

**DuPage County Environmental, Safety, Health & Property Loss Control Program
Fire Protection Detection and Suppression Inspection and Maintenance Program**

Purpose: To establish the minimum requirements for vendors and staff to follow when inspecting, testing and maintaining our fire protection systems. These will assist in keeping our fire protection systems functioning as designed and adhering to our Property Insurance carrier's requirements.

Policy: All Department Facilities / Site managers are to follow the minimum requirements in Exhibit 1.

Written Records: Written records of all fire protection inspections and tests conducted by vendors and/or staff are to be kept at the FAP, riser and/or fire pump the test results are for or in an open file readily available for review.

Sample test forms:

Exhibits 2 & 3.
