Dumfries Unveils CodeRED Emergency Notification Services

In the continual pursuit to better serve residents, the Town has implemented CodeRED, a high-speed emergency mass notification service provided by OnSolve, LLC.

The CodeRED system will serve as critical component of the Town's emergency planning and communications outreach to both citizens and staff. The system sends telephone calls, text messages, emails and posts to social media channels to inform residents to better protect life and property.

"In alignment with the Town's strategic priorities, this is an additional tool we will utilize to provide critical information to our residents, shared Town Manager, Keith Rogers Jr."

CodeRED is successfully utilized by localities across the U.S. The Town will use this system to notify residents of road closures, floods, and other weather related emergencies. All Dumfries residents encouraged to sign up for these alerts through the Town website:
