STATE OF WASHINGTON

FOR IMMEDIATE RELEASE  
January 23<sup>rd</sup>, 2023

The Grays Harbor County ORV Park will be closed for the 2023 calendar year, to allow for strategic planning and safety assessments that best meet the County's needs. During this closure, the County will also be making improvements and repairs of the park facilities. The County is proud to continue to provide parks that promote recreation to families and intends to continue to do so through continued coordination with the State Resource and Conservation Office. The County is hopeful that the park will reopen in 2024 and appreciates the continued support of the community during this time. Please continue to follow this exciting transition as well as any updates posted on the [Grays Harbor County Parks](#) website.
