| <p><i>Description: Install the vault privy exactly as depicted in the Brock Civil design dated September 15, 2023 stamped and signed by Vern Brock, P.E. This system will serve as a vault privy for a two bedroom residence.</i></p> <p><i>The original vault system, installed under Eagle County OWTS Permit 2556-06IS, will remain in place. The sewer line from the cabin will be relocated to allow the new vault to be placed immediately adjacent to the existing vault. A cleanout must be located within 5 feet of the building for the sewer line to the existing vault. All replaced sewer line must be properly bedded.</i></p> <p><i>The new vault will be a 500 gallon, Valley Precast concrete vault. The new vault privy must be installed in accordance with Eagle County OWTS Reg. 43.12(D)(1)d "A vault privy must be built to include: fly- and rodent-tight construction, a superstructure affording complete privacy, an earth mound around the top of the vault and below floor level that slopes downward away from the superstructure base, a floor, and a riser of concrete or other impervious material with hinged seats and covers of easily cleanable, impervious material. All venting must be flyproofed with No. 16 or tighter mesh screening."</i></p> |             |           |                                    |            |                |            |            |
