INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the City Council
City of Evart, Michigan
Evart, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Evart, Michigan as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise City of Evart, Michigan's basic financial statements and have issued our report thereon dated October 18, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Evart, Michigan's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Evart, Michigan's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Evart, Michigan's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

1) *Segregation of Incompatible Duties and Documented Independent Review*

Criteria: Management is responsible for establishing and maintaining internal controls in order to safeguard the assets of the government. A key element of internal control is the segregation of duties.

Condition: The government has several accounting functions that are performed by the same individual and are not subject to a documented independent review and approval.

Cause: This condition is primarily the result of staffing constraints typical of smaller governmental units. Some of the control activities may be occurring on a routine basis, but are not being documented.

Effect: As a result of this condition, the government is exposed to an increased risk that misstatements (whether caused by error or fraud) may occur and not be prevented, or detected and corrected by management on a timely basis.

Recommendation: There are, of course, no easy answers to the challenge of balancing the costs and benefits of internal controls and the segregation of incompatible duties. Recognizing this fact, we encourage the government to mitigate this risk by requiring as much independent review, reconciliation, and approval of accounting functions by qualified members of management as possible.

View of Responsible Officials: Management recognizes that this limitation is a natural outgrowth of the small number of full-time staff, and applies its judgment in determining how best to allocate the government's resources to provide an appropriate balance between sound internal controls and fiscal prudence.

Corrective Action Plan: With the status of state funding, the City is unable to hire additional employees at this time to improve the segregation of duties within the accounting function. We realize that segregation of duties is important in order to increase internal control. Management oversight has been an alternative means of monitoring internal control along with continuing to try and reassign some duties within the accounting department to other staff members. We still are exploring ways to spread some of the day-to-day accounting responsibilities. The City and Council will continue to monitor the situation and explore cost effective ways to improve this internal control limitation.

2) *Lack of Adequate Controls to Produce Full Disclosure GAAP Basis Financial Statements*

Criteria: All Michigan governments are required to prepare financial statements in accordance with generally accepted accounting principles (GAAP). This is the responsibility of the government's management. The preparation of financial statements in accordance with GAAP requires internal controls over both (1) recording, processing, and summarizing accounting data (i.e., maintaining internal books and records), and (2) reporting government-wide and fund financial statements, including related footnotes (i.e., external financial reporting).

Condition: As is the case with many smaller and medium-sized entities, the government has historically relied on its independent external auditor to assist in the preparation of the government-wide financial statements and footnotes as part of its external financial reporting process. Accordingly, the government's ability to prepare financial statements in accordance with GAAP is based, in part, on its reliance on its external auditors, who cannot by definition be considered a part of the government's internal controls.

Cause: This condition was caused by the government's decision that it is more cost effective to outsource the preparation of its financial statements to the auditors than to incur the time and expense of obtaining the necessary training and expertise required for the government to perform this task internally.

Effect: As a result of this condition, the government's internal controls over the preparation of financial statements in accordance with GAAP are incomplete. Instead, the government relies, in part, on its external auditors for assistance with this task.

Recommendation: Due to the size and minimal activity, we recommend that the government continue to outsource financial statement preparation.

View of Responsible Officials: The government has evaluated the cost vs. benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, and determined that it is in the best interests of the government to outsource this task to its external auditors, and to carefully review the draft financial statements and noted prior to approving them and accepting responsibility for their content and presentation.

Corrective Action Plan: The government will continue to rely on its outside auditors to assist in preparing the GAAP basis financial statements and will evaluate annually for the need to change.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Ewart's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Ewart, Michigan's Response to Findings

City of Ewart, Michigan's response to the findings identified in our audit is described above. City of Ewart Michigan's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
