| OWTS-029434-2024 | OWTS Permit | Major Repair | 4254 Gypsum Creek Rd<br>Gypsum, CO 81637 | Town of Gypsum | \$0.00 | 05/07/2024 | 05/10/2024 |
|------------------|-------------|--------------|------------------------------------------|----------------|--------|------------|------------|

*Description: This system is designed to replace the existing unpermitted septic system. Replace the existing system exactly as depicted in the revised MSD Professional Engineering, Inc. design, stamped signed and dated on May 9, 2024. The new system will be sized to accommodate the maximum daily flows for a 3 bedroom residence. The existing tank must be abandoned as indicated in the approved plans and ECPHE OWTS Regs.*

*This OWTS consists of a 4" sewer line from the residence to a Norwesco 1500 gallon (or equivalent), two-chamber septic tank with an effluent filter in the outlet tee. A cleanout must be located within 5 feet of the residence. Effluent will flow from the tank to a heavy duty HDPE thick-walled poly, or concrete, distribution box. Effluent line must be 4" SDR35 or equivalent. The distribution box must be equipped with levelers to ensure equal flow to the trenches, and be accessible at grade.*

*Effluent will flow from the distribution box in 4 lines to the soil treatment area. The STA consists of 4 shallow trenches of 16 Infiltrator Quick 4 Plus Standard chambers for a total of 64 chambers. Infiltrative surface must be within 48" of grade. Walls and infiltrative surface must be raked if necessary to prevent smearing.*

*Scott Cliver is listed as the OWTS Installer on this permit. Please notify this department if there are any changes.*

*Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system.*

## PERMITS APPLIED BY TYPE (05/06/2024 TO 05/10/2024)
