

**Colorado Discharge Permit System (CDPS)
 Fact Sheet for Modification 1
 Permit Number CO0048830
 TOWN OF GYPSUM, GYPSUM WWTF, EAGLE COUNTY**

**Nathan Bradley
 Public Notice Draft
 4/8/2021**

TABLE OF CONTENTS

I.	TYPE OF PERMIT	1
II.	FACILITY INFORMATION	1
III.	CHANGES MADE AS A RESULT OF THE MODIFICATION	1

I. TYPE OF PERMIT

- A. Type of Modification:** Modification 1 - Minor Modification, Division - Initiated (no fee)
- B. Discharge To:** Surface Water

II. FACILITY INFORMATION

- A. SIC Code:** 4952 Sewerage Systems
- B. Legal Contact/Permittee:** Jeff Shreeve, Public Works Director
 PO Box 130, Gypsum, CO 81637
 (970) 524-5024
- C. Facility Location:** 437 Porphyry Road, Gypsum, CO 81637,
 Latitude: 39.6522° N, Longitude: 106.9623° W

III. CHANGES MADE AS A RESULT OF THE MODIFICATION

The following changes have been made to the Permit regarding acute WET testing:

1. In Part I.A.2 of the permit, Quarterly Reporting for acute WET testing, until 1/31/2022, has been added to the Permitted Feature/Limit Set 001A table.
2. In Part I.A.2 of the permit, the effective date for Quarterly acute WET testing limits has been changed from 1/31/2022 to 2/1/2022 in the Permitted Feature/Limit Set 001A table.
3. The Acute WET Testing - Outfall: 001A section explaining the acute WET testing requirements has been added to Part I.B.5 of the permit. The Compliance Schedules section has been moved to Part I.B.6 of the Permit and the Pretreatment Program - Industrial Waste Management section has been moved to Part I.B.7 of the Permit.

The division has made the following changes to Table IV-1 - Lift Station Summary in the Fact Sheet to reflect the Main Plant Lift Station Upgrade that was outlined in Site Approval No. 4479:

Table IV-1 summarizes the information provided in the renewal application for the lift stations in the service area.

Table IV-1 - Lift Station Summary

Station Name/#	Firm Pump Capacity (gpm)	Peak Flows (gpd)	% Capacity (based on peak flow)
Main Lift Plant WW	4 @ 2650	--	--
Rivers Edge	2 @ 125	5,404	2%
Willow Stone	2 @ 100	18,014	6%
Cotton Ranch	2 @ 100	2,402	1%
Park View	2 @ 100	1,201	0.4%
Whistlers Cove	2 @ 100	2,402	1%

Table IV-1 has been updated with the Firm Pump Capacity of the Main Lift Plant WW Station outlined in Site Approval 4479. The Town of Gypsum WWTF did not provide the Peak Flow of the Main Lift Plant WW Station so the division was unable to calculate the % Capacity of the Main Lift Plant WW Station.
