Dear Mr. Will:

We are supportive of Colorado Parks and Wildlife's request for Federal assistance under the provisions of Section 216, Public Law 516, to restore damages sustained in Eagle County, Colorado by the Lake Christine Wildfire that began on July 3, 2018. This work is needed to safeguard lives and property from an imminent hazard of flooding and debris flow. We believe that by sponsoring an Emergency Watershed Protection project, Colorado Parks and Wildlife will receive necessary Federal resources to support the safety and welfare of our residents.

Should you need any additional support, the administrative and technical contact persons in our organization are as follows:

Barry Smith, Emergency Manager
