**x. Cannabis Facilities: Cannabis retailer, provisioning center and safety compliance facility**

**PART 3. AMEND ARTICLE 4 TO ADD A NEW SECTION 4.17 AS FOLLOWS:**

**Section 4.17 Cannabis Facilities**

1. **Purpose.** It is recognized by this Chapter that certain unique uses cannot easily be evaluated in the same manner as other uses because of their potential to adversely affect public health, safety and welfare; establish a public nuisance; conflict with the character of a neighborhood; impair the social and economic well-being of neighboring properties; impair the general development of an area; or operate in a manner contrary to the purpose and intent of this Chapter. However, when properly regulated, these uses can make a positive contribution to the economic vitality of the city. Therefore, it is the purpose of this Article to impose reasonable regulations upon certain uses to provide an adequate approval process while moderating their potential adverse effects on surrounding and neighboring properties.
2. **Applicability.** Any land use that requires a license from the Department of Licensing and Regulatory Affairs (LARA) in the administration of Michigan Medical Marihuana Facilities Licensing Act (MMFLA), Michigan Regulation and Taxation of Marihuana Act (MRTMA) or other state law providing for the sale, transport, testing, growing, distribution, and processing of cannabis or any other activity involving a cannabis-related use shall require review and approval pursuant to Article 6. Any facility not specifically authorized in this Ordinance is prohibited. Provisions of this section do not apply to the medical use of cannabis in compliance with the Michigan Medical Marihuana Act (MMMA).
3. **Approval Procedures for Cannabis Facilities.**
  - A. **Zoning approval.** Zoning approval shall be required prior to issuance of any license. Zoning approval does not guarantee a license for any proposed facility.
  - B. **License Required.** Licensing for cannabis facilities is required per Chapter 18 of the City of Lathrup Village Municipal Code.
4. **Zoning review application requirements.** Zoning applications for cannabis facilities shall be submitted as required in Section 6.2. In addition, the following information is also required:
  - A. As provided in Section 6.1, a site plan shall be required, showing the proposed building(s) to be used, remodeled or reconstructed, along with the parking, landscaping and lighting plans. Existing and proposed building elevations shall be provided, including building materials, window glazing calculations, descriptions of glass to be used, and other pertinent information that describes building construction or structural alterations.
  - B. A plan for general waste disposal, chemical disposal and plant waste disposal.
  - C. A notarized statement by the property owner that acknowledges use of the property for a cannabis facility and agreement to indemnify, defend and hold harmless the City, its officers, elected officials, employees, and insurers, against all liability, claims or demands arising out of, or in connection to, the operation of a cannabis facility. Written consent shall also include approval of the owner and operator for the City to inspect the facility at any time during normal business hours to ensure compliance with applicable laws and regulations.
  - D. A copy of official paperwork issued by LARA as follows: paperwork indicating that the applicant has successfully completed the prequalification step of the application for the state

- E. A map, drawn to scale, containing all schools, publicly owned parks or playgrounds, temporary emergency shelters, Substance Use Disorder Programs, Residential Districts, and any marihuana facilities within one-thousand (1,000) feet of the proposed location.   - F. Operations and Management Plan. An operations and management plan shall be submitted. The plan should describe security measures in the facility as required by Section 18-285 (18); this may include the movement of the product, methods of storage, cash handling, etc.
  - G. All permitted facilities shall be bonded to guarantee that all accounting and taxes are paid in full according to the law and that the operation or facility performs in accordance with all government standards
5. **Separation Distances.** It has been observed that without separation distances between cannabis facilities and certain other land uses, cannabis facilities can tend to concentrate in clusters. It is further recognized that these uses which, because of their very nature, have serious objectionable operational characteristics, particularly when concentrated under certain circumstances. In addition, special regulations of cannabis facilities have been deemed necessary to limit the intensity and density of this use, and to recognize that separation distances are necessary from certain uses as described in this Section. No cannabis facilities are permitted within one thousand (1,000) feet of the following uses:
- A. K through 12 public or private school building or licensed child care center
  - B. A government or nonprofit facility that offers regular, on-site programs and services primarily to persons 18 years of age and under and is used for said programs and services for a minimum of three (3) days a week year-round. The filter(s) shall be rated for the applicable CFM.
