2021 Use of Force Report

02/01/2022

Prepared by:

Lieutenant Daniel McCarthy #108

	2019	2020	2021
Reportable Use of force Incidents	10	18	52
Total UOF reports filed		23	85
Physical Techniques/controls	6	18	68
Taser deployments	6	6	14
Taser probe deployments	4	4	3
Other firearm/pepper/baton			3

For 2021, this was a brand new frontier in Policing. Police reform came into full force in December of 2020 and Policing across the country had to change. With that one of the major components of this Police Reform was the requirements for Use of Force reporting. The standard starting in 2021 was any force above compliant handcuffing would need to be reported, investigated and documented.

13 Use of Forces were due to the use of the taser, 3 probe deployments, 11 "laser" use only.

*Notable items: 52 separate incidents of use of force, 85 Use of Force forms completed (multiple officers on one incident), 27 of the incidents were due to mental health issues, 18 incidents where the individual was suspected of or had used alcohol and/or drugs, 6 of the incidents there was an officer injured, 7 incidents the individual had minor injuries from the use of force. 2 incidents where officers needed to point their firearm and 1 incident where an officer pointed pepper spray (displayed only).

Use of Force incident Monthly break down: Jan-1, Feb-1, Mar-4, Apr-3, May-5, Jun-6, Jul-5, Aug-5, Sep-5, Oct-3, Nov-7 & Dec-7.

Clearly our numbers have increased from 2020, but that is due to the new mandates for reporting. The information that is collected exceeds what we have collected in the past. Physical techniques/controls are the biggest application of UOF. The majority of these are physically placing the individual's arms behind their back to be able to handcuff them. The biggest call reason where a use of force was needed was mental health situations (Section 12's or 35's) this is, because people in these situations did not want help from other agencies and we were the only entity that could make them get to that agency to see if they could get help. We did not have any situations where there were any major injuries to individuals or officers and we did not have a single death of a person in our care.
