37	The elementary schools are very good. The character of Irmo High School has changed. It often gets shortchanged in funding as compared to Chapin, Springhill and Dutch Fork. I follow the District 5 school board site and it looks like funding is being spent on a new wing, but not clear if existing infrastructure is being upgraded. Even when money is spent, the design seems to suffer. Case in point, the steel pipes framing the entrance are not very attractive as compared to other schools in the district. Discipline and bullying continues to be an issue for both middle and high schools.	5/3/2024 5:08 PM

121	Friarsgate Park is in a giant neighborhood, yet the parking is abysmal and there have been no improvements to the playground and surrounding area. It doesn't feel safe with the houses directly behind the trees. It would be nice to have a rec center that we could actually go to. 319	Making an attractive "Downtown" shopping area. It must not be of offices, but retain and restaurants. There is an old strip mall on Woodrow St that is unattractive. This should be developed into an attractive, cohesive, shopping area for retail, not offices. Another area that could be really cohesive and attractive for retaail is further West on St. Andrews down in the hollow. It is currently a hodge-podge of businesses that is very unattractive because greenspaces are not groomed and the rest of the place is a mess. These two areas, redeveloped,and better maqnaged could be the beginning of a real "downtown" feeling for Irmo. shopping local. Much like a Starbucks reward you earn 5 points for every \$10 spent at a local whatever. Maybe you load a receipt into the app for proof and get points for "staying local". The app can offer a list of businesses that agree to be part of the "promotion" and it's a great way for those businesses to advertise, have a monthly spotlight page to show off new businesses etc. now how to use the points? Not sure, this would have to be accepted as dollar off type coupons at the places that agree to be a part of this or maybe the town can offer free tickets to events or prizes for reaching certain amounts of points. Also this is Alecia Koch (you can find me on Facebook) if you want to talk about this idea more?

236	I love Irmo and have enjoyed my time living here as someone who lives close to Friarsgate. I am greatly concerned with the declining of this area. Friarsgate needs more lighting, aesthetic improvements, paving of Streets to become attractive to new and young families moving into the area. I was really excited about the possibility of A dedicated downtown Irmo area connected to the park. I was very sad when that did not happen. I think that there is lots of potential for a dedicated downtown Irmo spot on Woodrow Street. There are many unused and unattractive old shopping spaces that are sitting there abandoned or under underused, which could be purchased by the town and made into green spaces, modern offices, pubs, restaurants, and places for kids Having a downtown area so close to Friarsgate would increase the Friarsgate property values as well if the workability and safety of Friarsgate improved it would be an attractant to those who would love to walk to nearby festivals and events in a closer dedicated downtown Irmo spot. We have a great town and we need to take what we have in this area and improve upon it to make it attractive to young people and families.
