

FINAL PUBLIC NOTICE

The Federal Emergency Management Agency (FEMA) has received the subgrant application from the City of Florida City for repairs to stormwater pump stations #32 and #31 due to damages in Hurricane Irma (DR-4337-FL PW-07727 PN 30660). Pursuant to Executive Order 11988 and 44 CFR Part 9.12, final notice is hereby given of FEMA's intent to provide funding for this project under the Public Assistance (PA) Program.

An initial disaster-wide Public Notice was published October 6, 2017 for Hurricane Irma. Comments and other information received were fully evaluated by FEMA along with evaluation of social, economic, environmental, and safety considerations. This notice serves as a project-specific final notice for FEMA's funding action located within the floodplain.

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state and local laws, regulations, floodplain standards, permit requirements and conditions. This action complies with the National Flood Insurance Program (NFIP) requirements.

- Responsible Entity:** FEMA Public Assistance (PA) Program
- Applicant:** City of Florida City
- Project Title(s):** PA-04-FL-07727 PN 30660
- Location of Proposed Work:** Pump Station #31 - 756 SW 5th Street, Florida City, Florida 33025, (25.44270, -80.48868); Pump Station #32 - 705 SW 11th Street, Florida City, Florida 33025, (25.43663, -80.48750).
- Floodplain:** Project is located in the AH Zone, also known as the area of 1% chance of annual flooding, per Miami-Dade County FIRM Panels #s 1208C0730L and 1208C0740L dated 09/11/2009.
- Proposed Work and Purpose:** The City of Florida City intends to use FEMA Public Assistance Grant funds to repair damages to stormwater drainage pumps and drainage lines damaged by storm impacts during Hurricane Irma, to restore the facilities back to pre-disaster conditions. This project includes a Hazard Mitigation Proposal to install surge protectors to prevent electrical damage in future storm events.
- Project Alternatives:** The alternative that has been considered is the no action alternative. This alternative is not feasible as the area will remain vulnerable to flood risk, including property damage and hazards to human life and safety. With the no action alternative, continued negative impacts on adjacent infrastructure, property, residents, and the community may be experienced. Alternate locations were not considered, as the cost of relocation would significantly outweigh the costs of repairs, making relocation not practicable at this time.
- Comments:** This will serve as the final public notice regarding the above-described action funded by the FEMA PA program. Interested persons may submit comments, questions, or request a map of this specific project by writing to the Federal Emergency Management Agency, Region 4, 3003 Chamblee-Tucker Road, Atlanta, Georgia 30341 or by emailing FEMA-R4EHP@fema.dhs.gov. Comments should be sent in writing with the subject line FL-4337-PW-07727, Florida City, City of at the above address within 15 days of the date of this notice.
