## PERMITS APPLIED BY TYPE (04/17/2023 TO 04/23/2023)

Permit #	Type	Workclass	Main Address	District	Valuation	App Date	Issue Date
<b>OWTS Permit</b>							
<b>OWTS-026529-2023</b>	OWTS Permit	New	3990 Bellyache Ridge Rd, 2 Wolcott Area, CO	Wolcott area	\$2,005,025.00	04/17/2023	04/17/2023
<p><i>Description: Install the new system exactly as depicted in the Kumar &amp; Associates design dated January 24th, 2023, stamped and signed on January 25th, 2023 by David A Young. This system is designed to accommodate the maximum daily flows for a 6 bedroom residence.</i></p> <p><i>The OWTS consists of one sewer line from the residence. . The OWTS consists of a Valley Precast 2,000 gallon three-compartment septic tank (2,500 gallon total volume) with an ORENCO PF3005 submersible effluent pump and Biotube Vault installed in the third compartment, with floats set to pressure dose 120 gallons of effluent to the soil treatment area (STA). The STA consists of a 2 rows of 25 Infiltrator Quick4 Plus Standard chambers in a 12 inch thick sand filter placed on top of the native ground. The distribution cell will be 6 feet wide by 100 feet long. The basal area of the mound will be 9.5 feet wide by 100 feet long. The bed and sand filter should be sloped no more than 3 horizontal and 1 vertical in all directions. Distribution lateral size, orifice size, and orifice separation shall be exact to design. Gradation analysis must confirm that sand is secondary sand media prior to installation. The water line and well location must be notated on the record drawing.</i></p> <p><i>A licensed installer has not been identified. No person shall install, renovate, or repair an OWTS in Eagle County (EC) without a valid EC Systems Contractor License. Any person that conducts a business as a systems contractor without having obtained a valid license section commits a Class 1 petty offense as defined in section 18-1.3-503, C.R.S. Please notify the department when an installer is identified, prior to installation of the OWTS.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>							
<b>OWTS-026541-2023</b>	OWTS Permit	New	19023 Hwy 131 Bond Area, CO	McCoy / Bond	\$4,500,000.00	04/17/2023	04/26/2023
<p><i>Description: Install the new system exactly as depicted in the Kumar &amp; Associates design dated April 4th, 2023, stamped and signed on April 5th, 2023 by David A Young. This system is designed to accommodate the maximum daily flows for a seven bedroom residence and a three bedroom guest house.</i></p> <p><i>The OWTS consists of two sewer lines, one from the main residence and one from the guest house. A Valley Precast 2,500 gallon, two-compartment septic tank will be used for primary treatment at the main residence and two Valley Precast 1,000 gallon, single compartment septic tanks will be used for primary treatment at the guest house and at the pavilion. A Valley Precast 500 gallon, single compartment septic tank will be used for pressure dosing. A Biotube Pump Vault with an Orenco PF3005 high head pump set to dose 115 gallons per dose will be installed inside the dosing tank. An Orenco V6404 Automatic Distributing Valve will be accessible at the high point of the system. Cleanouts will be located every 100' in the effluent line. The STA consists of 6 trenches of 20 Infiltrator Quick4 Plus Standard chamber for a total of 120. The bottom of the trenches should not be deeper than 2.5 feet. The water line and well should be notated on the record drawing. Install distribution lateral orifice size, orifice shields, spacing, and flushing assemblies should be completed as designed. Do not dig in wet or frozen ground.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>
