## PERMITS APPLIED BY TYPE (04/15/2024 TO 04/19/2024)

| Permit #  | Type        | Workclass | Main Address                             | District     | Valuation | App Date   | Issue Date |
|---|-------------|-----------|--|--------------|-----------|------------|------------|
| <b>OWTS-029262-2024</b>   | OWTS Permit | New       | 185 Rolling Hills Dr<br>Edwards Area, CO | Edwards Area | \$0.00    | 04/19/2024 |            |
| <p><i>Description: Install the new system exactly as depicted in the Kumar &amp; Associates design dated January 9th, 2024, stamped and signed on January 10th, 2024 by David A Young, PE. This system is designed to accommodate the maximum daily flows for a 6 bedroom residence.</i></p> <p><i>The OWTS consists of one sewer line from the residence. A Valley Precast, 2,000 gallon, three-compartment, concrete septic tank equipped with an Orenco PF3005 high head pump and an effluent filter in the outlet tee shall be used. The pump will be set to dose 77 gallons per dose. An ADV will be accessible at the high point of the system. The STA consists of three trenches of 18 Infiltrator Quick4 Plus Standard chambers for a total of 54. An additional test pit must be conducted and reviewed by the Design Engineer, prior to installation, installation down-gradient and immediately adjacent to the proposed location of the soil treatment area (STA) to confirm soils tested in test pits 1 and 2.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p> |             |           |  |              |           |            |            |
