Re: Edwards Interchange Upgrade Phase II project

Dear Director Goolsby:

Eagle County and the Edwards Metro District are committing to contribute 36% of the total project cost for the Edwards Interchange Upgrade Phase II project. The 36% local match would be \$7,830,000 based on the current total project estimate of \$21.75 million.

In a letter dated January 10, 2017, Eagle County and the Edwards Metro District committed a total of \$925,000 to complete the design of the Edwards Interchange Upgrade Phase II project totaling in local contribution. This would bring the Eagle County and the Edwards Metro District current additional commitment to \$6,905,000 total.

The I-70 Edwards Interchange Upgrade Phase II project continues to be a top priority for our community which will improve a critical choke point at US6 and I-70 Edward Spur Road and improve pedestrian safety on this corridor.

Thank you for your continued commitment and support in addressing the transportation needs of Eagle County residents. We very much look forward to working with you and the CDOT team in completing this vital project. Please do not hesitate to contact us or our County Engineer, Ben Gerdes, at 970-328-3560, if we can provide any additional information or assistance.

Sincerely,

Kathy Chandler-Henry
