

PUBLIC SERVICE ANNOUNCEMENT

Due to recent allegations posted on Facebook, the City of Deming will be contracting with an independent auditor, Carr, Riggs, Ingram CPAs and Advisors, to perform an audit on metered utilities. The contract will include an audit on the entire utility billing process from start to finish. They will be reviewing procedures for receiving meter readings; importing readings into Triadic financial software; the process used by the billing clerk to review and check readings; posting charges to customers' accounts; and receiving payments from customers. In addition, a review of forensic activity will be requested as part of the contract. The results will be made available to the community immediately upon completion.
