  - A)
  - B)

*~Meets at the call of the Chair, As Needed~*

## **Motion for Materials Management Planning Collaboration with Huron County**

### **Motion**

Lapeer County formally agrees to collaborate in a tentative arrangement with **Huron County** on meeting Materials Management Planning goals set forth by Environment, Great Lakes, and Energy (EGLE) agency. Our shared resources and close geographical proximity is mutually beneficial in meeting waste management goals, with a primary focus on recycling.

### **Background**

The state of Michigan has directed that each county remodel their Solid Waste Plans to Materials Management Plans as required by amendments to Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Part 115), specifically Subpart 11, Materials Management Plans. The focus is for the counties to institute sustainable practices, such as recycling and composting.

### **Conclusion**

The collaboration of Lapeer County working with **Huron County** will benefit both counties in finalizing the approved plan, which will provide more options to our residents to dispose recyclable materials, and composting.

It is thereby requested that the Lapeer County Board of Commissioners approve this motion.

## **Motion for Materials Management Planning Collaboration with Sanilac County**

### **Motion**

Lapeer County formally agrees to collaborate in a tentative arrangement with **Sanilac County** on meeting Materials Management Planning goals set forth by Environment, Great Lakes, and Energy (EGLE) agency. Our shared resources and close geographical proximity is mutually beneficial in meeting waste management goals, with a primary focus on recycling.

### **Background**

The state of Michigan has directed that each county remodel their Solid Waste Plans to Materials Management Plans as required by amendments to Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Part 115), specifically Subpart 11, Materials Management Plans. The focus is for the counties to institute sustainable practices, such as recycling and composting.

### **Conclusion**

The collaboration of Lapeer County working with **Sanilac County** will benefit both counties in finalizing the approved plan, which will provide more options to our residents to dispose recyclable materials, and composting.

It is thereby requested that the Lapeer County Board of Commissioners approve this motion.

## **Motion for Materials Management Planning Collaboration with Tuscola County**

### **Motion**

Lapeer County formally agrees to collaborate in a tentative arrangement with **Tuscola County** on meeting Materials Management Planning goals set forth by Environment, Great Lakes, and Energy (EGLE) agency. Our shared resources and close geographical proximity is mutually beneficial in meeting waste management goals, with a primary focus on recycling.

### **Background**

The state of Michigan has directed that each county remodel their Solid Waste Plans to Materials Management Plans as required by amendments to Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Part 115), specifically Subpart 11, Materials Management Plans. The focus is for the counties to institute sustainable practices, such as recycling and composting.

### **Conclusion**

The collaboration of Lapeer County working with **Tuscola County** will benefit both counties in finalizing the approved plan, which will provide more options to our residents to dispose recyclable materials, and composting.

It is thereby requested that the Lapeer County Board of Commissioners approve this motion.
