H2O Farm CT, LLC 28
929 Boston Post Road 203-533-7270
[www. H2O-FARM.COM](http://www.H2O-FARM.COM) 203-533-7270
H2O Farm specializes in growing leafy greens in a state-of-the-art automated hydroponic greenhouse. We grow various types of lettuce, mainly Butterhead and Romaine, using water as our growing medium. Our produce is grown in a closed greenhouse, protected from harsh weather, insects and pests, and is cleaner and healthier than most field-grown similar crops. We do not wash our produce with chlorine and other harmful chemicals. In fact, we do not wash our crops at all, simply because we do not need to. Our greens are fresher, cleaner, tastier, crispier, and have better quality and longer shelf-life.
