Infrastructure Payment Plan Overview

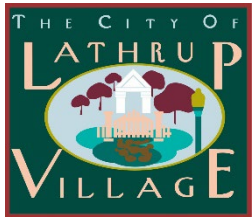

Over the course of the three (3) year Infrastructure/Capital Improvements Projects, there are two projects where residents are required to cover the cost of infrastructure projects that are adjacent to their property:

- **Sidewalk Replacement Program**: This project will focus in a different area of the city each year. Per Chapter 62, Article II of the City's ordinance, residents are responsible for the sidewalk flags (aka squares) adjacent to their property. Residents have the option to pay the entire amount up front or spread the payments over two (2) years.
- **Code Enforcement Ditches/Culverts**: This is a limited program for residents who live on roads slated for repaving or reconstruction, and who's ditches and/or culverts require major repairs. Residents have the option to pay the entire amount up front or spread the payments over three (3) years.

Residents impacted by these activities have until December 1st to either pay their balance in full or enter into the City's Payment Plan. Failure to do either of these will result in the remaining balance being applied to your summer taxes. Residents may make as many payments as they choose leading up to the December 1st deadline. Please note that payments may be made online (www.bsaonline.com), in person or by mail to 27400 Southfield Road, Lathrup Village, MI 48076.

Questions?

Questions on any of these projects may be directed to Susie Stec, Director – Community & Economic Development at ciprojects@lathrupvillage.org or at 248.557.2600 ext. 223.
