Information can be obtained either online or at the Recreation Center. The Eggstravangza Easter egg hunt and festivities are scheduled for April 7th. We are getting all the Parks ready for the spring activities. We continue to look for concession workers and lifeguards for the upcoming summer season. The Brookmeade project was bid and we are completing the paperwork. This project will begin soon. Chandler Thinks completed their final presentation of the Branding Initiative in late January and now the Economic and Community Development team is strategically prioritizing what items to pursue during the budget process. We look forward to presenting the City’s brand by launching it throughout our community. The new billboard should be installed within the next week. The Downtown Master Plan is ninety-nine percent complete and we are exploring dates for the final presentation. Due to some scheduling conflicts in their office the presentation may be pushed to April, 2020. We will inform the public as soon as the date is set.

Administrator's Report:
City Administrator Scott Collins reported that the Camp Blount Phase I project is underway doing site prep work and preparing for the entrance construction. We had a very productive meeting with Croy Engineering on the Camp Blount Phase II project. This project should go to bid within the next two weeks. This phase will include the actual plaza where the 1st Volunteer statue will be erected. On the Greenway Phase I project, we spoke with the engineers and contractors. They are expecting to get back to work as soon as the asphalt plants begin operations again. On the Greenway Phase II we were presented with a Notice to Proceed which was withdrawn two days later due to concerns of the Tennessee Department of Transportation (TDOT) archeology department. We hope to have a joint meeting with key TDOT officials to get this project out for bid. We also had a good meeting with various interested parties regarding the Stone Bridge Park stage. This has been a point of contention with FEMA due to the construction of the stage being in the mitigation zone. We are well within the 60 day extension that FEMA granted to get this issue resolved. We hope to come together again next week with a resolution. Also, we are looking forward to get the Strategic Plan written up for the Board’s approval and adoption. Lastly we will be working diligently on the preparation of next year’s budget, as that time is upon us.
