Dear Bob:

We understand that Holy Cross Energy is discussing the possibility of establishing a high speed fiber network to its customer base in support of HCE's long term renewable energy goals, as well as potentially providing customer broadband services. We wanted to convey our interest related to these topics:

- Eagle County is supportive of local efforts focused on expanding the development of sustainable energy sources.
- The communities and citizens within Eagle County have challenges with the availability and reliability of existing broadband services.

We are interested in learning about how the establishment of a fiber network might better support our communities, and are supportive of HCE's efforts to explore and develop this concept. We look forward to hearing more.

Sincerely,

Board of County Commissioners

Jeanne McQueeney
Chair

Kathy Chandler-Henry
Commissioner

Matt Scherr
Commissioner
