

CITY COUNCIL MEETING

Council Chambers

401 E Third Street

Kewanee, Illinois 61443

Closed Meeting starting at 6:00 p.m. Via Zoom

Open Meeting starting at 7:00 p.m. Via Zoom

Monday January 11th, 2021

Posted by 6:00 p.m. January 8th, 2021

1. Call to Order
2. Roll Call
3. Closed meeting pursuant to Section 2 (c) (1) of the Open Meetings Act to discuss personnel.
4. Closed meeting pursuant to Section 2 (c) (2) of the Open Meetings Act to Discuss Collective Bargaining
5. Return to Open Session
6. Call to Order
7. Roll Call
8. Consent Agenda
 - a. Approval of Minutes
 - b. Payroll
 - c. Staff Reports
9. Presentation of Bills and Claims
10. Public Participation
11. New Business
 - a) **Consideration of Ordinance #4041** amending Ordinance No. 2841 adopted May 9, 1994, commonly known as The City of Kewanee, Illinois, Administrative Code.
 - b) **Consideration of Resolution #5265** to appoint an IMRF authorized agent for the City of Kewanee.
 - c) **Consideration Resolution #5266** amending an Agreement with Lakeshore Recycling Systems to haul and dispose of solid waste from the transfer station.
 - d) **Consideration Resolution #5267** to authorize the City Manager to execute a side letter of agreement to the existing collective bargaining agreement with Fraternal Order of Police Lodge No. 233
 - e) **Consideration of Resolution #5268** to affirm the Mayor's recommendation for appointments to the Kewanee Fire & Police Commission
 - f) **Discussion of Animal Ordinances-Chief Welgat**
12. Council Communications:
13. Announcements:
14. Adjournment:

MEMORANDUM

Date: January 8, 2021
From: Gary Bradley, City Manager
To: Mayor & Council
RE: Council Meeting of **Monday, January 11, 2021**

CLOSED MEETING AT 6:00 P.M.
REGULAR MEETING AT 7:00 P.M.

1. **Tourism Funding**—Per direction provided at the last City Council meeting, staff provided notice to the County regarding our intent to terminate the automatic sharing of revenue but expressing our interest in partnering for programs or projects on a project by project basis.
2. **Downtown Plan**—The City is working with a graduate student on the development of a Downtown Plan. With the lack of traditional public meetings typically associated with planning efforts, she is developing survey instruments that will help to gauge stakeholder opinions in a meaningful way. The planning horizon for the document will be 10-15 years, meaning that its implementation and relevance should last about that long, and that through gradual change over a period of years, our downtown should be at or near the desired end state outlined in the plan.
3. **Animal Ordinances**— Chief Welgat completed his review of the minutes and information from the animal committee meetings from several years ago. He is including information in your packet and is prepared to present information for your consideration and direction at the upcoming meeting.
4. **Downtown TIF**— Staff has been contacted by a property owner within the Downtown TIF Redevelopment District and anticipates receiving another application in the near future for a building renovation. We will work with the owner and our attorneys to process the application as quickly as possible to ensure that our revitalization efforts remain strong despite the restrictions that limit small businesses at this time.
5. **LOCiS Training**— The City had live, in person training from LOCiS on Tuesday and Wednesday to help staff better understand how to best use the software in order to better manage and report our finances. The training was particularly helpful for the new Finance Director, City Clerk, and other staff members who never received formal training on the use of the software.
6. **APP Grant**—The Abandoned Property Program grant application has reopened for another round. This is the Illinois Housing Development Authority program under which we first received demolition grant funding. Having just received significant demotion funding under another program, the City will attempt to use this program to secure funding for other matters, such as dangerous trees or the abatement of junk and debris.

7. **Enterprise Zone**— Staff is working with Springfield Armory on a planned expansion for a new \$17.5 million facility that will begin construction in March or April, helping to secure Building Material Exemption Certificates for \$5,000,000 in materials. Like other projects in neighboring communities, this work helps to improve the economy not just in the community where it is located, but throughout the region. The facility itself will add approximately 100 local jobs and retain about 50. The City's revenue to the economic development fund for administering the program and benefits will be approximately \$25,000.
8. **Recycling Schedule**— In order to accommodate increased volume in curbside recycling, the schedule will switch from a 3 day schedule to a 4 day cycle in February. Most people will not see a change in service, but we will provide information to everyone affected by the change and will provide information about the changes via the City's website, Facebook, the newspaper, and radio.
9. **Martin Luther King Jr. Day**—Though many of the traditional observances associated with Martin Luther King Jr. Day will not occur due to Covid-19 mitigation measures, City Hall and non-emergency services will be closed on Monday the 18th in observance of the holiday.
10. **Arbitration**— As previously noted, we have worked with the FOP to identify potential compromises that might enable the parties to avoid arbitration over when overtime is calculated. The FOP will be voting on a potential Side Letter of Agreement on Monday. The matter is on the agenda for your consideration in the event they vote to approve the Side Letter. If we are unable to reach an agreement, the matter is scheduled for arbitration on the 14th of January. Both sides are confident in their stance on the issue.
11. **Finance Director**— Randi Haley began her employment with the City as Finance Director last week. In addition to her Bachelor's Degree in Accounting, her experience in private sector banking and auditing, and her experience having served as the Interim Finance Director in Moline, she brings a willingness to dig into the boxes, books, and data to help look for the information we need to get some of our operations not only back on track but more streamlined and useful than they used to be.
12. **Audit**— We had a video conference with the audit team on Thursday which provided a clear picture of what they need in order to move forward with the audit and a plan for providing such items when they return next week to complete their field work. They will then make every effort possible to wrap up the audit as quickly as possible. They have indicated that they will provide an updated timeline for completion to us next week.
13. **Budget Process**— Randi is working on the budget guidance and proposed schedule of events and deadlines and expects to provide that information to staff next week. Her approach to budget development and the process involved will be instrumental in developing a more seamless and collaborative effort from the organization.

14. **CEDS**—There will be a Comprehensive Economic Development Strategy kickoff meeting for Henry County next week. Staff will participate in the meeting and begin the process of providing our input into the regional economic development efforts.
15. **CURE Funding**—Federal legislation passed last year extended the period of reimbursement for municipalities, but it was not signed into law. Subsequent efforts to increase the stimulus funding likewise contain such provisions, but are not yet approved and are not expected to become law until after January 20, 2021. Expenditures made at this time would be made with the risk that they may not be reimbursable. Our approved reimbursements to date exceed \$430,000. Chief Shook has included a detailed memorandum that immediately follows this memo.
16. **Walgreens Valuation**—In my last memo I noted that the property owner had again challenged the value of the property, with the City and School District providing testimony at Board of Review hearing. The Board of Review issued its decision earlier this week, finding the value to be the same as previously determined by the Assessor. The property owner may still choose to appeal the decision to Springfield.
17. **Inoperable Vehicles**—During a previous council meeting staff was asked about enforcement of ordinances for vehicles not displaying the current sticker. As noted, that enforcement is still ongoing, but there are some circumstances in which residents aren't able to renew stickers online that add complexity to the matter.
18. **Legislative Action**—The State Legislature returned to a lame duck session today. The new members will be sworn in next week. There are a number of bills that IML has weighed in on that are of concern to municipalities, with the most sweeping changes being contained in the Police Omnibus Bill. A summary of many of the bill's provisions and IML's stance on them immediately follows Chief Shook's memorandum.

1/08/2021

Cares Act Extension

I was asked by Councilperson Colomer to look into whether or not the Cares Act was going to be extended into 2021 and if new purchases would qualify for reimbursement through the program.

The ongoing pandemic and the fears of new strains that are more contagious being found within the United States has put additional pressure on supply chains. Some suppliers this week have warned of possible shut downs of all China exports to the United States of PPE for up to 6 months. Whether this is due to growing numbers of cases in China, which may be being under reported, or these warnings are purely political/economic in nature make no difference. If supplies from China are not available for import regional prices are going to increase greatly as we have seen throughout this pandemic. Supplies are already in short supply with prices for most PPE tripling with long lead times on delivery. As an example, I offer a medication shipment that was ordered by myself for the ambulances in early March that did not arrive until the beginning of December. It is difficult at best to determine PPE needs 6 -12 months in advance knowing that our budget year will change over to a new fiscal year prior to arrival of any supplies ordered unless those supplies are already on U.S. soil at the time of ordering. The Department has done what we can to secure supplies to keep city staff and patients safe during this pandemic and so far have been able to keep up with our needs. We hope this remains the case moving forward.

That being said, at this time the Cares Act has not been extended. The discussions that have occurred at the federal level have been to extend but not increase financial allocations. It appears that no changes will be officially made until after the change in leadership later this month. Currently the Fire Department has stock on hand, or currently being shipped, enough PPE (gloves, masks, gowns. Etc.) to sustain City staff for the remainder of this fiscal year and into the summer depending on demand. Some articles of PPE we should have quantities on hand to make it into next winter. Masks and the demand for medical supplies (needles, IV supplies, respiratory supplies, and medications) are my largest concern at this time.

Currently on the **Illinois Department of Commerce and Economic Opportunity** website it states: *"The Local CURE Support Program team is aware of the recent U.S. Treasury guidance that extends CRF programs through 12/31/2021. DCEO is working closely with the Governor's Office of Management & Budget to determine how to adopt this modification for the Local CURE Support Program and will provide program updates as soon as possible. In the meantime, we appreciate your patience and look forward to serving you further. Until a program modification*

is official, all existing Local CURE program rules apply. Hope this helps, let me know if you need additional support.”

*At the federal level **The US department of treasury website still reads as follows:***

“The CARES Act requires that the payments from the Coronavirus Relief Fund only be used to cover expenses that—

- 1. are necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID–19);*
- 2. were not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government; and*
- 3. were incurred during the period that begins on **March 1, 2020, and ends on December 30, 2020.**”*

Hopefully, after the change in leadership later this month congress will extend the reimbursement period, knowing the shortages that are being predicted I hope congress includes an increase in our available funds, but this is yet to be determined.

With the current supplies on hand and the unknown status of the Cares Act funding, I cannot recommend preordering or stockpiling additional resources that may not be reimbursed. Yes, we will most likely pay more moving forward if the supply chains aren’t maintained and the pandemic worsens, but that is out of our control at this time. We should maintain supply levels and order as needed until there is a change in the status of reimbursable funding.

DATE: January 7, 2021

TO: Brad Cole, Executive Director

FROM: Mitchell Remmert, Director of Legislative Affairs

RE: HB 163 (SFA #2) – Policing Omnibus Bill

The purpose of this memo is to serve as an analysis of Senate Floor Amendment (SFA) #2 to HB 163, with an emphasis on issues that will affect the Illinois Municipal League's (IML) membership. The amendment, filed by Senator Elgie Sims Jr. on January 5, 2021, creates several new Acts and, in some instances, extensively amends current statute. For the sake of simplicity, this memo will be divided by articles, as listed in the bill, with greater explanation dedicated to provisions with a more direct impact on our members.

Article 1 "Deaths in Custody" – pg. 1

Article 1 creates the Reporting of Deaths in Custody Act and applies to law enforcement entities within the state having the authority to arrest and detain persons suspected of, or charged with, committing a criminal offense and each law enforcement entity that operates a lock up, jail, prison or any other facility used to detain persons for legitimate law enforcement purposes.

The language requires a law enforcement agency to investigate and report the death of an individual who dies while in custody of the agency. The report must be in writing to the Attorney General no later than 30 days after the date on which the person died. SFA #2 stipulates the content of the report, requires the Attorney General to create a standardized form and further states that the reports are public records pursuant to the Freedom of Information Act.

IML Position: No Position

Article 3 "Statewide Use of Force Standardization" – pg. 6

Article 3 creates the Statewide Use of Force Standardization Act and states that it is the intent of the General Assembly to establish statewide use of force standards for law enforcement effective January 1, 2022.

IML Position: Possible Support – This provision assists with the development of uniform training and consistent interpretation of the standards of force by law enforcement agencies and personnel, as well as citizens and the courts. More information is still needed.

Article 4 “Prison Gerrymandering” – pg. 6

Article 4 creates the Prison Gerrymandering Act. This Act places mandates on the Illinois Department of Corrections (IDOC) and each agency that operates a federal correctional facility to provide information detailing the last known place of residence prior to incarceration of each inmate.

For the purposes of reapportionment and redistricting, the Act requires the General Assembly to count each incarcerated person as residing at his or her last known place of residence, rather than at the institution of their incarceration.

IML Position: Oppose – This proposal will negatively impact Local Government Distributive Fund (LGDF) distributions to communities who may have correctional facilities and additional costs due to the residents of those facilities. Additionally, the proposed changes will negatively impact census counts for these communities and have resulting impacts on local programs and services.

Article 5 “Police Integrity and Accountability” - pg. 8

Removal of Immunities – pg. 8

Article 5 creates the Police Integrity and Accountability Act. This Act provides that a peace officer who subjects any other person to the deprivation of any individual rights under the Illinois Constitution is liable to the injured party for legal or equitable relief or any other appropriate relief.

- The Act provides that sovereign immunities, statutory immunities, statutory limitations on liability, damages or attorney’s fees do not apply to claims brought under the Act.
- Further provides that the Local Governmental and Governmental Employees Tort Immunity Act does not apply to claims brought under the Act.
- Provides that qualified immunity is not a defense to liability under the Act.
- Allows the court to award reasonable attorney’s fees and costs to plaintiff.
- Requires a civil action under the Act to be commenced within five years after the cause of action accrues.

IML Position: Oppose – The diminishment of immunities exposes municipalities to potentially frivolous and costly litigation. This will divert already scarce municipal revenues away from the critical services they fund.

Reporting Judgments and Settlements – pg. 9

Requires any unit of local government that employs a peace officer who incurs liability under the Act to publicly disclose the following information:

- The name of any peace officer or officers whose actions or conduct led to a judgment or settlement;
- The amount of a judgment or settlement, and the portion of that judgment or settlement, if any, indemnified by the unit of local government;
- Any internal disciplinary action taken against the peace officer or officers whose actions or conduct led to the judgment or settlement; and,
- Any criminal charges pursued against the peace officer or officers for the action or conduct that led to the judgment or settlement.

This section exempts the disclosure of the address, social security number or other unique, non-public personal identifying information of any individual who brings a claim under the Act.

IML Position: Oppose in part – This provision may mandate the reporting of judgements and settlements subject to non-disclosure agreements. Additional concerns regarding whether or not this language will require the disclosure of settlements paid by insurance companies, who provide coverage to municipalities, must also be addressed.

Article 10 “Amendatory Provisions” – pg. 10

Statute on Statutes – References to Bail – pg. 10

Article 10 amends the Statute on Statutes to remove any reference to bail, bail bond or conditions of bail. These terms are replaced or are to be construed as “pretrial release” or “conditions of pretrial release.”

IML Position: No Position

Illinois Public Labor Relations Act – pg. 15

Article 10 amends the Illinois Public Labor Relations Act in a section concerning management rights to provide that employers shall not be required to bargain over matters relating to the discipline or discharge of peace officers. The Article further states that provisions in existing collective bargaining agreements that address the discipline or discharge of peace officers shall lapse by operation of law on the renewal or extension of existing agreements by whatever means, or the approval of a bargaining agreement by the corporate authorities of the employer after the Act’s effective date.

The language also amends the grievance procedure of the Illinois Public Labor Relations Act to remove disputes regarding the discipline or discharge of peace officers from the grievance resolution procedure.

IML Position: Support – This provision supports the elimination of arbitration of discipline in collective bargaining agreements and the grievance of discipline by law enforcement officers. This restores local authority on these important issues.

Residency Requirements – pg. 26

As it pertains to arbitration decisions, the language states that conditions of employment for peace officers may continue to include residency requirements in municipalities with a population less than 100,000 as opposed to 1,000,000. The language removes residency from arbitration for municipalities with a population of more than 100,000.

IML Position: Support – It is important for public safety officers to live in the communities they serve.

Prohibitions – pg. 31

The language provides that on or after the effective date of the Act, no collective bargaining agreement applicable to peace officers, including, but not limited to, the Illinois State Police (ISP), shall be entered into containing any provision that does not pertain directly to wages or benefits, or both, including any provision pertaining to discipline.

IML Position: Support – Municipalities should have the authority to adjust personnel policies and terms of employment, other than wages and benefits, without resorting to the collective bargaining process.

Community-Law Enforcement Partnership for Deflection and Substance Use Disorder Treatment Act – pg. 33

The language renames the Act the Community Law Enforcement and Other First Responder Partnership for Deflection and Substance Use Disorder Treatment Act and makes conforming changes throughout. Further defines “other first responder” to include emergency medical service providers that are public units of government, fire departments, fire protection districts and officials and responders representing and employed by these entities.

In a section concerning training requirements for deflection program partners, the language requires the following training:

- Neuroscience of Addiction for Law Enforcement;
- Medication-Assisted Treatment;
- Criminogenic Risk-Need for Health and Safety;
- Why Drug Treatment Works?;
- Eliminating Stigma for People with Substance-Use Disorders and Mental Health;
- Avoiding Racial Bias in Deflection Program;
- Promotion of Racial and Gender Equity in Deflection;
- Working With Community Partnerships; and
- Deflection in Rural Communities

In a section concerning funding for law enforcement agencies or other first responder entities for services provided by deflection program partners, the Article allows up to 10% of appropriated funds to be expended on activities related to knowledge dissemination, training, technical assistance, or other similar activities intended to increase practitioner and public awareness of deflection.

IML Position: Support – Many municipalities are adopting or considering adopting this model of response. This provision ensures that municipal police officers are adequately trained to address the various issues they face on a daily basis.

The Attorney General Act – pg. 43

The language amends the Attorney General Act to add definitions for “governmental authority” and “officer.” Specifically, “governmental authority” means any unit of local government in the state, any municipal corporation in the state, or any governmental unit of the State of Illinois. This includes any office, officer, department, division, bureau, board, commission or agency of the state.

“Officer” means any probationary law enforcement officer, probationary part-time law enforcement officer, permanent law enforcement officer, part-time law enforcement officer, law enforcement officer and recruit, among others.

The language provides that no governmental authority shall engage in a pattern or practice of conduct by officers that deprives any person of rights, privileges or immunities secured or protected by the Constitution or laws of the United States or by the Constitution or laws of Illinois.

- If such a violation occurs, the language allows the Attorney General to commence a civil action to eliminate the pattern or practice in either Sangamon County or Cook County no later than five years after the occurrence.
- The language further provides the process for the Attorney General to conduct an investigation and stipulates civil penalties that the Attorney General may prescribe.

IML Position: Possible Support – This provision is an alternative to the elimination of civil immunities for law enforcement personnel and local governments.

Illinois Identification Card Act – pg. 47

The language amends the Act to require the Secretary of State to track and issue an annual report to the General Assembly detailing the number of permanent Illinois Identification Cards issued by the Secretary of State to persons presenting verification forms issued by the Illinois Department of Juvenile Justice (IDJJ) or IDOC.

IML Position: No Position

The State Police Act – pg. 59

The language amends the State Police Act to remove the affidavit requirement for persons filing a complaint against a state police officer.

The language also prohibits ISP from requesting or receiving any military equipment surplus or purchasing or utilizing specified equipment.

IML Position: No Position

The Illinois Criminal Justice Information Act – pg. 64

The Act is amended to require the Director of the Illinois Criminal Justice Information Authority (ICJIA) to convene an oversight board known as the Pretrial Practices Data Oversight Board to oversee the collection and analysis of data regarding pretrial practices in circuit court systems.

IML Position: No Position

Public Officer Prohibited Activities Act – pg. 69

The Act is amended to prohibit any unit of local government or any agent or representative of a unit of local government to retaliate against an employee or contractor who:

- Reports an improper governmental action under this section;
- Cooperates with an investigation by an auditing official related to a report of improper governmental action; or,
- Testifies in a proceeding or prosecution arising out of an improper governmental action.

IML Position: Support – This is a protection of good faith reporting of improper governmental action.

The Local Records Act – pg. 74

The Act is amended to require all public records and nonpublic records related to complaints, investigations and adjudications of police misconduct to be permanently retained and may not be destroyed.

IML Position: Oppose in part – This mandate will significantly increase the costs of maintaining and cataloging these records.

The Illinois Police Training Act – pg. 77

The Act is amended to give the Illinois Law Enforcement Training and Standards Board (ILETSB) the authority to establish statewide minimum standards regarding regular mental health screening for probationary and permanent police officers, ensuring that counseling sessions and screenings remain confidential.

The Act is amended to require notice to ILETSB upon the resignation of an officer during an investigation based on the commission of any felony or sex offense, rather than a Class 2 felony or greater.

The language mandates that the curriculum for probationary police officers to include:

- At least six hours of hands-on, scenario-based role-playing;
- At least six hours of instruction on use of force techniques, including the use of de-escalation techniques to prevent or reduce the need for force whenever safe and feasible;
- Specific training on officer safety techniques, including cover, concealment, and time; and,
- At least six hours of training focused on high-risk traffic stops.

The language amends minimum in-service training requirements that a police officer must complete every two (instead of three) years to add implicit bias and ethnic sensitivity training. Mental health awareness and response and officer wellness training is now included in annual training requirements.

As it pertains to minimum in-service training requirements required of police officers annually, the language adds “advanced first-aid training and certification, crisis intervention training and officer wellness and mental health.”

The language adds a new section requiring 30 hours of mandatory training to be completed every two years based upon ILETSB-adopted rules and minimum standards. Specifically, the training must include:

1. At least 12 hours of hands-on, scenario-based role-playing;
2. At least six hours of instruction on use of force techniques, including the use of de-escalation techniques to prevent or reduce the need for force whenever safe and feasible;
3. Specific training on the law concerning stops, searches, and the use of force under the Fourth Amendment to the United States Constitution; and,
4. At least six hours of training focused on high-risk traffic stops.

The Act is further amended to require ILETSB to develop and approve a standard curriculum for certified training programs in crisis intervention of at least 40 hours for law enforcement recruits. The language also requires Crisis Intervention Team (CIT) training programs to be a collaboration between law enforcements professionals, mental health providers, families and consumer advocates and must include specified components.

IML Position: Support in part – Standardized training is important but the costs and operational burdens are unknown without additional information and funding support.

Law Enforcement Officer-Worn Body Camera Act – pg. 89

The Act is amended to require all law enforcement agencies to employ the use of officer-worn body cameras in accordance with the Act. The amendment specifies a schedule for all law enforcement agencies to implement the use of body cameras as follows:

- Municipalities with a population of 500,000 or more – January 1, 2022;
- Municipalities with populations of 100,000 or more but less than 500,000 – January 1, 2023;
- Municipalities with populations of 50,000 or more but less than 100,000 – January 1, 2024; and,
- Municipalities with populations of less than 50,000 – January 1, 2025.

The amendment provides that any municipality or county which oversees a law enforcement agency which fails to comply with this change shall be subject to a reduction of Local Government Distributive Fund (LGDF) revenues at a rate of 20% per year until the requirements are met.

The amendment provides that a body-worn camera may be turned off when the officer is inside a correctional facility that is equipped with a functioning camera.

The Act is further amended to provide that each law enforcement agency must provide an annual report on the use of officer-worn body cameras to ILETSB on or before May 1 of the year.

IML Position: Support in part, Oppose in part – The utilization of officer-worn body cameras is positive for transparency and accountability. However, LGDF revenues cannot be conditioned upon body worn camera deployment. The state should provide funding to support local efforts in the deployment and maintenance of this technology. Additional time should be allowed for the implementation of any new mandate, due to necessary funding, acquisition, and training time constraints.

Uniform Crime Reporting Act – pg. 100

The Act is amended to require ISP to participate in and regularly submit use of force information to the Federal Bureau of Investigation National Use of Force Database.

Beginning July 1, 2021, each police department is required to submit to ISP, on a monthly basis, a report on any incident where a law enforcement officer was dispatched to deal with a person experiencing a mental health crisis or incident. The report shall include the number of incidents, the level of law enforcement response and the outcome of each incident.

Also beginning July 1, 2021, each police department is required to submit to ISP, on a monthly basis, a report on the use of force, including any action that resulted in the death or serious bodily injury of a person or the discharge of a firearm at or in the direction of a person.

The language adds the Illinois Department of Revenue (IDOR) as an agency, in addition to ILETSB, that ISP must annually report any law enforcement agency not in compliance with this section.

Any municipality or county which oversees a law enforcement agency which fails to comply with this Act shall be subject to a reduction in LGDF revenues at a rate of 20% per year until the requirements of the Section are met.

IML Position: Support in part, Oppose in part – Standardized reporting of use of force actions provides the possibility for greater transparency but creates a new unfunded mandate. Any imposition of conditions on the distribution of LGDF revenues is unacceptable.

Uniform Peace Officers' Disciplinary Act – pg. 104

The Act is amended to remove a requirement for a police officer subjected to interrogation or investigation to be informed of complainants, or the name, rank and unit or command of the officer in charge of the investigation.

The Act is amended to stipulate that it is not a requirement for a person to have a complaint supported by a sworn affidavit or any other legal documentation.

IML Position: Possible Support – This provision authorizes municipalities to conduct complete and thorough investigations of anonymous complaints alleging police misconduct. The officer's due process rights would be protected during any formal hearing process on the complaint. More information is needed.

The Police and Community Relations Improvement Act – pg. 106

The Act is amended to require each law enforcement agency to adopt a written policy outlining the process for the handling of anonymous complaints, and further provides information that must be included in the written policy.

IML Position: Support – Standardized processes for handling anonymous complaints of alleged police misconduct is likely necessary.

Counties Code – pg. 107

The Counties Code is amended to prohibit a sheriff's department from requesting or receiving any military equipment surplus program or purchasing or utilizing specified equipment. Further provides that a home rule county may not regulate the acquisition of equipment in a manner inconsistent with the amended section.

For Cook County only, the Act is amended to provide that if the court determines that the appointment of a special prosecutor is required, the court shall request the Office of the State's Attorneys Appellate Prosecutor to serve as the special prosecutor if the cause or proceeding is an officer-involved death.

IML Position: No Position

Municipal Code – pg. 127

The Municipal Code is amended to prohibit a police department from requesting or receiving from any military equipment surplus program or purchasing or otherwise utilizing specified equipment. Further provides that a home rule municipality may not regulate the acquisition of equipment in a manner inconsistent with the amended section.

IML Position: Oppose – This provision is a preemption of municipal authority. More information is needed regarding the type of equipment that municipalities would no longer be able to acquire, which usually is obtained at no cost.

Restoration of Driving Privileges – pg. 203

The language provides that as soon as practicable and no later than July 1, 2021, the Secretary of State shall rescind the suspension, cancellation or prohibition of renewal of a person's driver's license that has been suspended, canceled or whose renewal has been prohibited before the effective date of the Act due to the person having failed to pay any fine or penalty for traffic violations, automated traffic law enforcement system violations or abandoned vehicle fees.

Removes provisions allowing for the suspension of an individual's license for failure to pay the fine for traffic violations as a result of an automated traffic law enforcement system.

IML Position: Oppose – The elimination of license suspension as a result of unpaid traffic violations or automated traffic law enforcement systems violations removes the incentive to pay the appropriate fines and fees associated with the violations. This is a preemption of local authority.

Criminal Code of 2012 – pg. 304

The Criminal Code of 2012 is amended to alter conditions when a peace officer may use any force, including deadly force. Specifically:

- A peace officer is justified in the use of any force which he reasonably believes, based on the totality of the circumstances, to be necessary to effect the arrest and any force which he reasonably believes, based on the totality of the circumstances, to be necessary to defend himself or another from bodily harm while making the arrest.

- This language is also inserted into provisions allowing the use of deadly force along with the requirement that the officer reasonably believes that the person to be arrested cannot be apprehended at a later date, and the officer reasonably believes that the person to be arrested may cause great bodily harm to another.
- Where feasible, a peace officer shall, prior to the use of force, make reasonable efforts to identify himself or herself as a peace officer and to warn that deadly force may be used, unless the officer has reasonable grounds to believe that the person is aware of those facts.
- A peace officer shall not use deadly force against a person based on the danger that the person poses to himself or herself if a reasonable officer would believe the person does not pose an imminent threat of death or serious bodily injury to the peace officer or to another person.
- A peace officer shall not use deadly force against a person who is suspected of committing a property offense, unless that offense is terrorism or unless deadly force is otherwise authorized by law.

The amended language also encourages law enforcement agencies to adopt and develop policies designed to protect individuals with physical, mental health, developmental or intellectual disabilities, who are significantly more likely to experience greater levels of physical force during police interactions.

IML Position: Support in part – Clear statutory guidance on the use of force is necessary. Any use of force policies mandated by the state must clarify, rather than complicate, the legal standards that will apply.

Prohibited Use of Force by a Peace Officer – pg. 308

The language prohibits a peace officer or any person acting on behalf of a peace officer to use a restraint above the shoulders with risk of asphyxiation in addition to the use of chokeholds, as currently provided in law.

The language also prohibits the following activities:

- Use of force as punishment or retaliation;
- Discharge of kinetic impact projectiles and all other non- or less-lethal projectiles in a manner that targets the head, pelvis or back;
- Discharge of kinetic impact projectiles indiscriminately into a crowd; or,
- Use of chemical agents or irritants, including pepper spray and tear gas, prior to issuing an order to disperse in a sufficient manner to ensure the order is heard and repeated if necessary, followed by sufficient time and space to allow compliance with the order.

IML Position: Support in part – The prohibition of use of force as punishment or retaliation is appropriate but public safety officers must be able to properly protect themselves, fellow officers and the community as a whole when dealing with life threatening situations. The prohibited activities may be an unnecessary restriction on law enforcement and may impair public safety.

Use of Force to Prevent Escape – pg. 309

The language prohibits the use of deadly force to prevent escape unless deadly force is necessary to prevent death or great bodily harm to himself or such other person.

IML Position: No Position

Duty to Render Aid (new) – pg. 310

The language inserts a new section that requires all law enforcement officers to render medical aid and assistance consistent with training and request emergency medical assistance if necessary.

IML Position: Support – This is a principle recommended by the U.S. Conference of Mayors Report on Police Reform and Racial Justice. This provision appropriately protects communities, while protecting the constitutional right of individuals suspected of committing a criminal act.

Duty to Intervene (new) – pg. 311

The language mandates an affirmative duty to intervene to stop or prevent another peace officer in his or her presence from using any unauthorized force or force that exceeds the degree of force permitted. The language further requires such an officer to report the intervention.

IML Position: Support – Law enforcement officers have a duty to intervene and take appropriate action in all scenarios. This provision may also assist municipalities with internal disciplinary actions.

Official Misconduct – pg. 337

The language adds a new section on law enforcement misconduct and provides situations by which a law enforcement officer commits misconduct. Specifically, the language provides that an officer commits misconduct in the course of their duties when they knowingly and intentionally:

1. Misrepresent facts describing an incident in any report or during any investigations regarding the law enforcement officer's conduct;
2. Withholds any knowledge of the misrepresentations of another law enforcement officer from the law enforcement employee's supervisor, investigator, or other person or entity tasked with holding the law enforcement officer accountable;
3. Fails to comply with the provisions of Section 10-20 of the Law Enforcement Officer-Worn Body Camera Act; or,
4. Commits any other act with the intent to avoid culpability or liability for himself or another.

The language provides that law enforcement misconduct is a Class 3 felony.

IML Position: Support – It is critical for law enforcement personnel to appropriately conduct themselves to ensure and maintain the trust of the community.

Right to Communicate with Attorney and Family – pg. 341

The language provides that persons who are in police custody have the right to communicate free of charge with an attorney of their choice and members of their family as soon as possible upon being taken into police custody, but no later than one hour after arrival at the first place of custody. The language provides accommodations that persons in police custody must be given to include:

1. Access to use a telephone or cellular phone to make three phone calls; and,
2. The ability to retrieve phone numbers contained in his or her contact list on his or her cellular phone prior to the phone being placed into inventory.

The language further provides that at every facility where a person is in custody, there must be a sign containing information pertaining to an individual's rights while in custody.

IML Position: Oppose – This provision does not take into consideration the capabilities of municipal police departments to comply with related logistical requirements. Further, this provision increases the chance that criminal suspects may impede an investigation by destroying potential evidence on their cellular phone, if allowed access to their phone for other reasons.

Use of Force in Execution of Search Warrant – pg. 361

The language places additional requirements for police officers prior to executing a search warrant. The language requires an officer to, prior to issuing a warrant, to attest the following:

- Prior to entering the location described in the search warrant, a supervising officer will ensure that each participating member is assigned a body worn camera and is following policies and procedures in accordance with the Law Enforcement Officer-Worn Body Camera Act; and,
- Steps are taken in planning the search to ensure accuracy and plan for children or other vulnerable people on-site.
- If an officer becomes aware that the search warrant was executed at an address, unit, or apartment different from the location listed on the search warrant, that member will immediately notify a supervisor who will ensure an internal investigation ensues.

IML Position: No Position

Article 110 “Pretrial Release”

Abolition of Monetary Bail (new) – pg. 371

The language removes the requirement of posting monetary bail on and after the effective date of the Act. Exceptions are provided in the Uniform Criminal Extradition Act, the Driver License Compact and the Nonresident Violator Compact.

IML Position: Oppose in part – Efforts to abolish monetary bail do not take into consideration risks to the community or the lack of adequate criminal justice infrastructure to implement alternative pretrial practices at the local level. Expanded state funding that would allow local jurisdictions to implement proven pretrial practices that ensure public safety and criminal defendant court appearances is necessary. Funding expanded conditions of release may serve as an alternative to incarceration and monetary bail, and could include risk-based assessments, required check-ins and ankle monitoring.

Release on Own Recognizance – pg. 372

The language provides that it is presumed that a defendant is entitled to release on personal recognizance on the condition that the defendant attend all required court proceedings and the defendant does not commit a criminal offense. Additional conditions of release shall only be set when it is determined they are necessary to assure the defendant's appearance in court.

The language requires the court to make a written finding as to why less restrictive conditions would not ensure the safety to the community and ensure the defendant's appearance in court if the court decides to detain the defendant.

IML Position: Oppose in part – The presumption of compliance by a defendant does not take into consideration potential risks to the community or the lack of adequate criminal justice infrastructure.

Options for Warrant Alternatives – pg. 374

If a defendant fails to comply with any condition of pretrial release, the language allows the court to issue an order to show cause why a person is subject to revocation of pretrial release. A certified copy of the order shall be served to the person at least 48 hours in advance of a scheduled hearing. If the person does not appear at the hearing, the court may issue a warrant for the arrest of the person.

IML Position: No Position

Pretrial Release – pg. 376

The language states that all persons charged with an offense shall be eligible for pretrial release before conviction. Pretrial release may only be denied when a person is charged with specific offenses listed in Section 110-6.1 of the Criminal Code of 2012, or who has a high likelihood of willful flight, and after the court has held a hearing.

IML Position: Oppose in part – The offenses listed in this section of the Criminal Code of 2012, for which someone may be denied pretrial release, do not adequately encompass all criminal activities that have a significant and negative impact on the safety of a community.

Determining the Amount of Bail and Conditions of Release – pg. 378

The language adds to the list of factors a court shall take into consideration in determining the conditions of pretrial release that will ensure the appearance of a defendant as required or the safety of any other person or the community. Specifically, the language adds the following:

- The weight of the evidence against the eligible defendant, except that the court may consider the admissibility of any evidence sought to be excluded;
- The history and characteristics of the eligible defendant, including:
 - The eligible defendant's character, physical and mental condition, family ties, employment, financial resources, length of residence in the community, community ties, past relating to drug or alcohol abuse, conduct, criminal history and record concerning appearance at court proceedings; and,
 - Whether, at the time of the current offense or arrest, the eligible defendant was on probation, parole or other release pending trial, sentencing, appeal or completion of sentence for an offense under federal law or the law of Illinois or any other state.

- The nature and seriousness of the danger to any specific, identifiable person or persons that would be posed by the eligible defendant's release, if applicable; and,
- The nature and seriousness of the risk of obstructing or attempting to obstruct the criminal justice process that would be posed by the eligible defendant's release, if applicable.

The language adds additional factors the court may consider in cases of stalking or aggravated stalking.

The language further allows the court to use a regularly validated risk assessment tool to aid in its determination of appropriate conditions of release but states that such tools may not be used as the sole basis to deny pretrial release.

IML Position: No Position

Revocation of Pretrial Release – pg. 394

The language provides conditions through which pretrial release may be revoked, including the following:

- If the defendant is charged with a detainable felony, the defendant may be detained after the State files a verified petition for such a hearing and gives the defendant notice;
- If an individual, while on pretrial release for a felony or Class A misdemeanor, is charged with a new felony or Class A misdemeanor under the Criminal Code of 2012, the court may begin proceedings to revoke the individual's pretrial release.

The language further provides conditions of re-arrest, jurisdiction for newly committed offenses and prescribes the hearing process for pretrial release revocation.

IML Position: No Position

Denial of Pretrial Release – pg. 406

Upon verified petition by the State, the court shall hold a hearing and may deny pretrial release only if certain conditions and offenses are met or occur. These include but are not limited to:

- The defendant is charged with a forcible felony offense and pretrial release poses a real and present threat to a specific, identifiable person or persons;
- The defendant is charged with stalking or aggravated stalking and it is alleged that the defendant's pretrial release poses a real and present threat to the physical safety of a victim;
- The victim of abuse was a family or household member; and
- The defendant is charged with domestic battery and it is alleged that the defendant's pretrial release poses a real and present threat to the physical safety of any person.

The language also creates stipulations for the timing of a petition to deny pretrial release and mandates procedures and processes.

IML Position: No Position

Unified Code of Corrections – pg. 482

The language makes several changes to sentence credits certain classes of prisoner may receive.

IML Position: No Position

Pet Ordinance Discussion

After reviewing our city ordinances and also the notes from the pet committee meetings, I believe the ordinances we have in place are thorough and cover almost every scenario. After examining everything, I do recommend a few possible options. One issue appears to be owners of animals that are habitual offenders of the city ordinance for dogs running at large or inadequate supervision. Many of our dog calls are due to repeat offenders. One immediate step that can be taken by the Kewanee Police Department is a zero-tolerance approach to citations for repeat offenders. If these owners know that they will receive an automatic citation if it continues to happen, many will take the steps to keep their animals inside their residence or property.

Past concerns were also brought up that simply increasing the fines is not always the best option. Also, some negligent owners have received multiple ordinance citations and continue allow their animals to run loose. I feel that a direct targeted approach with these negligent animal owners is a possible solution to the problem. I would like to conduct further research with the city attorney to see if an addition to our animal ordinances would be viable for restriction of animal ownership for negligent owners within city limits. Similar to our nuisance property ordinance, we could possibly develop a nuisance animal owner ordinance. This addition could include proactive steps taken by the city to give these habitual offenders a chance to reinforce their properties to keep the dogs from getting out before taking the final action.

Chief of Police

Nicholas Welgat

CITY OF KEWANEE CITY COUNCIL AGENDA ITEM		
MEETING DATE	January 11, 2020	
RESOLUTION OR ORDINANCE NUMBER	Ordinance #4041	
AGENDA TITLE	Approval of an Ordinance amending Ordinance No. 2841 adopted May 9, 1994, commonly known as <u>The City of Kewanee, Illinois, Administrative Code.</u>	
REQUESTING DEPARTMENT	Administration	
PRESENTER	Rabecka Jones, City Clerk	
FISCAL INFORMATION	Cost as recommended:	Potential annual savings to the Insurance Fund of \$10,740.00 in insurance premiums + the City's share of medical claim expenses per retired employee per year
	Budget Line Item:	
	Balance Available	
	New Appropriation Required:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
PURPOSE	Amending the Administrative Code provides an opportunity for the City to reduce insurance costs related to continued coverage for retired employees.	

BACKGROUND	<p>With the recommendation of the City's health care consultant, Cottingham & Butler, the City renewed its contract with Blue Cross Blue Shield of Illinois and other carriers at the November 30, 2020 City Council meeting. As part of reviewing the City's health care package, a question arose regarding continuing coverage for retired employees.</p> <p>Section 10.1.1.d of the Administrative Code allows for retirees and spouses to remain on the City's health care plan if they pay one-half of the premium. The City continues to pay the other half of the premium and other medical claim cost obligations.</p> <p>The City's Blue Cross health care plan documents state that "Retirees may not reenter the Plan if coverage is dropped..." It is believed that the intent of this language is to avoid the administrative time associated with a potential revolving door of retirees leaving and reentering the plan. The downside of this requirement is that retirees may choose to remain on the City's plan when other health care coverages are available to them. Allowing retirees to leave the City's health care plan with the option of reentering in the future provides flexibility to retirees and reduces costs for both the City and the retiree.</p> <p>Staff proposes amending the language in 10.1.1.d to allow a one-time reentry into the health care plan. The one-time allowance will avoid the potential revolving door. Per direction from the City Council, the proposed amendment applied to employees who participate in the 20/21 ERI Program.</p>
SPECIAL NOTES	<p>The proposed language regarding retiree insurance coverage mimics language included in the AFSCME, FOP, and IAFF bargaining unit contracts with the addition of Blue Cross-recommended language allowing the one-time reentry.</p>
ANALYSIS	<p>Blue Cross and Cottingham & Butler find no downside to this change. It provides a potential opportunity for the City to save health care costs while not obligating the City to new costs.</p>
PUBLIC INFORMATION PROCESS	<p>N/A</p>

BOARD OR COMMISSION RECOMMENDATION	N/A
STAFF RECOMMENDATION	Staff recommends approval.
PROCUREMENT POLICY VERIFICATION	N/A
REFERENCE DOCUMENTS ATTACHED	Section 10 of the Administrative Code with proposed revisions.

ORDINANCE NO. 4041

AN ORDINANCE AMENDING ORDINANCE NO. 2841 ADOPTED MAY 9, 1994, COMMONLY KNOWN AS THE CITY OF KEWANEE, ILLINOIS, ADMINISTRATIVE CODE AND DECLARING THAT THIS RESOLUTION SHALL BE IN FULL FORCE IMMEDIATELY.

- WHEREAS, Section 10.1.1.d of the Administrative Code allows for retirees and spouses to remain on the City's health care plan if they pay one-half of the premium; and,
- WHEREAS, Language in the City's health care plan with Blue Cross Blue Shield of Illinois prohibits a retiree from leaving the plan and reentering at a later date unless provided for in a collective bargaining agreement or the administrative code; and,
- WHEREAS, The City's health care costs could be reduced by allowing the option for retirees to leave and return; and,
- WHEREAS, Both Cottingham & Butler, the City's healthcare consultant, and Blue Cross Blue Shield of Illinois find no downside to allowing retirees to leave and return.

NOW THEREFORE BE IT RESOLVED, BY THE COUNCIL OF THE CITY OF KEWANEE THAT:

Section 1 Section 10.1.1.d of the Administrative Code is hereby repealed in its entirety and replaced as follows:

Employees not covered by collective bargaining agreement and their spouses receiving a disability pension or retirement pension under the Illinois Municipal Retirement Fund or who receive a retirement pension from a different plan but whose employment is governed by this administrative code by virtue of their service in a position not represented by a collective bargaining agreement, along with Illinois Municipal Retirement Fund Pension employees who opted for the Early Retirement Incentive benefit available to employees in 2020/2021, shall have the option to continue participation in the medical, dental, and vision plans in effect at the time of retirement or any successor plan until the retiree and their eligible spouse reach the age of 65 or become eligible for Medicare. Eligible retirees and their eligible spouses covered under the retiree medical, dental, and vision plans will be allowed to reenter the plans one (1) time before the age of 65 or they become eligible for Medicare.

The City shall contribute fifty percent (50%) of the premium per month toward the Health Insurance Plan with the retiree paying the other fifty percent (50%).

Section 2 This Resolution shall be in full force and effect immediately upon its passage and approval as provided by law.

Adopted by the Council of the City of Kewanee, Illinois this 11TH day of January 2021.

RESOLUTION NO. 5265

A RESOLUTION TO APPOINT AN IMRF AUTHORIZED AGENT FOR THE CITY OF KEWANEE, AND DECLARING THAT THIS RESOLUTION SHALL BE IN FULL FORCE UPON ADOPTION.

- WHEREAS,** Recent changes in Personnel leave the City without a designated person to serve as the City's Authorized Agent for IMRF; and
- WHEREAS,** The administration of employee benefits, including pensions, is an important responsibility for the City and requires the designation of an authorized agent in order to carry out pension related duties; and,
- WHEREAS,** Finance Director Randi Haley has the knowledge, skills, and abilities to serve the City and her coworkers in this capacity.

THEREFORE BE IT RESOLVED BY THE COUNCIL OF THE CITY OF KEWANEE THAT:

- Section 1** The City Council hereby appoints Finance Director Randi Haley as the IMRF authorized agent for the City of Kewanee, IL.
- Section 2** This resolution shall be in full force and effect immediately upon its passage and approval as provided by law.

Adopted by the Council of the City of Kewanee, Illinois this 11th day of January, 2021.

CITY OF KEWANEE CITY COUNCIL AGENDA ITEM		
MEETING DATE	January 11,2021	
RESOLUTION OR ORDINANCE NUMBER	Resolution # 5266	
AGENDA TITLE	Resolution amending an Agreement with Lakeshore Recycling Systems to haul and dispose of solid waste from the transfer station.	
REQUESTING DEPARTMENT	Public Works	
PRESENTER	Kevin Newton PW Operations Manager	
FISCAL INFORMATION	Cost as recommended:	Estimated annual savings of \$15,000.00
	Budget Line Item:	57-44-573
	Balance Available	
	New Appropriation Required:	[] Yes [X] No
PURPOSE	Amends contract with private firm to dispose of materials deposited at the transfer station.	

BACKGROUND	<p>The proposed amended pricing for a three-year agreement is detailed below alongside the other proposed prices submitted in response to the RFP:</p> <p>*The RFP issued by the City lacked clarity with regard to the specific equipment and trailer types the City requires to maintain safe and efficient operations. Lakeshore has agreed to absorb the expense to install the required roll-over tarp systems on the trailers but is unable to procure a spotter truck without adjusting their fees. With spotter trucks costing between \$30,000 to \$50,000 dollars depending on condition Lakeshore has proposed a \$1.00 per ton increase over their original proposal. The City finds this is a reasonable increase in cost to maintain equipment levels while still saving approximately \$250,000 annually.</p> <table><tr><td></td><td>2021</td><td>2022</td><td>2023</td></tr><tr><td>Atkinson - Lakeshore</td><td>\$26.00</td><td>\$27.00</td><td>\$28.00</td></tr><tr><td>Lee County - Republic</td><td>\$34.90*</td><td>\$34.90*</td><td>\$34.90*</td></tr><tr><td>Knox County</td><td>\$44.00</td><td>\$45.00</td><td>\$46.00</td></tr><tr><td>* Potential Fuel Surcharge</td><td></td><td></td><td></td></tr></table>		2021	2022	2023	Atkinson - Lakeshore	\$26.00	\$27.00	\$28.00	Lee County - Republic	\$34.90*	\$34.90*	\$34.90*	Knox County	\$44.00	\$45.00	\$46.00	* Potential Fuel Surcharge

RESOLUTION NO. 5266

A RESOLUTION AMENDING AN AGREEMENT WITH LAKESHORE RECYCLING SYSTEMS TO HAUL AND DISPOSE OF SOLID WASTE FROM THE TRANSFER STATION

- WHEREAS, On November 16, 2020 the City of Kewanee approved the execution of a three year agreement with Lakeshore Recycling Systems to haul and dispose of the solid waste from the transfer station; and,
- WHEREAS, The RFP issued by the City lacked clarity with regard to the specific equipment and trailer types that would be acceptable for use at the City's transfer station; and
- WHEREAS, Lakeshore Recycling Systems wishes to provide the service to the City in a cost-effective manner while meeting the requirements of the City and ensuring the safety of the City's employees.
- WHEREAS, proposes a three-year agreement to haul and dispose of solid waste at a rate of \$26, \$27, and \$28 per ton for 2021, 2022, and 2023, respectively.

NOW THEREFORE BE IT RESOLVED, BY THE COUNCIL OF THE CITY OF KEWANEE THAT:

- Section 1** The Agreement with Lakeshore Recycling Systems Inc. is hereby amended.
- Section 2** The Mayor, City Clerk, City Manager, and City Engineer are hereby authorized to execute all necessary documents, however, that said documents remain substantially similar form and content to that attached hereto and incorporated herein.
- Section 3** This Resolution shall be in full force and effect immediately upon its passage and approval as provided by law.

Adopted by the Council of the City of Kewanee, Illinois this 11th day of January 2021.

RESOLUTION NO. 5268

A RESOLUTION TO AFFIRM THE MAYOR'S RECOMMENDATION FOR APPOINTMENTS TO THE KEWANEE FIRE & POLICE COMMISSION, AND DECLARING THAT THIS RESOLUTION SHALL BE IN FULL FORCE IMMEDIATELY.

WHEREAS, Vacancies have occurred on the Kewanee Fire & Police Commission with the expiration of terms of previous appointees; and,

WHEREAS, Individuals deemed qualified by the Mayor and Council have been proposed for appointment to the Kewanee Fire & Police Commission by the Mayor; and

WHEREAS, The Mayor hereby recommends the appointment of Mark Strandberg, Kevin Zimmerman, and Joe Cervantez for terms as indicated in the table below.

NOW, THEREFORE BE IT RESOLVED BY THE COUNCIL OF THE CITY OF KEWANEE THAT:

Section 1 Mark Strandberg, Kevin Zimmerman, and Joe Cervantez of the City of Kewanee are hereby appointed to serve on the Kewanee Fire & Police Commission:

Board	Term Expires	City Code Sec.	Name
Fire & Police Commission	January 31, 2022	§33.001	Mark Strandberg
Fire & Police Commission	January 31, 2023	§33.001	Kevin Zimmerman
Fire & Police Commission	January 31, 2024	§33.001	Joe Cervantez

Section 2 This Resolution shall be in full force and effect immediately upon its passage and approval as provided by law.

Adopted by the Council of the City of Kewanee, Illinois this 11th day of January 2021.

RESOLUTION NO. 5267

A RESOLUTION TO AUTHORIZE THE CITY MANAGER TO EXECUTE A SIDE LETTER OF AGREEMENT TO THE EXISTING COLLECTIVE BARGAINING AGREEMENT WITH FRATERNAL ORDER OF POLICE LODGE NO. 233, AND DECLARING THAT THIS RESOLUTION SHALL BE IN FULL FORCE IMMEDIATELY.

WHEREAS, The City and Fraternal Order of Police Lodge No. 233 entered into negotiations to develop clarity regarding calculation of overtime as it relates to a labor agreement between the parties that expires April 30, 2021; and,

WHEREAS, A tentative agreement has reached between Fraternal Order of Police Lodge No. 233 and the City on language that clarifies calculation of overtime pay; and,

WHEREAS, The membership of Fraternal Order of Police Lodge No. 233 has voted to ratify such agreement reached between the parties at a meeting held January 11, 2021; and,

WHEREAS, The City Council finds it to be in the best interest of the City of Kewanee and harmonious work place relations to execute a Side Letter of Agreement with Fraternal Order of Police Lodge No. 233.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF KEWANEE, IN COUNCIL ASSEMBLED AS FOLLOWS:

Section 1 The City Manager is authorized to execute the side letter of agreement concerning calculation of overtime pay.

Section 2 This Resolution shall be in full force and effect immediately upon its passage and approval as provided by law.

Adopted by the Council of the City of Kewanee, Illinois this 11th day of January, 2021.
