

**Southwest Area
Incident Management Team
TEAM 5 – MARK BERNAL – INCIDENT COMMANDER**

Phone Line: 505-357-0683; Hours: 8 am – 8 pm

Media Phone Line: 505-445-8278

Email: 2022.cookspeak@firenet.gov

**Cooks Peak Fire community meeting scheduled for 7 p.m. tonight
Fire behavior will moderate today with arrival of snow, but remains active**

Morning Update 4/25/2022

Acres: 51,982 acres

Start Date: Sunday, April 17, 2022

Location: North of Ocate NM, approximately 46 miles north of Las Vegas, NM

Cause: Unknown, under investigation

Containment: 9%

Fuels: ponderosa pine, oak brush and grass

Announcement: The Southwest Area Incident Management Team will host a community meeting on Monday, April 25, 2022, at 7 p.m. to provide updates on the Cooks Peak Fire. The meeting will be held in the Wagon Mound High School Gym at 300 Park Ave., in Wagon Mound. Interested attendees can participate in-person or virtually, via Cooks Peak Fire Facebook Livestream at <https://www.facebook.com/CooksPeakFireInfo/>.

Current Evacuations for Mora and Colfax Counties: **Colfax County – GO-** Sweetwater, Rayado, and Sunnyside – evacuate now! **SET** – Philmont Scout Ranch and Miami. **Ready:** Cimarron and Angel Fire. Residents in Colfax County should sign up now for Code Red. This system notifies residents of evacuation status. For notifications, sign up on the Colfax County website: http://www.co.colfax.nm.us/government/emergency_management.php
Mora County – GO: Los LeFebres and Los Huerros, residents east of County Road 009 and north of NM Highway 120. **Ready:** Lucero and Los Cocas, residents west of County Road 009 and north of Highway 120. The Mora and Colfax County Sheriff's Offices are using the [Ready! Set! Go!](#) program for evacuation status that provides information on evacuation and evacuation preparation.

Evacuation center is set up at Old Memorial Middle School, 947 Old National Rd, Las Vegas; and Colfax County Fairgrounds, 16 Airport Road, Springer.

Livestock: Residents can evacuate livestock to the Colfax County Fairgrounds. If residents from Mora need a place for horses, the Taos Rodeo Grounds is available. Contact: Livestock Inspector Ruben Baca 505-770-1490.

Fire Update: Active fire behavior continued across the Cooks Peak Fire on Sunday. Ground crews across the fire area continued to construct hand and dozer line while helicopters performed aerial firing operations. Crews successfully performed firing operations on the west side of Sweetwater to protect the community. Helicopters with buckets dropped water to protect structures east of Rayado Peak. Additionally, firefighters gained containment above Naranjos, on the southeast side of the fire.

Fire behavior is expected to moderate today with the arrival of colder temperatures, rain and snow. This change in weather should provide an opportunity for crews to gain ground on the fire, but fire behavior will remain active, especially where topography and drought stressed fuels align. Ground crews will continue working hard to secure the northern perimeter, where weather, topography and fire behavior made firefighting especially difficult in previous days. Firing operations will be conducted on the east side from Aguater Canyon to Apache Mesa, if weather allows, which may increase smoke. Crews will continue to secure and hold the fire perimeter.

Structural assessments are still underway, and crews will continue to identify any structures impacted by the fire. A temporary flight restriction (TFR) remains in place over the fire area.

The Incident Management Team continues to work closely with the local unit, stakeholders and fire behavior, and mapping specialists to determine the best firefighting tactics and response for the important values in and around the fire area. This assists administrators in determining primary, alternate contingency and emergency firelines to ensure a coordinated response to changing conditions.

Weather: Sunday featured moderate fire weather conditions, due to cooler temperatures, lighter winds, and more clouds over the Cooks Peak Fire. Last night, a cold front pushed in from the north, bringing rain and higher elevation snow showers. Snow accumulations range from 1-4 inches for the fire area. Winds remain relatively light through the day, shifting from easterly to southerly through the afternoon.

Highway Closures: The Cooks Peak Fire closed a portion NM120, from mile marker 14, three miles west of Ocate to mile marker 26, five miles east of Naranjos and at the junction of highway 442 and 120. NM21 is also closed from mile marker 0 in Cimarron to mile marker 34 in Springer. Motorists are advised to delay travel or to seek alternate routes. Visit <https://nmroads.com/mapIndex.html> for additional information.

Smoke: The cooler air mass pressing in from the north and east through Monday morning will result in broad improvements for the I-25 corridor and areas north/east of NM 21. Gusty southerly winds will quickly return to the area by Tuesday. Residents are encouraged to stay informed of potential changes by visiting the interactive smoke map at <https://fire.airnow.gov/>, which allows you to zoom into your area to see the latest smoke conditions.
