Storm Water Management Projects Maintenance Agreement

I have submitted a Storm Water Management Practices Maintenance Agreement for the site to be recorded by the City of Menasha at Winnebago/Calumet (circle one) County Register of Deeds and I agree to comply with said agreement. In addition, upon completion of site construction, I will submit accurate final construction documentation (i.e. "as-built") to the City of Menasha. Alternative requirements may be allowed by the Department of Public Works for applicants seeking an exemption to on-site storm water management performance standards or for applicants seeking a permit for a post-construction site with less than 20,000 square feet of impervious surface disturbance.

Check here if requesting alternative requirements _____

I agree to pay all required municipal costs and fees as shown on fee schedules.

Owner Signature

I hereby certify that I am the owner of the property which is the subject of this permit application. I understand that failure to comply with any or all of the provisions of the permit may result in a permit revocation, stop work order or forfeiture under the provisions of applicable laws. Any proposed alterations to the Storm Water Management Plan after permit approval may be considered a failure to comply and a new Storm Water Permit will be required. I certify that I am aware of all the site plan details. I hereby grant the right-of entry for the purpose of inspecting compliance with erosion/sediment control and storm water management plans or performing any work necessary to bring the site into compliance.
