

# APPROVED COORDINATED EVENTS LIST

Events listed below may be applied toward a Multiple Event Permit. Check all events you will be attending. Events not listed below but meet the requirements can become a coordinated event by having the Event Coordinator submit a Coordinator Checklist to our office.

## Coordinated Event Requirements

- There must be an Event Coordinator who controls who is allowed to operate;
- The Event Coordinator must submit a Coordinator Checklist to our office annually; and
- The event must have a minimum of three vendors, not including the Event Coordinator. Vendors need not all serve food (can also be craft vendors).

Food vendors operating outside of the Coordinated Event definition above may apply for a SINGLE EVENT Temporary Food Establishment Permit and pay the corresponding fees. If you are unsure if an event is coordinated, contact our office at (360) 249-4222. A fee **double** the permit will be issued if the applicant attends an event not listed on their approved schedule.
