Dear Property Owner or Tenant:

Subject: Survey for Stormwater Master Plan for the North Creek and Deer Creek Study Area, Contract 18-848-BF

The Metropolitan Water Reclamation District of Greater Chicago (MWRD) is currently engaged in stormwater master planning to investigate potential flood relief solutions in Lansing and Lynwood, Illinois. MWRD has contracted Strand Associates, Inc. to assist with this effort, and they will be performing field reconnaissance work at various locations along the Lansing Drainage Ditch (as shown in the attached exhibit). The purpose of this field survey is to collect and analyze data for the subject project to address flooding problems within the study area. In order to gather the necessary information, field crews from Strand Associates and/or their subconsultant may need to access your property over the course of the next several weeks.

The information the surveyors need to collect is outside of your home or business, so you do not need to do anything unless they require access through a fenced-in yard, or require an animal be secured. The field crews are expected to be at each location less than one hour to collect the necessary information and will only collect data from 7 am to 6 pm on weekdays.

The surveyors are authorized to do this work by Illinois State Laws related to the practice of land surveying:

“(225 IL CS 330/45, Sec 45): Entry upon land; Liability for damages. A professional Land Surveyor, or persons under their direct supervision, together with their survey party, who, in the course of making a survey, finds it necessary to go upon the land of a party or parties other than the one for whom the survey is being made is not liable for civil or criminal trespass and is liable only for any actual damage done to the land or property. (Source: P.A. 93-467, effective 1-1-04).”

We appreciate your cooperation with this effort. Please contact Stephanie Nash of MWRD at (312) 751-3169 or NashS2@mwrdd.org if you require additional information.

Very truly yours,

Joe Kratzer
Managing Civil Engineer
