County Recorder _____

BY _____ Deputy

DOCUMENT NO. _____

STATEMENT OF EVIDENCE
(FROM DALE ANDERSON)

All of the original bearing trees are now gone.

Records on file in the County Recorders office show that in 1910, county surveyor, John Nelson set a stone to mark this corner location in resurvey of Section 4. This stone was placed on line proportionally between the northeast and southeast corners.

In October of 1992, we ran a survey around Section 4 to locate existing monuments and lines of occupation. This corner falls near the intersection of a north-south township road and an east-west County Road.

In October of 1992, we made an excavation with the county backhoe and found the stone per Nelson's records.

We set a 5/8"x24" rebar with aluminum cap to replace the found stone.

(2004)

In May 2004, E.G. Rud ran a survey around Section 5. We found the monument set by Dale Anderson, and established Kanabec County Coordinates using G.P.S. equipment.
