

THINGS TO DO AT-HOME

Suggested by: Ms. Lauren

Oak St. Elementary

1. **Bug boxes:** This is a fun activity to do outside. The supplies needed for this is an empty tissue box, some markers, crayons or collage items you can decorate the outside of the box with. Then go outside and gather up leaves and small sticks (anything that a bug might feel cozy in).
2. **Kindness rocks:** I have done these before and it gets children thinking about thoughtfulness and kindness. Sharpies are a good tool to use for adding detail or glitter as well. Then think of kind words or phrases and write them on your rocks. Finally display them outside around your garden or front porch.
3. **Building with recyclables:** Boxes, empty containers and some masking tape are used to build fabulous arts of work. It doesn't have to be a specific thing, rather let them use their imagination to come up with something.
4. **Building Forts:** This is fun! Use pillows, blankets, and old sheets and build away.
5. **Card making:** Make cards to friends and loved ones. Write words of encouragement and silly jokes.
6. **Board Games:** Make up your own board game. Let the children come up with ideas and rules.
