4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

--

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

--

C. How many times was this observation measured or evaluated in this reporting period?

--	--	--	--

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?

☐ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☐ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Minimum Control Measure 4. Construction Site Stormwater Runoff Control

The information in this section is being reported (check one):

- ☐ On behalf of an individual MS4
☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. How many construction projects have been authorized for disturbances of one acre or more during this reporting period?

--	--	--

2. How many construction projects disturbing at least one acre were active in your jurisdiction during this reporting period?

--	--	--

3. What percent of active construction sites were inspected during this reporting period? ☐ NT

--	--	--

 %

4. What percent of active construction sites were inspected more than once? ☐ NT

--	--	--

 %

5. Do all inspectors working on behalf of the MS4s contributing to this report use the NYS Construction Stormwater Inspection Manual?

☐ Yes ☐ No ☐ NT

6. Does your MS4/Coalition provide public access to Stormwater Pollution Prevention Plans (SWPPPs) of construction projects that are subject to MS4 review and approval?

☐ Yes ☐ No ☐ NT

If your MS4 is Non-Traditional, are SWPPPs of construction projects made available for public review?

☐ Yes ☐ No

If Yes, use the following page to identify location(s) where SWPPPs can be accessed.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

--

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

--

C. How many times was this observation measured or evaluated in this reporting period?

--	--	--	--

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☐ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☐ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

--

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

--

--	--	--	--	--	--	--	--	--

Minimum Control Measure 5. Post-Construction Stormwater Management

How many MS4s contributed to this report?		
---	--	--

1. How many and what type of post-construction stormwater management practices has your MS4/Coalition inventoried, inspected and maintained in this reporting period?

	# Inventoried	# Inspections	# Times Maintained
<input type="radio"/> Alternative Practices	<input type="text"/>	<input type="text"/>	<input type="text"/>
<input type="radio"/> Filter Systems	<input type="text"/>	<input type="text"/>	<input type="text"/>

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- ☐ On behalf of an individual MS4
☐ On behalf of a coalition

How many MS4s contributed to this report?

- 1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**

<u>Operation/Activity/Facility</u>	<u>Self-Assessment</u>					
	<u>Operation/Activity/Facility</u>			<u>performed within the past 3</u>

MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9,

--	--	--	--

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

SPDES ID

--	--	--	--	--	--	--	--	--	--

2. Provide the following information about municipal operations good housekeeping programs:

- | | | |
|--|---------|---|
| <input type="radio"/> Parking Lots Swept (Number of acres X Number of times swept) | # Acres | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Streets Swept (Number of miles X Number of times swept) | # Miles | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Catch Basins Inspected and Cleaned Where Necessary | # | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Post Construction Control Stormwater Management Practices
Inspected and Cleaned Where Necessary | # | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Phosphorus Applied In Chemical Fertilizer | # Lbs. | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Nitrogen Applied In Chemical Fertilizer | # Lbs. | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> |
| <input type="radio"/> Pesticide/Herbicide Applied
(Number of acres to which pesticide/herbicide was applied X Number of
times applied to the nearest tenth.) | # Acres | <table border="1" style="display: inline-table; border-collapse: collapse; width: 60px; height: 20px;"></table> <table border="1" style="display: inline-table; border-collapse: collapse; width: 20px; height: 20px;"></table> |

3. How many stormwater management trainings have been provided to municipal employees during this reporting period?

--	--	--	--	--

4. What was the date of the last training?

		/			/				
--	--	---	--	--	---	--	--	--	--

5. How many municipal employees have been trained in this reporting period?

--	--	--

6. What percent of municipal employees in relevant positions and departments receive stormwater management training?

			%
--	--	--	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition

SPDES ID

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

--

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

--

C. How many times was this observation measured or evaluated in this reporting period?

--	--	--	--

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☐ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☐ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

--

MANHASSET BAY PROTECTION COMMITTEE
Phase II Activities Undertaken
On Behalf of Member Municipalities
March 10, 2020 to March 9, 2021 Permit Year

Note on the Reporting Year

On March 11, 2020 (the second day of this permit year), the World Health Organization declared the Novel Coronavirus disease (Covid-19) a global pandemic. Shortly thereafter, most activities in New York State were shutdown making this permit year unlike any other in the past. Many activities that are normally undertaken were suspended and not all have resumed.

MCM # 1 – Public Education and Outreach

Distributing educational materials and performing outreach to inform citizens about the impacts polluted stormwater runoff discharges can have on water quality.

- Continued a quarterly e-newsletter and grew the distribution list from 120 to 165 recipients. A link to sign-up is posted on the Committee's website and on the Facebook page. Four newsletters were released in this reporting period (all were also posted to the Committee's Facebook and Twitter pages); links and dates of publications are on the [attached sheet](#). An archive of all past mailings is [here](#).
- Continued to grow the Committee's Facebook presence (<https://www.facebook.com/manhassetbay/>) and again participated in the #DontTrashLIS social media campaign run this past summer by the Long Island Sound Study and the member organizations of its Citizens Advisory Committee, which highlighted the problem of plastic waste to wildlife and water quality.
- The Committee was unable to staff informational tables as all public events were cancelled due to the Novel Coronavirus, which hindered much of the Committee's work during this reporting period.
- The Committee purchased two new domains that direct to the Committee's home page: ManhassetBay.info and ManhassetBay.net, making it easier to both find and direct people to the webpage.
- The Committee started Twitter (<https://twitter.com/manhassetbaypc>) and Instagram (<https://www.instagram.com/manhassetbaypc/>) accounts
- Kept members and the general public apprised of updates and the existence of the Army Corps' *New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study*, including the Study's suspension in March 2020.
- The Manhasset Sewer Feasibility Study was completed in January 2020 and the Committee has been asked to provide public comments on the Study in a May 2020 letter to the Manhasset Chamber of Commerce.
- Began planning an upcoming joint protection committee meeting (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay to be held May 20, 2021 virtually. Topic and agenda are still being discussed.

- Forwarded numerous [newspaper articles](#) to municipal representatives and others on water quality and environmental issues important to Manhasset Bay. Some of these were also posted to the Committee's social media.
- Monitored Nassau County sewage spill reports and notified Committee members and others (there were none during the reporting year).
- Responded to questions from both member municipalities and the public about the Army Corps' Feasibility Study, "how do I get involved," MS4 program, where stormwater pollution comes from, why does the Bay smell, and other inquiries
- Distributed educational brochures about stormwater pollution, watersheds, feeding geese, organic gardening, impacts of pet feces on water quality, water conservation, clean boating, storm drain markings, and other water quality related topics as was feasible given the Novel Coronavirus.
- Kept the municipalities up-to-date on trainings and other events.

MCM #2 – Public Participation

Providing opportunities for citizens to participate in program development and implementation, including effectively publicizing public hearings and/or encouraging citizen representatives on a stormwater management panel.

- Held six (6) virtual Manhasset Bay Protection Committee meetings (open to the public) on April 23, 2020, September 17, 2020, October 15, 2020, November 12, 2020, January 21, 2020, and February 25, 2020. Meetings were transcribed and both meeting minutes and transcriptions were posted to http://www.manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2020/ and http://www.manhassetbayprotectioncommittee.org/PDF_PUBLIC/Minutes/2021/
- Member of the Town of North Hempstead Waterfront Advisory Committee
- The Town of North Hempstead, with and on behalf of the Committee, and with funding from the NYS Department of State, developed and released an RFP for the Development of a Manhasset Bay Water Quality Improvement Plan. The RFP was issued on February 11, 2021 and was advertised on the [Town's RFP website](#) and by mailing directly to some vendors. The closing date was March 25, 2021.
- Served as the member representative for the Committee on the Long Island Nitrogen Action Plan's (LINAP) Nassau County Subwatershed Planning Advisory work group. Continued to provide representation to the Long Island Sound Study (LISS) Citizens Advisory Committee and the LISS Management Committee Watersheds and Embayments work group. In that role, continued work to establish water quality monitoring of embayments as a priority and to develop a mechanism for regular (non-grant) funding to support monitoring efforts.
- The Committee took a different approach to the annual Ocean Conservancy beach cleanup given the Novel Coronavirus. There is generally a one-day volunteer event at Manorhaven Beach Town Park. This year, participants were encouraged to clean-up on their own and were later mailed a "fun patch" and other "swag." The two e-mails that were sent to advertise the event are [listed](#) with the quarterly newsletters towards the end of this document.
- Conducted a weekly water quality monitoring program (June through August) with North Hempstead Bay Constables and Nassau County Dept. of Health. Unfortunately, again

due to Novel Coronavirus, this program was limited and did not include the YSI Handheld Multiparameter Probe.

- As stated above, the Committee kept the general public apprised of updates and the existence of the Army Corps' *New York New Jersey Harbor and Tributaries Focus Area Coastal Storm Risk Management Feasibility Study*.
- Distributed information on the Great Neck and Port Washington Water Pollution Control Districts' *Shed the Meds* collection programs, the Town of North Hempstead's STOP programs, and the Town's Sustainability classes and programs throughout the reporting period.
- Began planning an upcoming joint protection committee meeting (public) with the Hempstead Harbor, Oyster Bay/Cold Spring Harbor, and Peconic Estuary Protection Committees, the Setauket Harbor Task Force, and Friends of the Bay to be held May 20, 2021 virtually. Topic and agenda are still being discussed.
- Continued editing and distributing introductory folders to new committee member representatives in order to educate them on the Committee, stormwater, and regulations. The goal is to make new representatives comfortable in their new role.

MCM # 3 – Illicit Discharge Detection and Elimination

Developing and implementing a plan to detect and eliminate illicit discharges to the storm sewer system (includes developing a system map and informing the community about hazards associated with illegal discharges and improper disposal of waste).

- Conducted a weekly water quality monitoring program (June through September) with North Hempstead Bay Constables and Nassau County Dept. of Health.
- Included removing illegal downspout hook-ups as a "What You Can Do" tip on several newsletters and other publications.

MCM # 4 – Construction Site Runoff Control

Developing, implementing, and enforcing an erosion and sediment control program for construction activities that disturb 1 or more acres of land (controls could include silt fences and temporary stormwater detention ponds).

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and advised member municipalities as needed.
- Bay constables watched for unusual discharges or conditions while conducting weekly water quality monitoring

MC # 5 – Post Construction Runoff Control

Developing, implementing, and enforcing a program to address discharges of post-construction stormwater runoff from new development and redevelopment areas. Applicable controls could include preventative actions such as protecting sensitive areas (e.g., wetlands) or the use of structural BMPs such as grassed swales or porous pavement.

- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.
- Monitored changes in regulations and advised member municipalities of public comment periods as needed.
- Watched for unusual discharges or conditions while conducting weekly water quality monitoring (summer)

MCM # 6 – Good Housekeeping

Developing and implementing a program with the goal of preventing or reducing pollutant runoff from municipal operations. The program must include municipal staff training on pollution prevention measures and techniques (e.g., regular street sweeping, reduction in the use of pesticides or street salt, or frequent catch-basin cleaning).

- Committee members have shared information on which good housekeeping practices work through Committee meetings as well as changes to their good housekeeping programs.
- Forwarded information to Phase II contacts about NYSDEC Erosion & Sediment Control Training held locally throughout the year.

FUTURE PLANS

- The Manhasset Bay Protection Committee will: finalize and publish the water quality report based on weekly monitoring data collected 2016 to 2018 by December 2021 and a bacteria trend report by March 9, 2022 (previous progress was halted by Covid-19).
- Starting in the fall, the Executive Director will update the Committee website to make it more cohesive and user-friendly.
- Begin the development of a new Water Quality Improvement Plan for Manhasset Bay utilizing State and Committee funds. A contractor to take on that work should be selected this spring.
- The Seabin, floating trash receptacle, has not yet been operational. The Committee is hopeful that it will begin full operation this summer.

**MANHASSET BAY PROTECTION COMMITTEE
THIRD PARTY CERTIFICATION STATEMENT**

*Pursuant to
Permit # GP-0-15-003 pg. 18 Part IV.G Reliance Upon Third Parties*

In furtherance of the purposes set forth in the Manhasset Bay Protection Committee ("COMMITTEE") Inter-Municipal Agreement of 2015, the COMMITTEE shall undertake, to the extent practicable, the following activities on behalf of its member municipalities within their collective jurisdictions in order to assist in the fulfillment of NYS Phase II regulations (New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) provided that annual member dues and applied for grant funds (where applicable) are received:

Scope of Work:

Activities and Deliverables may include, but are not limited to the following:

Minimum Control Measure # 1 (Public Education and Outreach):

Prepare and conduct a public education and outreach program including the preparation of brochures and promotional give-aways, portable displays, presentations to community, business, educational, and/or stakeholder organizations, targeted mailings, press releases, articles for publication, an informational website, social media page, and educational signage.

Minimum Control Measure # 2 (Public Involvement and Education):

Conduct public meetings for members of the public and stakeholders at critical junctures on major projects, develop and maintain e-mailing and postal mailing lists to keep the public apprised and involved in projects undertaken by the COMMITTEE, organize and assist in beach cleanups and wetland plantings to the extent possible, conduct attitude and awareness surveys, maintain and foster inter-relationships with community organizations, business organizations, recreation organizations, educational institutions, environmental organizations, and various levels of government.

Minimum Control Measure # 3 (Illicit Discharge Detection and Elimination):

Conduct water quality monitoring to document trends and detect unexpected changes in water quality, record and report observations of identified or suspected illicit discharges to appropriate agencies, assist in and help coordinate responses to identified or suspected illicit discharges, and assist in the maintenance and updating of the county's storm drain GIS mapping system.

M A N H A S S E T B A Y P R O T E C T I O N C O M M I T T E E

15 Vanderventer Avenue, Port Washington, New York 11050-3710

P: 516-767-4843 • E: mbpcExec@gmail.com

Minimum Control Measure # 4 (Construction Site Stormwater Runoff Control)

Assist member municipalities in identifying available construction site stormwater runoff control measures, requirements and procedures, and report any observed instances of stormwater runoff from construction sites to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure # 5 (Post Construction Stormwater Management):

Assist member municipalities in identifying available post construction stormwater management control measures, requirements and procedures, and report any observed instances of post construction to the member municipality and/or appropriate agency or agencies.

Minimum Control Measure # 6 (Pollution Prevention / Good Housekeeping):

Assist member municipalities in identifying available pollution prevention / good housekeeping practices including, but not limited to information on pet waste management, Canada Goose control, household hazardous waste programs, and recycling programs.

Contracted Entity Certification Statement:

The Manhasset Bay Protection Committee understands that its member municipalities must comply with the requirements of New York State Pollutant Discharge Elimination System ("SPDES") General Permit for Stormwater Discharges from Municipal Separate Storm Sewer Systems (GP-0-15-003) and any successor permit, and that it is unlawful for any person to directly or indirectly cause or contribute to a violation of water quality standards. The Committee agrees to provide, to the extent practicable, the above-described services on behalf of its member municipalities in order to assist them in the fulfillment of New York State Municipal Phase II requirements provided that annual member dues are received.
