PERMITS APPLIED BY TYPE (10/24/2022 TO 10/28/2022)

Permit #	Type	Workclass	Main Address	District	Valuation	App Date	Issue Date
<p><i>Description: Install the new system exactly as depicted in the CBO Inc design dated July 24th, 2022, stamped and signed on September 26th, 2022 by Romeo A Baylosis, PE. This system is designed to replace the existing OWTS permitted under #0150IS. This system is designed to accommodate the maximum daily flows for a 3 bedroom residence and a 1 bedroom ADU for a total of 4 bedrooms. Abandonment of the existing tank must be completed in conformance with ECPHA OWTS Regulation 43.9.C.</i></p> <p><i>The OWTS consists of 2 sewer lines, one from the ADU and one from the residence. A 1250 gallon Valley Precast, two-compartment concrete septic tank will be used with an effluent filter in the outlet tee. A Polylok 4 hole distribution box equipped with flow equalizers will be accessible at grade. The STA will consist of three trenches with 20 Infiltrator Quick4 Plus chambers for a total 60 and 720 sq ft of infiltrative area. Be sure to encase in Schedule 40 the sewer line where it crosses the water line. Do not dig in wet or frozen ground.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>							
OWTS-025604-2022	OWTS Permit	Major Repair	360 Sierra Vista El Jebel Area, CO	El Jebel	\$80,000.00	10/24/2022	10/26/2022
<p><i>Description: Install the new system exactly as depicted in the CBO Inc design dated October 3rd, 2022, signed and stamped on October 18th, 2022 by Romeo A Baylosis, PE. This system is designed to replace the existing system originally permitted under #0102IS. This system is designed to accommodate the maximum daily flows for 5 bedrooms.</i></p> <p><i>The OWTS consists of one sewer line from the residence. An Infiltrator poly 1,500 gallon, two-compartment septic tank with an effluent filter in the outlet tee will be used. A Polylok 4-hole distribution box equipped with flow equalizers will be accessible at grade. The STA consists of four trenches with 15 Infiltrator Quick4 Plus Standard chambers for a total of 60.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>							
OWTS-025620-2022	OWTS Permit	Major Repair	11 Hawk Ln Basalt Area, CO	Basalt area	\$0.00	10/26/2022	10/27/2022
<p><i>Description: Install the new soil treatment area exactly as depicted in the CBO Inc design dated January 12th, 2022, stamped and signed on January 31st, 2022 by Romeo A Baylosis, PE. This system is designed to replace the existing STA permitted under #1148-92IS. This system is designed to accommodate the maximum daily flows for 3 bedrooms.</i></p> <p><i>The OWTS consists of an existing sewer line from the residence. An existing 1,250 gallon, two-compartment concrete septic tank will remain in use. Risers will be added to bring the lids to grade. A Polylok 3-hole distribution box equipped with flow equalizers will be accessible at grade. The STA consists of three trenches of 15 Infiltrator Quick4 Plus Standard chambers for a total of 45 and 525 sq ft of infiltrative area.</i></p> <p><i>Contact Eagle County Environmental Health and the design engineer well in advance of requesting inspections prior to backfilling any component of the OWTS. The design engineer is responsible for conducting all inspections necessary to certify the installation and assure the functionality of the system. System certification, along with photos and a record drawing is required to be submitted to and approved by Eagle County Environmental Health prior to the use of the system or occupancy of the dwelling.</i></p>
