OWTS-025195-2022	OWTS Permit	New	3940 Sweetwater Rd Gypsum Area, CO	Dotsero	\$0.00	09/02/2022	09/02/2022
<i>Description: This permits the replacement the the existing OWTS, no original permit was located. Install the new OWTS exactly as depicted in the LKP Engineering, Inc. design stamped, signed and dated October 14, 2021 by Luiza Petrovska, PE. The new system will be sized to accommodate the maximum daily flows for a 3 bedroom residence. Abandonment of the existing tank must be completed in conformance with ECPHA OWTS Regulation 43.9.C.</i>							
<i>This OWTS consists of a three-compartment, 1000 gallon Valley Precast septic tank with an effluent filter between the second and third compartment and an Orenco PF500511 high-head effluent pump in the third compartment. Set the floats to send 90 gallons of effluent to the soil treatment area (STA). The STA consists of 48 Infiltrator Quick 4 Plus Standard chambers arranged in a bed configuration with six rows of 8 chambers set atop two feet of secondary sand.</i>							
<i>Note: Gradation of the sand media use must be completed within one month prior to the installation and confirmed with the design engineer. If the sand does not conform to secondary or preferred sand media requirements, it cannot be used for the sand treatment media.</i>							
<i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system.</i>
