Section 5 2 CFR Part 200 Department-Wide Cost Allocation Plan and Indirect Cost Rate

Section 1: Introduction

Introduction

The enclosed Health Department 2 CFR Part 200 Cost Allocation Plan and Indirect Cost Rate identifies the costs of indirect services provided by central service departments of Lapeer County, Michigan ("the County") based on actual expenditures for fiscal year ending December 31, 2021. In addition, the plan includes direct costs of intrafund support from Fund 221 Health Department Fund for the fiscal year ending September 30, 2021. MGT of America Consulting, LLC (MGT) prepared these documents at the request of the County.

This Cost Allocation Plan is used by the Health Department to claim indirect costs as charges against grants and contracts (awards). The Cost Allocation Plan is submitted for use by the Michigan Department of Health and Human Services and other State and Federal grantors.

This document is prepared in compliance with the federal guidelines contained in 2 CFR Part 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" (formerly *OMB Circular A-87*). County personnel provided the expenditure and allocation data to MGT consultants. MGT consultants then prepared the Cost Allocation Plan utilizing a double step-down methodology.

Section 2: Certification

Lapeer County, Michigan Health Department Fund

DEPARTMENT-WIDE COST ALLOCATION PLAN AND INDIRECT COST RATE STUDY

CERTIFICATE OF INDIRECT COSTS

This is to certify that I have reviewed the indirect cost plan submitted herewith and to the best of my knowledge and belief:

- (1) Costs included in this plan are for the fiscal year ending September 30, 2021 with indirect costs from the fiscal year December 31, 2021 applied from the County-wide 2 CFR Part 200 Cost Allocation Plan and are to establish billing or final indirect costs for the fiscal year beginning October 1, 2022 and are allowable in accordance with the requirements of the 2 CFR Part 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated.
- (2) All costs included in this plan are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently and the Federal Government will be notified of any accounting changes that would affect the costs identified.

I declare that the foregoing is true and correct.

Section 4: Reading a Cost Allocation Plan

Reading a Cost Allocation Plan

Overview

This federal Cost Allocation Plan is prepared under the 2 CFR Part 200 guidelines for Central Services Cost Allocation Plans. This plan is a document that distributes, or allocates, County indirect costs. Indirect costs are those costs incurred by County departments that benefit other County departments. Examples of County indirect costs are administration, accounting, and information technology

The primary purpose for preparing the Cost Allocation Plan is to identify the appropriate department indirect costs for FY 2021.

The significant steps involved in preparing the Cost Allocation Plan include the following:

- Identify the County departments that provide support to other County departments. These departments are referred to as central service or allocating departments.
- Identify the County departments that receive support from other County departments. These departments are referred to as grantee or receiving departments.
- Accumulate the allowable actual expenditures of the County departments that provide support to other County departments.
- Distribute, or allocate, the allowable expenditures of the County departments that provide support to other County departments based on available, meaningful, measurable, and auditable allocation statistics that match the service provided to the service received.

Process

A double-step-down allocation methodology is used to allocate the allowable costs of the central service departments. This methodology recognizes the cross support provided between central service departments. For example, Accounting supports Information Technology by providing payroll, paying vouchers, and preparing a

budget. Information Technology, however, also supports Accounting by providing software and hardware and by maintaining and administering various applications and systems.

The double-step-down methodology requires an initial sequencing of allocating departments. In the first step of the double-step methodology, allowable costs from central service departments are allocated in the sequence selected to all County departments, divisions, and funds; including to other central service departments. The second step in the double-step-down methodology is made to fully account for the cross support provided between central service departments. Central service departments are closed after the second step in the double-step down allocation methodology.

Carry-Forward

2 CFR Part 200 (formerly OMB Circular A-87) guidelines have several plan types which are acceptable under the federal procedures. This plan is considered a "fixed with carry-forward" plan. Under this procedure, total current year allocations are identified. The "fixed cost" amounts, identified as "Prior Year Allocations", which are based on the costs claimed from a prior plan, are compared and the difference is computed and identified as the "Carry-Forward" amount. The current allocation plus the "Carry-Forward" are combined to identify the "Proposed Costs." Proposed Costs are to be applied to the year the plan is being used for recovery. This procedure allows the governmental unit to recover or return any over or under recoveries claimed in the year of the plan.

Sections

Table of Contents

The first few pages of the Cost Allocation Plan are the Table of Contents. The column on the left side of the page lists the central service, or allocating, departments. Each central service department is broken down into functions. Functions are the specific services provided by the department. The middle column lists the allocation base for each corresponding function. The column on the right side is the applicable page number.

The next few pages of the Cost Allocation Plan are the Summary Schedule. The Summary Schedule identifies the total dollar amount allocated from every County allocating department to every County receiving department. Allocating departments are listed down the left column and receiving departments, divisions, and funds are listed across the top of each page.

Detail Schedules

The remaining pages of the Cost Allocation Plan are the detail schedules for each central service department. The detail schedules for central service departments are structured in the following format.

Narrative Lists the department name, provides a brief description of the activities performed, and identifies the functions and the corresponding allocation base.

Departmental Costs (A) The actual expenditures for the central service department.

There are three potential codes that can be denoted on the Departmental Cost schedule. The three codes are "S", "P", and "D" and identify how costs are spread or distributed within the department to the relevant functions. The "S" (or "S"1) stands for salaries. The "P" stands for a predetermined percentage described in the narrative. The "D" indicates disallowed.

Incoming Costs (B) The support costs coming into the department from other central service, or allocating, departments.

Incoming costs are spread on the ratio of function salaries to departmental salaries. In the few instances where a department has no salaries, incoming costs are spread on the ratio of function expenditures to departmental expenditures. Certain incoming costs, however, may be denoted with an *. The * identifies those incoming costs that are directly identified to departmental functions and spread to departmental functions on a percentage basis.

Total Allocated (C) The total amount allocated for that department. This amount is found at the end of the Incoming Costs schedule.

Function Allocations The distribution, or allocation, of the Total Allocated costs by function.

Allocation Summary The summary of allocated costs by function

FY 2021 1/10/2023

Building Deprecation Charge Nature and Extent of Service

Federal guidelines in 2 CFR Part 200 allow for the recovery of depreciation expenses identified by local government.

For the purposes of the Health Department Cost Allocation Plan, the depreciation costs identified through the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are included in this schedule for allocation to the funds' reporting units.

- Health Building Depreciation The Health Department Fund's share of the cost of depreciation for the Health Building is identified and allocated to benefitting programs based on calculated Reporting Unit square footage.
- Annex Building Depreciation Fund 223's share of the cost of depreciation is identified within this function and is allocated based on the benefitting Reporting Units' occupant FTEs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Administrator/Controller 101-172 Nature and Extent of Service

Lapeer County government operates under the Michigan Controllers Act. The Controller is the chief accounting officer of the County and has the charge and supervision of the accounts and accounting of every office, officer, and department of the County. The County Administration department is responsible for preparation of budgets, reports resolutions and communications for the Board of Commissioners, as well as serving as liaison between County Departments and the Board of Commissioners. The Administrator/Controller's office has the task of developing systems and programs that will enable the County to provide more effective and efficient services to the citizens.

For the purposes of the Health Department Cost Allocation Plan, the costs identified within the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified seperately and allocated to benefitting programs based on the number of full-time equivalents (FTEs), respectively.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Accounting 101-191 Nature and Extent of Service

The Finance Department is an administrative department made up of the following divisions: Accounting, Budgeting, Computers, Accounts Payable, Payroll and Employee Benefits. Their purpose is to accurately present, in accordance with generally accepted accounting principles, the results of the County's financial operations and conditions in a timely manner to all interested parties.

In addition to the operating functions of the office the County's 2 CFR Part 200 plan identifies the cost of termination payouts. Upon termination, retirement, or resignation, employees of the County receive a portion of their unused sick and vacation pay. For plan purposes, the amount of the payoff is identified and added to the department's expenditures. These costs are allocated and a direct billing credit is allowed for the amounts that were direct charged to the home departments of the terminated employees.

For the purposes of the Health Department Cost Allocation Plan, the costs identified through the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified and allocated as indicated below:

- **General Accounting** The Fund 221 and Fund 223 shares of costs associated with the posting of journal entries and preparation of periodic financial reports are identified to their respective functions and allocated to programs based on the number of full-time equivalents (FTEs).
- Accounts Payable The Fund 221 and Fund 223 shares of costs associated with the processing of accounts payable are identified to their respective functions and allocated to all benefitting programs based FTEs.
- Payroll The accounting department processes the bi-weekly payroll, complies with all required tax deposits and reports
 and withholds optional deductions for employees. The Fund 221 and Fund 223 shares of costs related to payroll processing
 are identified to their respective functions and are allocated to all program based FTEs.

Accounting 101-191 Nature and Extent of Service (Continued)

Termination Payoff – The County policy provides for the payoff of accumulated sick and vacation time when employees separate from the County. 2 CFR Part 200 guidance allows for the recovery of termination payouts, but only as an indirect cost. The costs identified in this function have been previously adjusted for direct charges within the County's 2021 2 CFR Part 200 Cost Allocation Plan. The net expenses are identified to their respective functions and are allocated on FTEs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

FY 2021 1/10/2023

Computer Operations 101-228 Nature and Extent of Service

The Lapeer County Computer Operations provides automated data processing service for all departments and programs in the County. The service is provided with through a contracted vendor that provides both on-site and remote access support. The automated data processing service improves productivity of departments and allows for the efficient collection and storage of various data elements.

For the purposes of the Health Department Cost Allocation Plan, the costs identified within the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified and allocated as indicated below:

 Network Support – The Department maintains an infrastructure to provide connectivity both internally and externally for all departments. The department maintains internet connectivity along with maintenance of servers. The Fund 221 and Fund 223 share of costs for network support are identified to their respective functions and allocated to benefitting programs based on full-time equivalents (FTEs).

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

| Total | \$56,539 | \$22,827 | \$79,366 |

Professional Services 101-239 Nature and Extent of Service

Lapeer County engages various professional experts to assist in the administration and operation of the County. The costs of these services are considered central services and are identified in this department. For the purposes of the Health Department Cost Allocation Plan, costs identified through the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified and allocated as indicated below:

- Accounting Services The County is required to have an annual financial audit performed. The audit assures the Commission and the citizens of the fiscal integrity of the County's financial operations. The Fund 221 and Fund 223 shares of the cost for the County's annual audit are identified in their respective functions and are allocated to all programs based on the number of full-time equivalents (FTEs).
- Corporation Counsel The County engages legal counsel to advise the Board and Administration on various legal matters
 to minimize any actions or respond to any issues that may be identified. The Fund 221 and Fund 223 shares of the cost for
 the legal counsel are identified in their respective functions and allocated to all programs based on their FTEs.
- Labor Relations The County operates with several bargaining units that require negotiation, interpretation, and enforcement of labor agreements. The County retains an attorney to represent the County in such negotiations. The Fund 221 and Fund 223 shares of the cost of this representation are identified to their respective functions and allocated to those programs with bargaining unit members based on the FTE of union employees.
- HR Physicals The County requires physicals be performed on all new employees. The Fund 221 and Fund 223 shares of the cost for the physicals are identified to their respective functions and are allocated to all programs based on FTEs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Insurance 101-242 Nature and Extent of Service

Lapeer County is a member of the Michigan Municipal Risk Management Association (MMRMA) which is an organization of Michigan County governments that band together to share risks that arise from the operations in which they are involved. MMRMA collects premiums and sets reserve levels for members. From time to time, a distribution of excess assets of the organization is declared and premiums are returned to the membership.

For cost plan purposes, the cost of the premium is functionalized as detailed in the annual premium contribution detail. Costs identified within the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified and allocated as indicated below:

- General Liability General liability coverage protects the County from losses they may occur from actions taken or not taken by the County that result in a loss to an individual or organization that can claim and prove the County's negligence. The Fund 221 and Fund 223 shares of these costs are identified in their respective functions and allocated based on full-time equivalents (FTEs).
- Health Building County properties, including the Health Building, are covered for damage that may result from any number of events including fire, wind or flooding. The Fund 221 share of those costs are identified and allocated based on calculated square footage.
- Annex Building County properties, including the Annex, are covered for damage that may result from any number of events including fire, wind or flooding. The Fund 223 share of those costs are identified and allocated based on assigned FTEs.
- Public Officials Liability Employees of the County expose the County to a wide variety of risks through the execution of their assigned duties. In the event that the actions of one of these employees is deemed to have caused damage or injury or if the actions result in a financial loss to the County there is coverage to protect the County. The Fund 221 and Fund 223 shares of this cost are identified in their respective functions and are distributed to programs based on the number of FTEs.

FY 2021 1/10/2023

Insurance 101-242 Nature and Extent of Service Continued

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Treasurer 101-253 Nature and Extent of Service

The County Treasurer is an elected position responsible under the Michigan Constitution for the collection of all county revenues, investment of excess funds, and settlement of taxes between the various taxing units in the County. The Treasurer also processes all the accounts payable checks the County issues and is responsible for the collection of delinquent taxes and sale of forfeiture properties.

For the purposes of the Health Department Cost Allocation Plan, the costs identified within the County's 2021 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department and Fund 223 Personal Care - Aide are identified and allocated as indicated below:

- Cash Accounting The process of receipting revenues from all the departments in the County is identified in this function. Centralizing the collection of revenues in an individual office provides for better control and accounting and lowers the cost of proper internal cash control. The Fund 221 and Fund 223 shares of costs are identified to their respective functions and allocated to programs based on the number of full-time equivalents (FTEs).
- Accounts Payable Processing The Treasurer's office processes all outgoing checks for the County. The Fund 221 and Fund 223 shares of costs are identified to their respective functions and allocated to programs based on FTEs.
- Phones The costs of the County's phone service are centralized in the Treasurer's office. The Fund 221 and Fund 223 shares of costs are identified to their respective functions and allocated to programs based FTEs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Utilities 101-264 Nature and Extent of Service

Lapeer County maintains a separate activity within the General Fund (101-264) to track utility costs for specific buildings. Utilities are a portion of the cost of providing space for departments and programs to operate. Costs for the utilities are accumulated in specific accounts identified by building.

- Health Building Utilities For plan purposes, the cost of utilities from the County's 2 CFR Part 200 Cost Allocation Plan for Fund 221 Health Department is identified and allocated to the Health Department and related Reporting Units based on their assigned square footages.
- Annex Utilities The cost of utilities related to the management of the senior program is identified within this function and is allocated to the calculated Reporting Unit FTEs for benefitting programs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Buildings and Grounds 101-265 Nature and Extent of Service

The Lapeer County Buildings and Grounds department maintains the various County-owned facilities. Clean, well-maintained office space is an essential part of the central services provided by the County and a general requirement of operations for all departments. In addition to general janitorial and maintenance, the department provides snow removal, trash removal, and shredding services. The Buildings and Grounds department also coordinates the County's telephone network, arranging for installation, repair, and replacement of devices.

For plan purposes, the costs of providing building maintenance services and phone/network support to Fund 221 Health Department and Fund 223 Personal Care-Aide are identified and allocated as indicated:

- Health Building The building and grounds costs identified to Fund 221 in the County's 2020 2 CFR Part 200 Cost
 Allocation Plan, which includes costs associated with Fund 223 and other related departments, are included in this function
 and are allocated to benefitting programs on Reporting Unit Square Footage.
- Annex Building The allocation for building and grounds maintenance identified to Fund 223 in the County's 2020 2 CFR
 Part 200 Cost Allocation Plan is identified within this function and allocated to benefitting reporting units based assigned
 FTEs.
- Phones/ Networks The telephone system is a necessary service required by all operating department to communicate
 with clients and other department within the County. The Fund 221 and Fund 223 shares of costs related to maintaining the
 telephone system and network are identified to their respective functions and are allocated based on FTEs.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

Fund 221 Health Department Nature and Extent of Service

Lapeer County's Health Department Fund operates a variety of programs. Due to the size, scope and additional complexity of the operation, administrative costs and policy management support is centrally budgeted. The Health Department also oversees the administration of the Department of Aging and Medical Examiner.

The audited costs of the Health Department are identified in this schedule and are distributed to the Central Service Reporting Units identified below based on wages and expenditure detail:

- 221-101 Administration & Policy Management Support
- 221-102 Clerical
- 221-205 General Environmental Health Services (EH)

All other costs relating to the general operation of the Health Department are excluded from allocation.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

FY 2021 1/10/2023

221-101 Administration & Policy Management Support Nature and Extent of Service

The Administration & Policy Management Support reporting unit oversees the administration of the Department of Aging and Medical Examiner.

This schedule identifies the audited Health Department fund costs related to this reporting unit and the share of other overhead costs identified through this cost study. Activities of the Administration & Policy Management Support unit include, but are not limited to, the distribution of financial transactions, clerical support, administration, and personnel support.

Costs identified within this schedule are allocated to benefitting reporting units based on full-time equivalents (FTEs).

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

221-102 Clerical Nature and Extent of Service

The Clerical reporting unit identifies the costs of clerical support services that have been centrally budgeted within the Health Fund. The Health Department also oversees the administration of the Department of Aging and Medical Examiner. Activities include, but are not limited to, processing financial transactions and providing clerical support.

This schedule identifies the share of audited costs and overhead costs related to the clerical support functions and allocates to benefitting departments based on full-time equivalents (FTEs) by reporting unit.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.

FY 2021 1/10/2023

221-205 General Environmental Health Services (EH) Nature and Extent of Service

Due to the size and scope of the Environmental Health Division, the Health Department centrally budgets some administrative costs as they benefit multiple departments. The centrally budgeted costs include support various of various programs that interface with the public but are not identified within a specific reporting unit; additionally, reporting unit 221-205 identifies costs for the general administration of the Environmental Health Division.

This schedule identifies the Environmental Health Division's share of the Health Department's audited costs, and the overhead costs identified through this cost study related to the general administration of the Environmental Health Division. These costs are allocated to the Environmental Health programs based on the number of full-time equivalents (FTEs) of those benefitting reporting units.

The plan is designed to allocate other central service departments' costs to the various departments including this department. These costs are designated as first and second allocations and are added to the expenses of the department for further allocation to benefitting departments.

Any direct charges made within the County's accounting system are adjusted through direct billing credits.
