >28 tests/day	23.6 tests / day
Public Health Contact Timeliness	Disease Investigation	Red: Not able to contact all confirmed cases within 24 hours Green: Able to contact all confirmed cases within 24 hours	Able to contact all within 24 hours
	Contact Tracing	Red: PH is not able to contact all within 48 hours Green: PH is able to contact all within 48 hours	Able to contact within 48 hours
Hospital Capacity*	Percentage of hospital inpatient beds in the community that are occupied.	Red: $> 90\%$ Yellow: 80-90% Green: $<80\%$	94.0% of inpatient beds occupied
	Percentage of intensive care unit beds in the community that are occupied.	Red: $> 90\%$ Yellow: 80-90% Green: $<80\%$	94.8% ICU beds occupied
	Percentage of hospital inpatient beds in the community that are occupied by patients with COVID-19.	Red: $>15\%$ Yellow: 10-15% Light Green: 5-10% Dark Green: $<5\%$	13.4% beds occupied by patients with COVID-19

*Hospital capacity data are from the Emergency Management Resource (EMResource) system. Reporting is not mandatory. Hospital capacity data is collected and reported at the Healthcare Emergency Readiness Coalition (HERC) level. The City of Menasha is a part of HERC 6, or the Fox Valley HERC. Hospital capability information at the state and HERC level can be found here: <https://www.dhs.wisconsin.gov/covid-19/hosp-data.htm#capabilities>
