<i>Description: Boiler and indirect water heater replacement</i>							

PERMITS APPLIED FOR MECHANICAL PERMIT: 11

OWTS Permit

OWTS-027471-2023*	OWTS Permit	New	, CO	Basalt area	\$0.00	07/25/2023	07/25/2023
<i>Description: Install the new system exactly as depicted in the Crystal River Civil design dated June 5, 2023 stamped and signed by Vince Tomczak, P.E. This system is designed to accommodate the maximum daily flows for a 6 bedroom residence.</i>							
<i>The OWTS consists of one sewer line from the residence. A 2000 gallon, concrete, two-compartment, Valley Precast septic tank with an effluent filter in the outlet tee will be used. Effluent will leave the tank and enter a concrete 7 hole distribution box installed to be accessible at grade.</i>							
<i>The STA will consist of a single bed with 4 rows of 15 Infiltrator Quick 4 Plus Standard chambers (60 chambers total). Two distribution lines from the D-box will lead to headers that will be installed level to prevent preferential flow into the field. Header pipes will terminate 3" into the Infiltrator Standard End Caps, and splash plates will be used to prevent erosion in the chambers.</i>							
<i>10' setback shall be maintained between tank and all storm water drainage components. Where sewer and effluent lines cross storm drain components, the sewer or effluent line shall be encased for entire 10' setback distance.</i>							
<i>Do not dig in wet or frozen ground. Maintain well, utility, storm drain and ditch setback distances as shown.</i>							
<i>E & L Excavation and Trucking has been identified as the licensed contractor for this permit. Please notify this department if there is a change to the licensed contractor.</i>							
<i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i>							
OWTS-027474-2023	OWTS Permit	New	300 Timber Spring Dr Edwards Area, CO	Edwards Area	\$4,500,000.00	07/26/2023	07/27/2023

PERMITS APPLIED BY TYPE (07/24/2023 TO 07/28/2023)

Permit #	Type	Workclass	Main Address	District	Valuation	App Date	Issue Date
	<p><i>Description: Install the new system exactly as depicted in the LKP Inc design dated, stamped and signed on July 26th, 2023 by Luiza Petrovska, PE. This system is designed to accommodate the maximum daily flows for a 5 bedroom residence.</i></p> <p><i>The OWTS consists of one sewer line from the residence. A Valley Precast 1,500 gallon, concrete, two-compartment septic tank with an effluent filter in the outlet tee shall be used. Effluent will flow to the STA serially to 5 rows of Infiltrator Quick4 Plus Standard chambers. The two trenches on the ends will have 18 chambers while the middle three trenches have 22 chambers for a total of 100.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>						
OWTS-027481-2023	OWTS Permit	Major Repair	3434 Gypsum Creek Rd Gypsum Area, CO	Gypsum area	\$0.00	07/26/2023	
	<p><i>Description: Install the system exactly as depicted in the revised Kumar and Associates design dated July 11, 2023, stamped and signed on July 13, 2023 by David A. Young, PE. This system is designed to accommodate the maximum daily flows for a 5 bedroom residence and is replacing the system installed under permit 1028-90IS. The existing tank will be removed or abandoned per ECPHA OWTS regs.</i></p> <p><i>The OWTS consists of one sewer line from the residence to a 2000 gallon, two-compartment, Valley Precast septic tank with an effluent filter in the outlet tee. Tank risers will be installed to, or above, grade and all connections to tank must be sealed to be water tight. Effluent will gravity flow from the tank to the Valley Precast 8 hole, concrete distribution box. Schedule 40 PVC pipe must be used under the driveway surface. Effluent lines from the distribution box shall be equipped with flow equalizers to ensure equal distribution in the STA. The STA will consist of four trenches with 18 Infiltrator Quick 4 Plus Standard chambers placed in each trench for 72 chambers total. Inspection ports should be present at the end of each trench.</i></p> <p><i>Maintain any setback to water supply line as stated in ECPHA OWTS Regs, Table 7-1.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>
