OWTS Permit

OWTS-021822-2021	OWTS Permit	Minor Repair	6657 Bellyache Ridge Rd Wolcott Area, CO	Wolcott area	\$0.00	07/06/2021	07/06/2021
-------------------------	-------------	--------------	---	--------------	--------	------------	------------

Description: Complete replacement of the original system, permit 1482-95, as depicted in the LKP Engineering design, stamped, signed, and dated July 20, 2021, by Luiza Petrovska. The new system is designed to serve the existing 5 bedroom residence. The chambers in the soil treatment area were observed full of soil during a site visit on July 16th upon inspection of the permitted tank replacement was observed completed on July 15th, as depicted in the LKP Engineering Inc design dated June 24, 2021. The failed tank was completely removed in conformance with ECPHA OWTS Regulation 43.9.C.

The replacement system consists of the new 1,500 gallon two compartment Roth Poly septic tank with effluent filter in the outlet tee, followed by a 500 gallon dosing tank, equipped with a Infiltrator PF500511 high head effluent pump with floats set to deliver 90 gallons of effluent per dose to the soil treatment area (STA). The STA consists of an over excavated bed with three feet of sand media with four pressurized pipes within 4 rows of 16 Quick4 Standard Plus Infiltrator chambers, for a total of 64 chambers.

NOTE: Emergency use of the existing tank is permitted until the STA is replaced and inspected. The tank must be capped and equipped with a high water alarm with floats set to 75% capacity.

Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system.

OWTS-021823-2021	OWTS Permit	New	89 Escalante El Jebel Area, CO	El Jebel	\$600,000.00	07/06/2021	07/06/2021
-------------------------	-------------	-----	-----------------------------------	----------	--------------	------------	------------

Description: Install the OWTS Exactly as depicted in the CBO Septic Consulting design dated April 23, 2021, prepared by Carla Ostberg, stamped, signed, and dated April 27, 2021 by Romeo A. Baylous. PE. The OWTS is designed to serve a new two bedroom single family residence.

The system consists of a 1,000 gallon two-compartment Infiltrator septic tank with an effluent filter in the outlet tee, followed by a distribution box, made accessible at grade, equipped with flow equalizers set to equally distribute effluent between four shallow trenches, each with 14 Quick4 Plus Standard Infiltrator chambers, for a total of 56 chambers. Scarify trench bottoms and sidewalls prior to placement of chambers.

Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.
