FINANCIAL SECTION - I

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council
City of Willmar, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Willmar, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents. We did not audit the financial statements of Rice Memorial Hospital and Willmar Municipal Utilities, which represent 100 percent, respectively, of the assets, net position, and revenues of Rice Memorial Hospital and Willmar Municipal Utilities. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, in so far as it relates to the amounts included for Rice Memorial Hospital and Willmar Municipal Utilities is based on the reports of the other auditors.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Rice Memorial Hospital and Willmar Municipal Utilities, which represent 100 percent, respectively, of the assets, net position, and revenues of Rice Memorial Hospital and Willmar Municipal Utilities. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, in so far as it relates to the amounts included for Rice Memorial Hospital and Willmar Municipal Utilities is based on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. The financial statements of Rice Memorial Hospital were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on the Governmental Activities

As discussed in Note 5 to the financial statements, the City has not adopted Governmental Accounting Standards Board No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, as it relates to its Primary Government as of and for the year ended December 31, 2015. The amount by which this departure would affect the liabilities of the governmental activities is not reasonably determinable.

Qualified Opinion

In our opinion, except for the matters described in the "Basis for Qualified Opinion on the Governmental Activities" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the City of Willmar, Minnesota, as of December 31, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unqualified Opinions

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, and the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Willmar, Minnesota, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 4 to the financial statements, in 2015, the City adopted new accounting guidance, *GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic

financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Willmar, Minnesota's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 15, 2016 on our consideration of the City of Willmar, Minnesota's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Willmar, Minnesota's internal control over financial reporting and compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Mayor and City Council
City of Willmar, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Willmar, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City of Willmar, Minnesota's basic financial statements and have issued our report thereon dated July 15, 2016. Our report was qualified for governmental activities due to the failure to adopt GASB 45 and was modified to include a reference to other auditors. Our report includes a reference to other auditors who audited the financial statements of Rice Memorial Hospital and Willmar Municipal Utilities, as described in our report on the City of Willmar, Minnesota's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Rice Memorial Hospital were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a deficiency in internal control over financial reporting that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We considered the deficiency described in the accompanying schedule of findings and questioned costs as item 2008-1 to be a material weakness in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Willmar, Minnesota's Response to Findings

The City of Willmar, Minnesota's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Willmar, Minnesota's response was not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Mayor and City Council
City of Willmar, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the City of Willmar, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, and have issued our report thereon dated July 15 2016.

The *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven main categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories.

In connection with our audit, nothing came to our attention that caused us to believe that City of Willmar, Minnesota failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Cities*. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the City of Willmar, Minnesota's noncompliance with the above referenced provisions.

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. Accordingly, this communication is no suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

Mayor and City Council
City of Willmar, Minnesota

Report on Compliance for Each Major Federal Program

We have audited the City of Willmar, Minnesota's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have direct and material effect on each of City of Willmar, Minnesota's major federal programs for the year ended December 31, 2015. The City of Willmar, Minnesota's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Willmar, Minnesota's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Willmar, Minnesota's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Opinion on Each Major Federal Programs

In our opinion, the City of Willmar, Minnesota complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2015.

Report on Internal Control Over Compliance

Management of the City of Willmar, Minnesota, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Willmar, Minnesota's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Willmar, Minnesota's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose

MANAGEMENT DISCUSSION AND ANALYSIS

CITY OF WILLMAR, MINNESOTA
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2015

This section of the basic financial statements of the City of Willmar (the City) presents a discussion and analysis of the City's financial performance during the fiscal year ended December 31, 2015. Please read it in conjunction with the City's basic financial statements following this section.

Financial Highlights

- The assets of the City exceeded liabilities by \$136,043,375 (net position). Of this amount, \$39,764,427 (in Committed and Unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designations and fiscal policies.
- Due to adoption of GASB Statement No. 68, the Net Position had a decrease of \$5,284,295 and a 2015 Net Position increase of \$1,959,809 resulting in a net decrease of \$3,324,486 as stated in Table 3 on page 4.
- The City's governmental funds reported combined ending fund balances of \$36,686,678. Of this total amount, approximately 3% is Nonspendable, 35% is Restricted, and 62% is Committed.
- At the end of the current fiscal year, committed fund balance for the General Fund was \$13,945,396, or 105% of the total General Fund expenditures of \$13,292,218.

Using this Annual Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements are presented after the Statement of Net Position. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's funds. The notes to the basic financial statements provide information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. This report also contains other supplementary information in addition to the basic financial statements.

The City as a whole: Statement of Net Position and Statement of Activities

Our analysis of the City of Willmar begins with the Statement of Net Position and the Statement of Activities. One of the most important questions asked about the City's finances is, "Is the City as a whole better off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities both report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. These two statements report the City's net position and changes thereto. You can think of the City's net position – the difference between assets and liabilities – as one way to measure the City's financial health. Over time, increases and decreases in the City's net position is one indicator of whether the City's financial health is improving or deteriorating.

You will need to consider other nonfinancial factors, however, to assess the overall health of the City of Willmar.

CITY OF WILLMAR, MINNESOTA
MANAGEMENT'S DISCUSSION AND ANALYSIS
December 31, 2015

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

Governmental Activities - Most of the City's basic services are reported here, including the police, public works, parks departments and general administration. Property taxes, franchise fees, and state and federal grants finance most of these activities.

Business-Type Activities – The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's waste treatment fund and internal service fund are reported here.

The City's Most Significant Funds: Fund Financial Statements

Our analysis of the City of Willmar's major funds begins with the fund financial statements. These statements provided detailed information about the most significant funds – not the City as a whole. Some funds are required to be established by state law and by bond covenants. However, the City Council establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City of Willmar's two kinds of funds – governmental and proprietary – use different accounting approaches.

Governmental Funds – Most of the City of Willmar's basic services are reported in governmental funds. Governmental funds focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps the reader of the statements determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation after the fund financial statements.

The governmental fund financial statements can be found on pages 15-21 of this report.

Proprietary Funds – When the City of Willmar charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise funds are the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds.

The proprietary fund financial statements can be found on pages 22-25 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26-57 of this report.

Statement of Net Position

The City of Willmar's net position increased from a year ago. Our analysis below focuses on the net position (Table 1) and changes in net position (Table 3) of the City's governmental and business-type activities.

Governmental Activities

The net position of the City's governmental activities decreased by \$4,668,352 in 2015. The decrease was mainly due to a combination of adoption of GASB 68 by the City (decrease of \$4,769,867) and a stabilization of annual revenues and a slight decrease in annual expenditures due to a number of vacant positions throughout the year.

Business-Type Activities

The total net position of the City's business-type activities increased by \$1,343,866 in 2015. The increase was due to rates being set through 2017 to handle the pending increase in debt service payments and future capital expenditure needs.

Financial Analysis of the City's Funds

General Fund –

The City's General Fund increased by \$63,105 in 2015 which is \$598,788 more than the final budget projection which reflected a decrease of \$535,683. Part of the increase is due to the decrease in expenditures for Public Safety, Public Works, and Culture & Recreation due to vacant positions throughout the year.

Debt Service Funds –

Special Assessments Bond Debt Service Fund decreased by \$356,337. The decrease was attributable to planned retirement of debt principal.

Special Revenue Fund –

Industrial Development Fund increased by \$379,658. The increase was due to transfers in of \$250,000 to repay previously borrowed funds and interest earnings of \$140,868.

Special Revenue Fund –

Community Investment Fund increased by \$134,811. The increase was mainly due to the substantial net increase in fair market values of investments during 2015.

Capital Projects Fund –

Street, Water/Sewer Capital Projects Fund decreased by \$1,168,203. The fund decrease was due to an increase in the usage of Local Option Sales tax Funds for specific Capital Improvements (expansion of the Industrial Park).

GENERAL FUND BUDGETARY HIGHLIGHTS:

The City approved the 2015 general fund budget anticipating expenditures would exceed revenues by \$599,167. The main difference between the original and final budget totaling \$63,484 was mainly due to a decrease in General Government appropriations.

At the end of the year, revenues exceeded the final budget by \$156,561 and expenditures were less than the final budget by \$481,573. Transfers in were less than the final budget by \$43,371. The most significant positive variance for revenues was in Licenses/Permits. Positive variances in expenditures were reflected in Public Safety, Public Works, and Culture/Recreation.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances-Governmental Funds \$ (2,154,948)

Governmental funds reported capital outlays as expenditures.

However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay Expense	7,820,764		
Depreciation Expense	<u>(4,733,320)</u>		
			3,087,444

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase/(decrease) net position

NOTES TO FINANCIAL STATEMENTS

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Willmar's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as of and for the year ended December 31, 2015. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

A. Financial Reporting Entity

The City of Willmar was established in 1901 and is governed under a charter. The governing body consists of an eight member council, and mayor elected by eligible voters of the City. Four members are elected every two years for a four year term. The Mayor's office is for four years. The accompanying financial statements present the City's primary government and component units over which the City exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships).

1. Component Unit

a. Discretely presented component units

The component unit columns in the government-wide financial statements includes the financial data of the City's other component units. The units are reported in separate columns to emphasize that they are legally separate from the City but are included because the primary government is financially accountable and is able to impose its will on the organizations.

Rice Memorial Hospital

The hospital provides inpatient and outpatient health care services to the City of Willmar and surrounding area. The governing board of Rice Memorial Hospital is appointed by the City Council. The City may change the manner, mode and type of operations of the hospital to permit participation of other agencies. The City also has the power to overrule any decision, motion, resolution, rule, regulation, or order of the board and the legal liability for the general obligation portion of any debt remains with the City. Complete financial statements for Rice Memorial Hospital may be obtained at 301 Becker Avenue SW, Willmar, MN 56201.

Willmar Municipal Utilities

The Willmar Municipal Utilities (WMU) is responsible for the operation and management of the electric, water and district heating systems of the City of Willmar. WMU is governed by the Municipal Utilities Commission which is appointed by the Willmar City Council. The City also has the power to overrule any decision, motion, resolution, rule, regulation, or order of the board and the legal liability for the general obligation portion of any debt remains with the City. The rates for user charges and bond issuance authorizations are approved by the City Council. Complete financial statements for Willmar Municipal Utilities may be obtained at 700 Litchfield Avenue SW, Willmar, MN 56201.

b. Excluded: Firefighters Association

This association is organized as a non-profit organization by its members to provide pension and other benefits to such members in accordance with Minnesota Statutes. Their board of directors is appointed by the membership of the organization. All funding is conducted in accordance with Minnesota Statutes whereby State Aids flow to the association, tax levies are determined by the association and are only reviewed by the City, and the association pays benefits directly to its members.

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2015

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (the statement of net position and the statement of activities) display information about the primary government and its component units. These statements include the financial activities of the overall City government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external parties for support.

In the government-wide statement of net position, both the governmental and business-type activities columns: (a) are presented on a consolidated basis by column; and (b) are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts: (1) invested in capital assets, net of related debt; (2) restricted net position; and (3) unrestricted net position.

The statement of activities demonstrates the degree to which the direct expenses of each function of the City's governmental activities and its business-type activities are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function or activity. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The accounts of the City are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

The fund financial statements provide information about the City's funds. Separate statements for each fund category-governmental, proprietary and fiduciary-are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and enterprise funds, with each displayed in a separate column in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

a. Governmental Funds

The City reports the following major governmental funds:

General Fund

The General Fund is the primary operating fund of the City and always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Debt Service Fund - Special Assessments Bond

This fund accounts for the accumulation of financial resources for the payment of principal and interest on the City's general obligation special assessment bonds.

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2015

Capital Project Fund – Street, Water and Sewer

This fund is used to account for capital acquisition, construction and improvement projects related to streets, water and sewer.

Special Revenue Fund – Industrial Development

This fund is used to account for the local sales tax revenue. The resources are restricted for specific projects: connecting the Willmar Civic Center and Blue Line Center, the City walking and bike path system and the development of the land acquired through the relocation of the Willmar Airport.

Special Revenue Fund – Community Investment

This fund is used to account for surplus money in each separate improvement fund and in the improvement bond redemption fund which remain after the costs of each improvement have been fully funded.

b. Enterprise Funds

The City reports the following major enterprise fund:

Waste Treatment Fund

This fund is used to account for activities related to providing sewer services to the public.

c. Internal Service Fund

This fund is used to account for operations that provide services to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis.

d. Agency Funds

Financial statements of agency funds, which are used to account for assets held by the City as an agent for individuals, private organizations, other governments, and/or other funds, are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds assets, liabilities, and net assets are included in the fiduciary statement of net assets.

C. Measurement Focus and Basis of Accounting

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Shared revenues are generally recognized in the period the appropriation goes into effect. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The City considers all revenues as available if collected within 60 days after the end of the current period, except for reimbursement (expenditure driven) grants for which the period is 90 days. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2015

that they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, hotel-motel taxes, licenses and permits, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. *Operating* revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing business operations. The principal operating revenues of the City's enterprise and internal service funds are charges to customers for sales and services. *Operating* expenses for the City's enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use unrestricted resources first, and then restricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Cash and Cash Equivalents

The City has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Additionally, each fund's equity in the City's investment pool is treated as a cash equivalent because the City can deposit or effectively withdraw cash at any time without prior notice or penalty.

2. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the City in certificates of deposit and other authorized investments. Earnings on cash accounts are allocated to individual funds based upon an average of month-end balances.

Investments are stated at fair value based on quoted market prices at the reporting date.

3. Receivables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All receivables are shown net of an allowance for uncollectibles.

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS
December 31, 2015

Property taxes are levied by the City Council in December of each year and are certified to Kandiyohi County for collection in the following year. The property taxes attach an enforceable lien on taxable property within the City on January 1 and are payable by the property owners in two installments in May and October. The County collects the taxes and periodically remits them to the City. The majority of these remittances are made in June and November.

Taxes that are not received by the end of the year are classified as delinquent taxes receivable. Delinquent taxes receivable are offset by a deferred inflow of resources in the governmental funds of the fund financial statements because they are not available to finance current expenditures.

Assessments are levied at various times upon City Council resolution for property owner improvements made by the City. Generally, assessment collections are deferred over periods ranging from one to ten years. Revenue from these assessments is recognized when assessed in the government-wide financial statements and as the annual installments become collectible in the governmental funds of the fund financial statements. Annual installments not collected as of each December 31 are classified as delinquent assessments receivable. Delinquent assessments receivable are offset by a deferred inflow of resources in the governmental funds of the fund financial statements because they are not available to finance current expenditures.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in both government-wide and fund financial statements.

5. Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (such as roads, bridges, sidewalks, and similar items), and are reported in the applicable governmental or business-type activities column in the government-wide financial statements and in the proprietary funds. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the current period, the City did not have any capitalized interest.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	25 - 50
Building improvements	25 - 50
Infrastructure	10 - 20
Furniture, equipment, and vehicles	3 - 20

6. Compensated Absences

It is the City's policy to permit employees to accumulate earned vacation and sick pay benefits. The liability for compensated absences is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the government funds only if they have matured. The City typically liquidates the liability for compensated absences to the fund where employees' salaries were originally charged.

7. Deferred Inflows of Resources

In addition to assets, the statement of financial position and fund financial statements will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The City of Willmar has one item that qualifies for reporting in this category – a deferred outflow relating to pension activity, reported in government-wide statement of net position and proprietary statement of net position. A deferred outflow relating to pension activity results from the net effect of the change in proportionate share and employer contributions.

In addition to liabilities, the statement of financial position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that times. The City of Willmar has one item that qualifies for reporting in this category under full accrual basis of accounting. Accordingly, the item, deferred inflow is reported in the government-wide statement of financial position and proprietary statement of net position. A deferred inflow relating to pension activity is a result of the net difference between projected and actual earning on plan investments. The City of Willmar also has one item that qualifies for reporting in this category under modified accrual basis of accounting. Accordingly, the item, unavailable revenue is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from the following sources; taxes, special assessments and notes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

8. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Pensions

For purposes of measuring the net pension liability or asset, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10. Net Position/Fund Balances

The government-wide and business-type activities fund financial statements use a net position presentation. Net position is categorized as net investment in capital assets (net of related debt), restricted and unrestricted:

Net Investment in Capital Assets - This category includes all capital assets, net of accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets.

Restricted net position - This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This category represents net position of the City, not restricted for any project or other purpose.

In the governmental fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in governmental funds. These classifications are as follows:

Nonspendable – Consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact, such as, inventories and prepaid items.

Restricted – Consists of amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed – Consists of amounts that are constrained for specific purposes that are internally imposed by formal action of the City Council. Those committed amounts cannot be used for any other purpose unless the Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned – Consists of amounts intended for specific purposes set by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to the City's fund balance policy, the City Administrator is authorized to establish assignments of fund balance.

Unassigned – Is the residual classification for the General Fund and reflects negative residual amounts in other funds.

The City of Willmar uses unrestricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balances when expenditures are made.

11. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds and special revenue funds except some capital projects funds, which adopt project-length budgets. All annual appropriations except those for capital outlay lapse at fiscal year end.

On or before the first Tuesday in August of each year, all agencies of the government submit request for appropriations to the Mayor so that a budget may be prepared. In September, the proposed budget is presented to the City's council for review. The council holds public hearings and a final budget must be prepared and adopted no later than December 31.

The appropriated budget is prepared by fund, function and department. The government's City Administrator may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the governing council. The legal level of budgetary control is the department level. All supplemental budgetary appropriations in all funds were approved by the City Council.

B. Deficit Fund Balances

There were no funds with a deficit fund balance as of December 31, 2015.

1. Deposits and Investments (continued)

a. Deposits

Minn. Stat. §§ 118A.02 and 118A.04 authorize the City to designate a depository for public funds and to invest in certificates of deposit. Minn. Stat. § 118A.03 requires that all City deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit plus accrued interest at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better, and revenue obligations rated "AA" or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the City's deposits may not be returned to it. It is the City's policy that collateral or bonds will be required for all uninsured amounts on deposit and the additional insurance will be documented to show compliance with state law and a perfected security interest under federal law. As of December 31, 2015, the City's deposits were entirely covered by federal depository insurance or by collateral held by the City or its agent in the City's name.

b. Investments

Minn. Stat. §§ 118A.04 and 118A.05 generally authorize the following types of investments as available to the City:

- (1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. § 118A.04, subd. 6;
- (2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) bankers' acceptances of United States banks;
- (5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. It is the City's policy to minimize its exposure to interest rate risk by investing in both shorter and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time, taking into account the City's investment risk constraints, cash flow characteristics of the portfolio, and prudent investment principles.

	Fair Value	Investment Maturities in Years		
		Less than 1	1-5 Years	6-10 Years
Certificates of Deposit	\$ 3,850,753	\$ 1,693,236	\$ 2,157,517	\$ -

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the City's policy to invest only in securities that meet the ratings requirements set by state statute. The City's investments are rated as follows:

	Rating
Commerical Paper	A1/P1 and A1+/P1
US Government Securities	AAA
Mutual/Bond Funds	Not Rated

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities in the possession of an outside party. The City's policy is that brokers may hold City investments only to the extent that there is SIPC and excess SIPC coverage available.

The issuers and amounts that exceed five percent of the City's investments are as follows:

Issuer	Amount	Percent
Morgan Stanley Smith Barney	\$ 6,690,912	16%
Multi-Bank Securities	\$ 2,980,370	7%
United Bank Services	\$ 14,702,256	35%

Wells Fargo Advisors	\$ 8,249,976	19%

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the City's investment in a single issuer. The City's investment policy dictates that it will diversify its investments by security type and by institution. The security types and amounts that exceed five percent of the City's total investments are as follows:

<u>Security Type</u>	<u>Amount</u>	<u>Percent</u>
Certificates of Deposit	\$ 3,850,753	9%
Federal Farm Credit Banks	\$ 5,939,524	14%

NOTE 4 DEFINED BENEFIT PENSION PLANS

A. Plan Description

The City of Willmar participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City of Willmar are covered by the General Employees Retirement Fund (GERF). GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

2. Public Employees Police and Fire Fund (PEPFF)

The PEPFF, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90% funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan members is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equals 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

2. PEPFF Benefits

Benefits for the PEPFF members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50% after five years up to 100% after ten years of credited service. Benefits for PEPFF members first hired after June 30, 2014, vest on a prorated basis from 50% after ten years up to 100% after twenty years of credited service. The annuity accrual rate is 3% of average salary for each year of service. For PEPFF who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equals at least 90.

NOTE 4 DEFINED BENEFIT PENSION PLANS (Continued)

B. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. GERF Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.50%, respectively, of their annual covered salary in calendar year 2015. The City of Willmar was required to contribute 11.78% of pay for Basic Plan members and 7.50% for Coordinated Plan members in calendar year 2015. The City of Willmar's contributions to the GERF for the year ended December 31, 2015, were \$265,540. The City of Willmar's contributions were equal to the required contributions as set by state statute.

2. PEPFF Contributions

Plan members were required to contribute 10.8% of their annual covered salary in calendar year 2015. The City of Willmar was required to contribute 16.20% of pay for PEPFF members in calendar year 2015. The City of Willmar's contributions to the PEPFF for the year ended December 31, 2015, were \$359,668. The City of Willmar's contributions were equal to the required contributions as set by state statute.

C. Pension Costs

1. GERF Pension Cost

At December 31, 2015, the City of Willmar reported a liability of \$3,187,249 for its proportionate share of the GERF's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City of Willmar's proportion of the net pension liability was based on the City of Willmar's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014, through June 30, 2015, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the City of Willmar's proportion was .0615% which was an decrease of .0064% from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the City of Willmar recognized pension expense of \$348,857 for its proportionate share of the GERF's pension expense.

At December 31, 2015, the City of Willmar reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual investment earnings	\$ 301,722	\$ -
Differences between expected and actual economic experience	-	160,692
Changes in proportion and differences between contributions made and City's proportionate share of contributions	-	225,480

2016	\$ (53,293)
2017	\$ (53,293)
2018	\$ (53,294)
2019	\$ 75,430

2. PEPFF Pension Costs

At December 31, 2015, the City of Willmar reported a liability of \$2,726,962 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City of Willmar's proportion of the net pension liability was based on the City of Willmar's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014, through June 30, 2015, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the City of Willmar's proportion was .240% which was a decrease of .008% from its proportion measured as of June 30, 2014.

For the year ended December 31, 2015, the City of Willmar recognized pension expense of \$455,710 for its proportionate share of the PEPFF's pension expense. The City of Willmar also recognized \$21,600 for the year ended December 31, 2015, as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's on-behalf contributions to the PEPFF. Legislation passed in 2013 required the State of Minnesota to begin contributing \$9 million to the PEPFF each year, starting in fiscal year 2014.

At December 31, 2015, the City of Willmar reported its proportionate share of the PEPFF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual investment earnings	\$ 475,128	\$ -
Differences between expected and actual economic experience	-	442,224
Changes in proportion and differences between contributions made and City's proportionate share of contributions	-	72,003

NOTE 4 DEFINED BENEFIT PENSION PLANS (Continued)

\$179,676 reported as deferred outflows of resources related to pensions resulting from City of Willmar contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended December 31:</u>	<u>Pension Expense Amount</u>
2016	\$ 15,937
2017	\$ 15,937
2018	\$ 15,937
2019	\$ (102,845)

E. Actuarial Assumptions

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.75% per year
Active Member Payroll Growth	3.50% per year
Investment Rate of Return	7.90%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2000 tables for males or females, as appropriate, with slight adjustments. Benefit increases for retirees are assumed to be 1% effective every January 1st through 2026 and 2.5% thereafter.

Actuarial assumptions used in the June 30, 2015, valuation were based on the results of actuarial experience studies. The experience study in the GERF was for the period July 1, 2004, through June 30, 2008, with an update of economic assumptions in 2014. Experience studies have not been prepared for PERA's other plans, but assumptions are reviewed annually.

There were no changes in actuarial assumptions in 2015.

The long-term expected rate of return on pension plan investments is 7.9%. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Stocks	45%	5.50%
International Stocks	15%	6.00%
Bonds	18%	1.45%
Alternative Assets	20%	6.40%
Cash	2%	0.50%

NOTE 4 DEFINED BENEFIT PENSION PLANS (Continued)

F. Discount Rate

The discount rate used to measure the total pension liability was 7.9%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following presents the City of Willmar's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City of Willmar's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (6.9%)	Discount Rate (7.9%)	1% Increase in Discount Rate (8.9%)
City's proportionate share of the GFRF net pension liability	\$ 5,011,489	\$ 3,187,249	\$ 1,680,708
City's proportionate share of the PEPFF net pension liability	\$ 5,314,877	\$ 2,726,962	\$ 588,893

NOTE 5 DEFINED BENEFIT PENSION PLANS – STATEWIDE VOLUNTEER FIREFIGHTERS FUND

Plan Description

The Willmar Fire Department participates in the Statewide Volunteer Firefighter Retirement Plan (SVF), an agent multiple-employer lump-sum defined benefit pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). The SVF plan covers volunteer firefighters of municipal fire departments or independent nonprofit firefighting corporations that have elected to join the plan. As of December 31, 2014, the plan covered 31 active firefighters and 11 vested terminated fire fighters whose pension benefits are deferred. The plan is established and administered in accordance with Minnesota Statutes, Chapter 353 G.

Benefits Provided

The SVF provides lump-sum retirement, death, and supplemental benefits to covered firefighters and survivors. Benefits are paid based on the number of years of service multiplied by a benefit level per year of service approved by the City. The benefit is selected from 71 possible levels in \$100 increments ranging from \$500 to \$7,500 per year of service. Members are eligible for a lump-sum retirement benefit at 50 years of age with five years of service. Plan provisions include a pro-rated vesting schedule that increases from 5 years at 40% through 20 years at 100%.

Contributions

The SVF is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota Statutes. The State of Minnesota contributed \$98,932 in fire state aid to the plan on behalf of the Willmar Fire Department for the year ended December 31, 2014, which was recorded as a revenue. Required employer contributions are calculated annually based on statutory provisions. The City's statutorily-required contributions to the SVF plan for the year ended December 31, 2015, were \$0. The City's contributions were equal to the required contributions as set by state statute.

Pension Costs

At December 31, 2015, the City reported a net pension asset of \$309,230 for the SVF plan. The net pension asset was measured as of December 31, 2014. The total pension liability used to calculate the net pension asset in accordance with GASB 68 was determined by PERA applying an actuarial formula to specific census data certified by the fire department as of December 31, 2014. The following table presents the changes in net pension asset during the year.

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)

2018	\$ 12,036
2019	\$ 12,036

Actuarial Assumptions

The total pension liability at December 31, 2014, was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

- Retirement eligibility at the later of age 50 or 20 years of service
- Investment rate of return of 6.0%
- Inflation rate of 3.0%

There were no changes in actuarial assumptions in 2014.

Discount Rate

The discount rate used to measure the total pension liability was 6.0%. The projection of cash flows used to determine the discount rate assumed that contributions to the SVF plan will be made as specified in statute. Based on that assumption and considering the funding ratio of the plan, the fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liability Sensitivity

The following presents the City's net pension asset for the SVF plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension asset would be if it were calculated using a discount rate 1% lower or 1% higher than the current discount rate:

Investment Policy (Continued):

undertaken by the SBI are governed by the prudent person rule and other standards codified in *Minnesota Statutes*, Chapter 11A and Chapter 356A. Within the requirements defined by state law, the SBI, with assistance of the SBI staff and the Investment Advisory Council, establishes investment policy for all funds under its control. These investments policies are tailored to the particular needs of each fund and specify investment objectives, risk tolerance, asset allocation, investment management structure and specific performance standards. Studies guide the on-going management of the funds and are updated periodically.

Asset Allocation:

To match the long-term nature of the pension obligations, the SBI maintains a strategic asset allocation for the Statewide Volunteer Firefighter Retirement Plan (VOLP) that includes allocations to domestic equity, international equity, bonds and cash equivalents. The long-term target asset allocation and long-term expected real rate of return is the following:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Stocks	35%	5.50%
International Stocks	15%	6.00%
Bonds	45%	1.45%
Cash	5%	0.50%

The 6% long-term expected rate of return on pension plan investments was determined using a building-block method. Best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using both long-term historical returns and long-term capital market expectations. The asset class estimates and the target allocations were then combined to produce a geometric, long-term expected real rate of return for the portfolio. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

Description of significant investment policy changes during the year: The SBI made no significant changes to their investment policy during Fiscal Year 2015 for the Statewide Volunteer Firefighter Retirement Plan.

Pension Plan Fiduciary Net Position

Detailed information about the SVF plan's fiduciary net position as of June 30, 2015, is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org; by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088; or by calling (651) 296-7460 or 1-800-652-9026.

NOTE 6 DEFINED CONTRIBUTION PLAN

Nine council members and mayor, of the City of Willmar are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by PERA. The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

CITY OF WILLMAR, MINNESOTA
NOTES TO FINANCIAL STATEMENTS

NOTE 6 DEFINED CONTRIBUTION PLAN (Continued)

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5% of salary which is matched by the elected official's employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2% of employer contributions and twenty-five hundredths of 1% (.0025) of the assets in each member's account annually.

Total contributions made by the City of Willmar during fiscal year 2015 were: \$-0-

NOTE 7 OTHER POST EMPLOYMENT BENEFITS

Primary Government

The City has not adopted Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions* (OPEB) as it relates to the Primary Government. This Statement establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers.

Component Units

Willmar Municipal Utilities

In 2015, the Utilities began contributing to the single-employer defined benefit plan ("the Plan") that provides health, dental, and life insurance to eligible employees and their families through the Utilities commercial insurance plans. There are 60 active participants and 10 retired participants. Benefit and eligibility provisions are established through negotiations between the Utilities and employee groups including a union. The union contract is renegotiated each two-year bargaining period. The Plan does not issue a publicly available financial report.

Contribution requirements are negotiated between the Utilities and employees. The Utilities contributed 0% - 100% of the cost of current-year premiums for eligible retired plan members and their spouses. For 2015, the Utilities contributed \$157,825 to the Plan. The Plan is financed on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The Utilities annual other postemployment benefit (OPEB) costs (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs for each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

Funding Status

As of December 31, 2014, the most recent actuarial valuation date, the Utilities' unfunded actuarial accrued liability (UAAL) was \$1,801,808. The covered payroll (annual payroll of active employees covered by the Plan) was \$3,999,640 and the ratio of the UAAL to the covered payroll of 45.0%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with the past expectations and the new estimates are made about the future.

Rice Memorial Hospital

As of December 31, 2008 the Hospital implemented the requirements of Governmental Accounting Standards Board (GASB) No. 45, *Accounting and Financial Reporting by Employers for Post-employment Benefits Other than Pensions*. Qualified employees may choose to participate in the Hospital's insurance plan after retirement, with no contribution from the Hospital. The Hospital provides these benefits to retirees as required by Minnesota Statute 471.61 subdivision 2b. As of December 31, 2015, there were approximately 714 active employees subject to potential future benefit and 18 retirees receiving benefits from the Hospital's health insurance plan. The Hospital has chosen to fund the retiree medical plan on a pay-as-you-go basis.

NOTE 8 RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT) which is a risk sharing pool with approximately 800 other governmental units. This City pays an annual premium to LMCIT for its workers compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. Settled claims have not exceeded the City's coverage in any of the past three fiscal years.

The workers' compensation policy is a retrospectively rated policy with premiums that accrue based on the ultimate cost of the experience to date. There is no way to estimate what the change in premium may be. Generally, it has been minimal.

NOTE 9 CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

NOTE 10 LEASE AGREEMENTS

The City has entered into an agreement with Kandiyohi County to lease space for the Willmar Police Department. The term of the lease is 20 years commencing October 2000. The agreement requires annual payments of \$175,000.

Effective January 1, 2015, Kandiyohi Area Transit combined with Renville County Heartland Express to form Central Community Transit (CCT). The CCT Board is made up of two members appointed by Kandiyohi County, two members appointed by the City of Willmar, one elected official from other local governments in Kandiyohi County, and two members appointed from Renville County. Complete financial information for CCT can be obtained at Central Community Transit, 1320 22nd Street SW, Willmar, Minnesota 56201.

NOTE 12 SUBSEQUENT EVENTS

In preparing these financial statements, the City of Willmar, Minnesota, has evaluated events and transactions for the potential recognition or disclosure through June 30, 2016, the date the financial statements were available to be issued.

NOTE 13 PRIOR PERIOD ADJUSTMENT

As of January 1, 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. This implementation requires the City to report its proportionate share of collective net pension liability, deferred inflows of resources and deferred outflows of resources, and pension expense and to reflect an actuarially determine liability for the present value of projected future benefits for retired and active employees less the pension plan's fiduciary net position on the financial statements.

The beginning net position of the governmental activities and business-type activities has been adjusted \$4,769,867 and \$514,428, respectively, to reflect this change in accounting principle.

CITY OF WILLMAR, MINNESOTA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2015

A. Budgets

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds and special revenue funds except some capital projects funds, which adopt project-length budgets. All annual appropriations except those for capital outlay lapse at fiscal year end.

On or before the first Tuesday in August of each year, all agencies of the government submit request for appropriations to the Mayor so that a budget may be prepared. In September, the proposed budget is presented to the City's council for review. The council holds public hearings and a final budget must be prepared and adopted no later than December 31.

The appropriated budget is prepared by fund, function and department. The government's City Administrator may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the governing council. The legal level of budgetary control is the department level. All supplemental budgetary appropriations in all funds were approved by the City Council.
