## STATEMENT OF EVIDENCE

Original corner was set by Silas Barnard in 1855. No evidence of original corner or bearing trees remain.

In Book 2 of Surveys, Page 303 a survey of Section 23 dated May 7, 1901 by John Nelson is recorded. On this survey John shows he set a post for the East Quarter corner and took two ties to tamarack trees. This corner falls in a tamarack swamp which had 2 feet of water in it on June 26, 2003.

In June 2003 we made a survey of Sections 22, 23, 26, 27, 28, 33, and 34 to locate corners and tie in occupation lines.

On June 26, 2003 we made an extensive search for the John Nelson post and ties, but could not find it.

John Nelson recorded a distance of 5299.80 feet in 1901 and we measured 5301.72 feet. We treated this as a lost corner and set one on line and equidistant from the Northeast and Southeast corner of Section 23.
