The Honorable John Hickenlooper
United States Senate
374 Russell Senate Building
Washington, DC 20510

Dear Senator Hickenlooper:

We respectfully submit this letter in support of the Community Office of Resource Efficiency's (CORE) application for funding from Congressionally Directed Spending for fiscal year 2025.

CORE has a long history with Eagle County to reduce our region's impact on climate change through the reduction of greenhouse gas emissions from the built environment. In working with CORE we have achieved success, but there is more work to be done.

To continue with this work, we must rapidly increase our energy efficiency and electrification efforts and build the necessary green workforce competency and capacity to do so. With CORE's support, Eagle County is poised to make transformative, sustainable, and measurable change through our collaborative efforts to reduce consumption, strengthen renewable energy capacity, and ensure that the county's citizens can participate in and benefit from carbon cutting efforts.

We appreciate your consideration of CORE's application.

Sincerely,

Matt Scherr
Chair

Jeanne McQueeney
Commissioner

Kathy Chandler-Henry
Commissioner
