Re: Support for Torie Jarvis to be appointed to the Energy Code Board

Dear Mr. Piper, the Colorado Energy Office, and the Colorado Department of Local Affairs,

The Eagle County Board of County Commissioners wholeheartedly endorses Torie Jarvis to be appointed to the Energy Code Board.

Torie is a partner at Sullivan Green Seavy, LLC, where she is currently working with Eagle County to update environmental portions of our land use code. Torie has worked with many local governments to update development codes in her decade of experience. She has expertise in building energy codes in particular, as she recently worked with Crested Butte to pass the first all-electric building code requirements for new construction in the state. Torie has represented counties and municipalities in Eagle, Summit, Pitkin, Grand, and Gunnison Counties in environmental regulation and climate change policy through the Northwest Colorado Council of Governments Water Quality/ Quantity Committee.

Torie will bring her expertise and her enthusiasm to the role and the important work of modernizing energy codes statewide. She will carry forward Eagle County's commitment to combat climate change through building codes, and we ask for your consideration in her appointment to the Energy Code Board.

Sincerely,

Jeanne McQueeney
