RE:

Village of Lynwood

NPDES Permit MS4 Annual Report - Reporting Cycle 2017-2018

Permit No. ILR40 - 0380

Dear Sir/Madam:

Enclosed please find the following items regarding the NPDES Permit for Storm Water Discharges from Municipal Separate Storm Sewer Systems (MS4) for the Village of Lynwood:

- MS4 Annual Facility Inspection Report for 2017-2018
- Summary and Schedule of Proposed Best Management Practices
- Attachment 1 (summarizing status of Minimum Control Measures)
- Various Attachments supporting Minimum Control Measures

This documentation has also been emailed to epa.ms4annualinsp@illinois.gov. If you have any questions, please call me at (708) 210-5678.

Very truly yours,

ROBINSON ENGINEERING, LTD.

Jonathan J. Dykstra, CFM

Senior Water Resources Engineer

Village of Lynwood, NPDES Permit No. ILR40 0380

Annual Facility Inspection Report - Supplemental Information

March 2017 to March 2018 May 3, 2018

Item A: Description of Changes to BMPs

The following changes have been made in Village BMPs for the next reporting cycle:

1. C3: Detection/Elimination Prioritization Plan (added 3/2018)

The Village developed written Illicit Discharge Detection and Elimination (IDDE) Procedures in July 2015 that include detection/elimination as part of its outfall inspections, tracing and illicit source removal procedures, so after a trial period this BMP has been added for this reporting cycle.

2. C4: Illicit Discharge Tracing Procedures (added 3/2018)

The Village developed written Illicit Discharge Detection and Elimination (IDDE) Procedures in July 2015 that include tracing procedures, so after a trial period this BMP has been added for this reporting cycle.

3. C5: Illicit Source Removal Procedures (added 3/2018)

The Village developed written IDDE Procedures in July 2015 that include source removal procedures, so after a trial period this BMP has been added for this reporting cycle.

The Village's Storm Water Management Program (SWMP) plan was last revised on 5/3/18 (see attached).

Item B: Status of compliance with permit conditions and assessment of minimum control measures

The Village believes that the BMPs completed within the reporting period are appropriate for the permit conditions. The status of each BMP is as follows:

A. Public Education and Outreach

4. A1: Distributed Paper Material (Newsletter)

The <u>Village's Newsletter</u> has been used to reach out to residents and businesses about a variety of topics. Sample newsletter pages are enclosed from the Spring, Summer and Winter 2017 Village newsletters, in which Storm Water Awareness and proper disposal of potential pollutants is discussed and participation is encouraged. Other Public Works information is also included. *These newsletters are "fairly" distributed and available for all in the community. They are posted on the Village website.*

5. A6: Other Public Education (Website and local Cable station)

The <u>Village Website</u> was used to post information for "Storm Water Awareness," "Storm Water Management," and "EPA Pollution Prevention" links. The Village posts its Annual Report, NOI, and SWMP on the Village Website. The <u>Village's Public Service Cable Channel</u> was formerly used to carry storm water messages 24/7; however, the cable station is currently offline. The cable station may be reinstated again in the future. *The website and public service cable channel are "fair access" modes for communicating with residents and business owners.*

B. Public Participation and Involvement

6. **B4: Public Hearing**

The Village held its annual informational <u>Public Hearing</u> on February 28, 2018 (see attached). The meeting called attention to the 6 minimum control measures, provided details on each, described the public works maintenance yard program, and planned activities going forward.

7. B7: Other Public Involvement (Village-Wide Cleanup Week)

The Village held its annual <u>Village-wide Cleanup Week</u> beginning May 15, 2017. All residents can participate by putting out used oils, paints and other fluids for pickup by the Village. Residents are also asked to put out all debris for pickup—debris that would otherwise be blown around or thrown into fields and ditches. Refer to the enclosed website notice. *This annual event is offered "fairly" to the whole community.*

8. B7: Other Public Involvement (Weekly Branch Pickup)

The Village offers <u>Weekly Branch Pickup</u> and <u>Weekly Leaf Pickup</u> services. Notice is given in the Village Newsletter and on the website. Sample copies of Village Event Forms are enclosed.

C. Illicit Discharge Detection and Elimination

9. **C1: Storm Sewer Map Preparation**

The Village has a <u>Storm Sewer Map</u> on which the outfalls are numbered and storm sewer sizes are included. The map was updated during the cycle in May 2014. Further updates will be explored as needed.

10. C2: Regulatory Control Program (Ordinance)

The Village has various ordinances for <u>Illicit Discharge Elimination</u>, which are available on the Village's website (or upon request). Additionally, the Village uses the MWRD Sewer Use Ordinance for enforcement. The Village Code includes, but is not limited to the following sections that apply to this Minimum Control Measure:

- Unlawful Dumping (Refuse) is discussed in Article IV, Section 34-182
- Waste Collection and various penalties Article II, Sections 86-19 through 86-32
- Other penalties in Section 30-158

11. C3: Detection/Elimination Prioritization Plan (added 3/2018)

The Village developed written Illicit Discharge Detection and Elimination (IDDE) Procedures in July 2015 that include detection/elimination as part of its outfall inspections, tracing and illicit source removal procedures, so after a trial period this BMP has been added for this reporting cycle.

12. C4: Illicit Discharge Tracing Procedures (added 3/2018)

The Village developed written Illicit Discharge Detection and Elimination (IDDE) Procedures in July 2015 that include tracing procedures, so after a trial period this BMP has been added for this reporting cycle.

13. C5: Illicit Source Removal Procedures (added 3/2018)

The Village developed written IDDE Procedures in July 2015 that include source removal procedures, so after a trial period this BMP has been added for this reporting cycle.

14. C7: Visual Dry Weather Screening

The Village has conducted dry weather <u>Outfall Inspections</u> of 100% of its outfalls in February 2018. Copies of several of the outfall inspection forms are enclosed as samples.

15. C10: Other Illicit Discharge Controls (Visual Monitoring Inspections)

This BMP was added in 2016. Since the Village population is under 25,000, it has opted for visual monitoring of its upstream and downstream watercourse locations. Visual Monitoring Inspections at upstream and downstream locations were performed in August 2017 with no unusual substances found. No chemical samples were taken. The goal is to continue to conduct these inspections in the future.

D. Construction Site Runoff Control

16. **D1**: Regulatory Control Program (Ordinance)

<u>Village Codes</u> include the "Site Development Requirements" which include Erosion and Sediment Control (Section 46-61) and separate "Erosion and Sediment Control" requirements under the "Environmental" Chapter 34 – Article III. The codes include sections for violations and penalties. There have been no changes to the E&SC codes during this cycle.

17. D2: Erosion and Sediment Control BMPs

Erosion and Sediment Control BMPs are required under the current ordinance. These requirements are enforced through the plan review process.

18. D4: Site Plan Review Procedures

<u>Development projects</u> are reviewed under local and state ordinances by Village Staff and/or engineering consultants, especially regarding erosion and sediment control

measures. Projects over one acre are required to submit a Notice of Intent for an ILR10 permit prior to construction. A SWPPP is required with plan sets. Ordinances are available at the Village's website (or upon request).

19. **D6: Site Inspection/Enforcement Procedures**

<u>Weekly inspection reports</u> are required form developers of active projects. Developments for which the developers have gone bankrupt are inspected periodically by the Village or they have been stabilized.

E. Post-Construction Runoff Control

20. E2: Regulatory Control Program (Ordinance)

<u>Village Codes</u> include Division 5 – "Post-Construction Management." There have been no changes to the codes during this cycle.

21. E3: Long Term O&M Procedures

These are required and reviewed where applicable during the site plan review process.

22. E4: Pre-Construction Review of BMP Designs

The ordinance requirements are enforced during the site plan review stage of a development. The site plan reviews include a review of the BMP designs.

23. E5: Site Inspections During Construction

<u>Weekly inspection reports</u> are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed.

24. E6: Post-Construction Inspections

The Building and Public Works Departments conduct <u>Final Inspections</u>. <u>Stormwater management systems</u> are inspected during the year depending on staff availability. Inspected storm sewers and structures that are found to need maintenance are cleaned, vacuumed, jetted or repaired as needed by Village staff.

F. Pollution Prevention and Good Housekeeping

25. **F1: Employee Training Program**

<u>Employee Training</u> has occurred within the Public Works Department. Public Works staff members were trained on Road Salt Usage. Four (4) employees attended an NPDES MS4 Compliance seminar on March 22, 2018. See attached documentation.

26. F2: Inspection and Maintenance Program – Routine Maintenance

<u>Routine maintenance</u> of Village streets, storm sewer, ditches, and stormwater facilities is part of the Public Works responsibilities. This includes sweeping, vacuuming, jetting,

repair, debris and branch collection, etc. Sample reporting sheets are included with this report.

- a. <u>Street-sweeping</u> was deferred this cycle due to budget cuts. It is planned to be reinstated for the next cycle.
- b. <u>Catch Basins</u> are cleaned as needed during the reporting period (see enclosed sample reports).
- c. <u>Storm Sewers</u> were inspected and cleaned on an as needed basis during the reporting cycle.
- d. <u>Parkway Trees</u> The Village removes all dead or dying parkway trees at no expense to residents. The Village removed over 125 trees during the reporting cycle.
- e. <u>Leaf Pickup</u> The Village contracts with Homewood Disposal to do a weekly leaf pickup as part of the residential garbage pickup service. Leaf pickup is done weekly as long as the leaves are placed in biodegradable bags.
- f. <u>Deicing Materials</u> These are stored in a permanent enclosed salt dome.
- g. <u>Fertilizers, Pesticides, or Other Chemicals</u> These are stored indoors away from any catch basins.

27. **F2**: Inspection and Maintenance Program – SOP's

<u>Maintenance Yard SOP's</u> and a <u>List of Possible Pollutants</u> are in written form for the Public Works Maintenance Yard. A <u>Yard Map</u> is also kept on site for staff to be aware of locations of existing utility lines, catch basins, etc. in case there is a spill. Spill containment materials have been purchased and are kept on site.

28. F3: Municipal Operations Storm Water Control

The <u>Municipal Operations Programs for Storm Water Control and Waste Control</u> are ongoing. The Village does cleaning and removal of debris in all ditches, creeks and lakes; including the removal of debris, beaver dams, etc. (see sample event activity forms).

29. F4: Municipal Operations Waste Disposal

<u>Maintenance Records and Logs</u> are kept for routine maintenance of Village vehicles and equipment. All fluid changes are tracked. Waste oils are collected and put into waste oil containers only. Written SOP's are reviewed annually. See attached sample maintenance logs.

30. F5: Flood Management/Assess Guidelines

The <u>Village code</u> includes "Division 3 – <u>Floodplain</u> Development Requirements" (Sections 46-83 to 46-98) which enforces flood hazard regulations for any development in or near to floodplains.

Item C: Results of information collected and analyzed, monitoring data (if any).

As part of its Outfall Inspections the Village performed visual <u>Monitoring Inspections</u> at upstream and downstream locations in August 2017. No suspicious fluids were observed, so no chemical samples were taken.

The U.S. Census Bureau data for the Village of Lynwood demographics is:

| 2014 Estimated Population | 9,313 |
|---------------------------|-------|
| Poverty Percentage | 18.8% |
| Black Pop. Percentage | 65.9% |
| White Pop. Percentage | 25.1% |
| Hispanic Pop. Percentage | 7.3% |
| Other Pop. Percentage | 1.7% |

Item D: Summary of stormwater activities you plan to undertake during the next reporting cycle (and implementation schedule).

See the attached Summary that is numbered to correspond with the original Notice of Intent.

Item E: Notice that you are relying on another governmental entity to satisfy some of your permit obligations (if applicable).

Not applicable. The Village of Lynwood does not rely on another governmental entity to satisfy NPDES permit obligations.

Item F: List of construction projects that your entity has paid for during the reporting period.

The following is a list of contracts that the Village let and constructed during this reporting period:

None this reporting period.

Sample Documentation for Minimum Control Measures

The remaining sheets in this report include some available documentation for various Best Management Practices discussed under Item B.

Public Works Department news

Alert: branch pickup change

The Public Works Department provides seasonal branch pickup services. Due to the quantity of branches put out by residents, the Department has revised the 2017 pickup schedule. Branch collection now occurs the third week of each month for the April to November period.

Branches should be placed in the parkways with stump ends facing away from oncoming traffic or facing the street by the Monday of the third week of each month. The Village's chipper truck will make one pass through the entire community. Branch pickup is for residential tree trimming. Service is not provided for removal of full trees. Please contact the Building Department for the name of a tree contractor to cut down and remove a tree.

For safety reasons, twigs, small branches and piles of weeds should be placed in biodegradable paper bags for yard waste collection – not put out for the Village chipper. The Public Works Department will not pick up small piles that could be placed into the biodegradable bags.

Homewood Disposal collects yard waste on regular garbage pickup days. The yard waste must be in biodegradable paper bags because yard waste in plastic bags will not be collected by the Village or Homewood Disposal. The Village is not responsible for picking up debris left by contractors or branches cut down by contractors; they are responsible for removal.

Cleanup Week starts May 15

Lynwood Cleanup Week will begin Monday, May 15, The cleanup program is a Village service that provides residents the opportunity to discard unwanted household articles and debris, All items must be put out by 7 a.m. May 15.

The Public Works
Department
will make
one trip
down each
street for
collection.

Vorks

Liquids and yard waste must be kept apart from other trash and will be collected separately. Electronics and tires will not be collected. Residents should contact local tire dealers to see if they accept used tires. Further Cleanup Week information will be forthcoming.

Water billing schedule

Lynwood municipal utility/water

are mailr the end each n Resid shot rec

month. Bill payment is due by the 15th of each month or the following business day. On the day following the bill due date, late notices are mailed. Water shutoff for unpaid bill balances occurs the first Thursday of the month. The Village advises residents to make payments prior to the 15th of the month to avoid penalties; a water turn-on fee is charged.

New LED streetlights

The Village has approved a contract to begin replacing current streetlights with new LED lighting that will save electrical and maintenance costs while improving the lighting of our streets. The replacement project will occur during this summer and fall.

Dog complaints

The Village is enforcing an ordinance regarding dogs due to numerous complaints that people are walking their dogs without a leash and not cleaning up after pets.

The Lynwood ordinance requires that dogs must be leashed and that owners must have the necessary supplies to pick up after dogs and must do so. The Village receives complaints that dogs also are allowed off leash to run in parks. Tickets will be issued to pet owners who violate the ordinance requiring dog leashes and pet cleanup. Residents who see violators are asked to contact the Police Department.

No pollutants in storm drains

ollutants that get into municipal storm drainage systems can impact both surface and ground water. Keeping catch basins and drainage swales/ditches clean of debris and contaminants protects the environment.

Residents can help prevent storm drain pollution by:

- Picking up pet waste which can enter water drainage systems,
- · Raking and bagging yard clippings

- that can get blown into the street and end up in storm drains, creating a breeding ground for harmful bacteria.
- Disposing of cigarettes in a proper waste container so they do not create litter.
- Not hosing down a driveway.
 It wastes water and causes oils and other pollutants to end up in lakes, ponds, creeks, etc.
- Planting drought resistant plants that require less water.

 Disposing of used motor oil properly. Never dump it in a storm drain or field. It should be taken to a gas station or collection area for recycling.

The Village asks that if residents see or suspect illegal dumping they please phone the Public Works Department at 708-758-8434.

Public Works Department news

Holiday trash collection

Homewood Disposal, the Village's garbage, yard waste and recycling service provider, observes the following six holidays: New Year's Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day and Christmas Day, During weeks in which one of these holidays falls prior to garbage pickup day, it will delay the collection one day. If the

following Monday. No other holidays affect garbage service.

No electronics, tires pickup

Homewood Disposal will not pick up any electronic devices, including televisions, computers, stereos, etc. Residents must take the devices to an electronic recycler. Also, tires will not be collected by Homewood Disposal; they must be taken to a tire store for recycling.

New LED reetlights

The Villac pleted the installation of r. petlights, a project that implies the period of our streets while vusage and electric cost.

NEW PUBLIC WORKS VEHICLE

Public Works Director Robert Myers (right) and department mechanic Pete Schulz inspect the new 2016
Peterbilt dump and plow truck that replaces a 1999 Public Works truck. The recently acquired Village vehicle
comes with a 10-foot dump bed and is equipped with an 11-foot snow plow and a 10-foot auger-run v-box salt
spreader. In addition to its use for snow removal and salt spreading on Village streets in winter months, the
new truck is utilities to other Public Works operations.

Water billin

municipal water bills mailed the end of each month. Residents should receive the bills around the first

of each month. Bill payment is due by the 15th of each month or the following business day. On the day following the bill due date, reminder notices are mailed. Water shutoff for unpaid bill balances occurs the first Thursday of the month. The Village advises residents to make payments prior to the 15th of the month to avoid penalties; a water turn-on fee is charged.

Questions may be directed to the Water Department at 708-758-8434.

Dog complaints

The Village is enforcing an ordinance regarding dogs due to numerous complaints that people are walking their dogs without a leash and not cleaning up after pets.

The Lynwood ordinance requires that dogs must be leashed and that owners must have the necessary supplies to pick up after dogs and

must do so. The Village receives complaints that dogs also are allowed off leash to run in parks. Tickets will be issued to pet owners who violate the ordinance requiring dog leashes and pet cleanup. Residents who see violators are asked to contact the Police Department.

No pollutants in storm drains

torm water is rain, hail or melting snow that drains into a municipal drainage system consisting of catch basins, sewer basins and drainage swales. The Lynwood drainage system collects storm water that eventually flows

into Lake Lynwood, Lincoln Lansing Drainage, North Creek and West

Pollutants entering the drainage system will contaminate these local bodies of water. By keeping our catch basins and drainage swales uncontaminated, we keep the environment of Lynwood clean.

If you see pollutants entering our drainage system or see someone dumping into a storm basin, please phone the Lynwood Public Works Department at 708-758-8434.

Public Works news, tips

Public Works ready for winter snowfall

The Public Works Department began readiness of its fleet of snow removal vehicles in October to prepare for winter weather.

Public Works Director Robert Myers said the Department has five large dump trucks outfitted with V-box salt spreaders and 11-foot plows. It also uses two one-ton dump trucks with plows and road salting equipment.

The Public Works trucks push

PARKING

AFTER 2"

SNOWFALL

snow from the middle of the street to the curb line onto parkways, and, as a consequence, onto residential driveways. Residents are reminded that it is a violation of Village ordinance to shovel or blow snow from a driveway or sidewalk back onto the street. Please shovel or blow snow onto the parkway. Dumping snow onto a street could result in a citation, and it will be plowed right back onto a driveway.

The Public Works Department appreciates resident cooperation keeping vehicles off streets during snow events so plowing crews can do their job.

Secure your mailbox

Please remember that the Public Works Department is NOT responsible for mailboxes damaged

Lynwood ordinance prohibits street parking after a two-inch snowfall. Parking is not allowed until Village plows remove snow from streets. Also, Village ordinance does not allow parking on streets from 2 to 6 a.m. daily. The Police Department

SNOWFALL PARKING BAN

enforces the no parking ordinances.

Heavy or wet snow being pushed off the street by a plow can damage or knock down a mailbox that is not secured properly. Residents should make the effort to secure their mailboxes for the snow removal season.

Lynwood municipal utility/water bills are mailed at the end of each month. Residents should receive the bills around the first of each month. The bills are due in total by the 15th of each month. On the day following the bill due date, late notices are mailed. Water shutoff for unpaid bill balances occurs the first Thursday of the month.

The Village advises residents to make payments prior to the 15th of the month to avoid penalties. A water turn-on fee is charged.

Holiday trash pickup

Homewood Disposal, the Village's garbage, yard waste and recycling service provider. observes the following six holidays: New Year's Day, Memorial

Day, Fourth of July, Labor Day, Thanksgiving and Christmas Day.

When a holiday occurs prior to garbage pickup day, collection will be delayed one day. If a holiday falls on a Saturday, Homewood Disposal will observe the holiday on the prior Friday. If the holiday falls on a Sunday, the firm observes it on the following Monday. No other holidays affect garbage service. Questions may be directed to the Water Department at 708-758-8434

ollutants that get into municipal storm drainage systems can impact both surface and ground water, Keeping catch basins and drainage swales/ditches clean of debris and contaminants protects the environment.

drains

Lynwood's storm drainage system flows into Lake Lynwood, Lincoln-Lansing Drainage District, North Creek and West Creek.

Residents can help prevent storm drain pollution by:

- · Picking up pet waste which can enter water drainage systems.
- · Disposing of cigarettes in a proper waste container so they do not create litter.
- · Not hosing down a driveway. It wastes water and causes oils and other pollutants to end up in lakes, ponds, creeks, etc.
- · Disposing of used motor oil properly. Never dump it in a storm drain or field. It should be taken to a gas station or collection area for recycling,

The Village asks that if residents see or suspect illegal dumping they please phone the Public Works Department at 708-758-8434.

Building Department

Emergency Services

Fire Department

Police Department

Public Works

Mission Statement:

Storm Water Management is important to everyone as it attempts to protect our environment by protecting waterways including streams, ditches, lakes etc. By instituting stormwater management practices we are trying to have rules that will stop discharges into the waterways that would be harmful.

What is Storm Water?

Storm Water starts as water from the sky such as rain, snow and hail. Once the water comes into contact with the ground it is then called runoff. Once this water hits the ground it most likely becomes contaminated with things like: dirt, fertilizers, road salt, oils and fluids from all types of vehicles that previously dripped on driveways and streets, oils from asphalt roofing and any other types of debris it comes in contact with as it flows to the storm sewer system. The drainage system is a series of catch basins and drainage ditches that collect and channel runoff from streets, driveways, sidewalks, parking lots and vegetated land surfaces.

So why is Storm Water a problem?

The problem with storm Water is once it comes in contact with everything described above it carries these debris to the storm sewer system which eventually flows to our streams, ditches, lakes and ponds contaminating the water ways when it is mixed with them. This affects everyone's ability to use the water for such things as swimming, drinking, and fishing. This contaminated storm Water also affects the quality of the aquatic life in our water ways.

What can I do to help?

Remember only rain in the drains is the statement we should all be using. Please help us keep storm drains clean of debris, if you see someone dumping anything into the storm sewers please notify the Police Department or Public Works immediately.

The links and items below should provide you with information on what we are doing to meet Storm Water Management requirements.

LYNWOOD CLEAN UP BEGINS MAY 15th 2017

Clean out your Garage, Basement & Yards

Some of the items that can be picked up include:

Furniture, Metal Items, Clothes, Boxes, Car Parts, General Debris, Appliances & Wood Items

Some items that can NOT be placed out include:

NO Electronics & NO Tires, All Tires & Electronics can NOT be put out for pick up they will be left.

Don't miss out on this opportunity to help Lynwood clean up. Place your debris out neatly on the parkway beginning Saturday May 13th for the pickup beginning on Monday May 15th.

ALL DEBRIS BEING PLACED OUT FOR PICK UP MUST BE OUT ON MONDAY MAY 15th BY 7:00 A.M. Debris can't be placed out prior to Saturday May 13th and should be placed neatly in the parkway not in the street. The Public Works Department will begin picking up debris on Monday May 15th at 7:00 a.m. and will continue until all debris is picked up.

- PLEASE NOTE: The Public Works Department will make one (1) pass down each street. If your
 debris is not out when the trucks pass your address, the Public Works Department will not return.
- Calling for a pick up is not required, just have it out neatly in the parkway no later than Monday May 15th at 7:00 a.m. Please remember that there will be only one pass down each street and there will be NO exceptions, so if it isn't out when we drive past it won't be pickup later.
- TIRES & ELECTRONICS INCLUDING TV's WILL NOT BE PICKED UP so do not put them out.
- Removal of junk cars will be provided by the Lynwood Police Department with proper paper work.
 (This service must be requested, by calling the police department at 708-758-4744).
- NO regular household garbage, NO TIRES, NO ELECTRONICS & NO TV's will be picked up
 during this special pick up. Normal kitchen garbage should wait until your regular garbage day. Tires,
 Electronics' and TV's should be taken to a proper collection company or site.
- Liquids, Paints & Oils must be kept separate from other debris so it can be picked up separately.
 So please keep old paint cans, oils and liquids apart from your other debris.
- Branches must also be kept separate from other debris. Branches will be removed after all other debris in town has been picked up.

*Debris from businesses will not be picked up, and no debris from out of town can be brought in for pickup if it has you will be ticketed.

• Please remember that there will only be one pass down each street and there will be NO exceptions to that so please have it out no later than 7:00 a.m. on Monday May15th.

Sponsored by: Mayor Eugene Williams, Clerk Karen Wingfield-Bond Trustees: Cheryl Dunlap, Lee Hurston, Willie Sims Rich Stephens, Bill Lebeter & McKinley Dillingham

If you have any questions regarding the debris pick up please call the Public Works Department at 708-758-8434

Re: Public Hearing Notification

Karen,

Can you please have the attached notice published in one of our local newspapers for a public hearing I need to have this month for our Storm Water Pollution Plan? Could you also provide me with a confirmation (copy) of the published article for me to forward to the IEPA and to keep for my records?

Any questions please don't hesitate to ask.

Thanks

NOTICE OF PUBLIC HEARING

In accordance with General Permit ILR40 issued by the Illinois Environmental Protection Agency under the National Pollutant Discharge Elimination System (NPDES) Permit Program the Village of Lynwood will hold a public hearing to allow public involvement /participation in, and/or public comment on the Village's NPDES Program. The hearing will be held on Wednesday February 28, 2013 at 9:30 a.m. in the board meeting room at the Village Hall located at 21460 E Lincoln Highway Lynwood, Illinois. Interested parties may be heard at that time.

Dated at: Village of Lynwood this 15th day of February 2018.

NOTICE OF PUBLIC HEARING In accordance with General Permit ILR40 issued by the Illinois Environmental Protection Agency under the National Pollutant Discharge Elimination System (NPDES) Permit Program the Village of Lyrwood will hold a public hearing to allow public involvement / participation in, and/or public comment on the Village's NPDES Program. The hearing will be held on Wednesday February 28, 2018 at 9:30 a.m. in the board meeting room at the Village Hall located at 21460 E Lincoln Highway Lynwood, Illinois. Interested parties may be heard at that time. Dated at: Village of Lyrwood this 15th day of February 2018. Name: Bob Myers Title: Director Public Works Department 2/23/2018 5476296

PUBLIC HEARING - NPDES

What does it stand for -?

- N -National
- P Pollution
- D Discharge
- **E** Elimination
- S System

In attendance today

Myself - Bob Myers, Director of Public Works (plan designer & over all administrator)
Kahla West– Public Works Administrative Assistant (taking minutes today)
Rob Boehl, Crew Leader (In charge of current inspections)

What are the laws and this programs goal and who is administering it?

To eliminate pollutants from entering storm sewer systems and depositing into rivers, lakes, creeks – to our outlet points in the Lincoln Lansing Drainage Ditch within the Village.

The USEPA through the Illinois Environmental Protection Agency as its enforcement branch.

There are six required Minimum Control Measurers or (MCM's)

This is the Village of Lynwood's NPDES Program being run by the Public Works Department

1. Public Education and Outreach

- A. We provide articles in the yearly newsletters, on the public access cable TV channel 3, on the Villages website and through public hearings like this one.
- B. Explain what easy things residents can do to help prevent pollutants from entering our storm system.
 - a. Clean up dog waste in your back yard.
 - b. Don't allow anyone to dump oils, chemicals or debris into storm sewers.
 - c. Keep debris from piling up on storm sewers such as leaves.
 - d. Take advantage of the Villages annual clean up week rather than throwing debris into fields.
 - e. Wash vehicles with bio-degradable soaps.
 - f. Use safe to the environment chemicals on your grass.
 - g. Deposit oils tires and debris at properly licensed disposal sites.

2. Public Involvement and Participation

- A. Get residents to do the above simple things that will help eliminate pollutants.
- B. Have residents call when they observe others dumping illegally.
- C. Obtain ideas and public involvement in helping to clean ditches etc.

3. Illicit Discharge Detection and Elimination (IDDE)

- A. The Village has developed ordinances that address issues of illegal dumping that provide for strict penalties.
- B. The Public Works Department has identified all storm water outlets into the Lincoln Lansing Drainage Ditch to monitor all for illicit discharges.
- C. And the Village maintains an up to date sewer atlas showing all storm water structures.

· 4. · Control of Construction Site Storm Water Runoff

- A. The Village has Erosion Control Ordinances that were last updated in 2008 and continue to be monitored.
- B. Developers as part of the subdivision approval process must submit an (SWPPP) or Storm Water Pollution Prevention Plan.
- C. Developers have been required to provide the Village with weekly storm water pollution prevention inspections. Due to the Down turn of the economy and the bankruptcy of some of the developers the Village is taking over those inspections on a monthly basis until the developments become active again.

5. Post-Construction Storm Water management

- A. The village has a post construction ordinance last update in 2008
- B. Final inspections of the storm water system is required prior to the Village accepting maintenance responsibilities from the developer. Any defaults in the system must be resolved by the developer to the Villages satisfaction.
- C. Detention is required for all Village Developments and specifications are approved by the Village Engineers. The ponds are designed to filter out sediments prior to being released.

6. Pollution Prevention & Good Housekeeping

- A. As part of the Village's responsibilities they conduct Street Sweeping of all streets 2-4 times yearly
- B. Clean and jet catch basins, Clean culverts and ditches as needed
- C. Clean retention and detention ponds of debris
- D. Keep street catch basis clean of debris collecting on the tops
- E. The Village inspects the documented outlets to Lincoln Lansing Drainage Ditch on a yearly basis
- F. The Village has developed a SWPP and Spill Prevention Plan for its own Public Works maintenance yard. See below
- G. Continues to enlist the public's help in watching inlets, catch basins for debris or illegal dumping

Public Works maintenance Yard Program

- A. Mechanic is keeping a list of activities that deal with fluid changes and where the old fluids are going for all municipal vehicles
- B. All storm outlets have been marked so we know where they drain to
- C. Employees have been instructed on where debris should be placed
- D. All disposals of used oils must be tracked to verify the proper amounts are being disposed of properly
- E. A spill protection kit is on site at the public works yard to contain any fluid spill

Annual Activities Moving Forward

- A. The Village must provide an annual report to the IEPA each year documenting their progress
- B. Continue with the annual street sweeping program, its clean up week for all residents, and the bi-weekly branch pick up program
- C. Ordinances and Sewer Atlases will be reviewed yearly and any necessary updates will be made

Does anyone have any Questions on our program we will be happy to try and answer them???

National Pollutant Discharge Elimination System (NPDES) Phase II

MS4 Compliance Seminar Agenda

Date:

March 22, 2018

Check-in:

8:30A

Time:

9-11A

Location: Village of Lynwood Senior Youth Center

21460 Lincoln Highway, Lynwood, IL

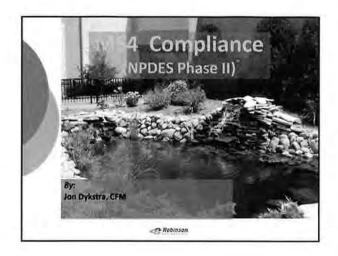

- 1. MS4 Compliance Introduction
- 2. Six (6) Minimum Control Measures Refresher
 - a. Public Education and Outreach
 - b. Public Participation / Involvement
 - c. Illicit Discharge Detection and Elimination
 - d. Construction Site Runoff Control
 - e. Post-Construction Runoff Control
 - f. Pollution Prevention / Good Housekeeping
- 3. Permit Changes and Compliance
- 4. Inspections
 - a. Types
 - b. How to...
 - c. Documenting / Form Completion
 - d. Monitoring
- 5. Annual Reports
- 6. Questions

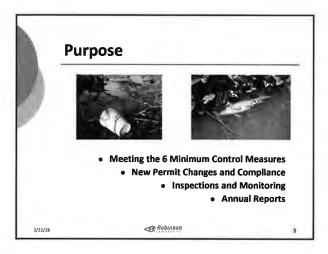

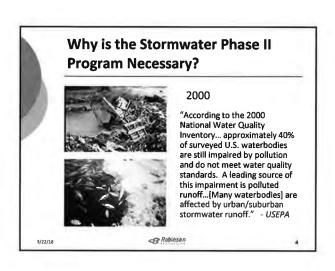

Background

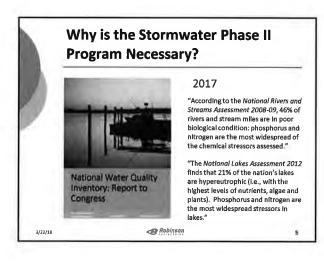

- · Jon Dykstra Senior Engineer
- Robinson Engineering, Ltd.
 - · Main Office South Holland, IL
 - · 6 Locations in IL and IN
 - ±170 Employees
 - · 60+ Serve as Municipal Engineer
 - 90+ Communities Served

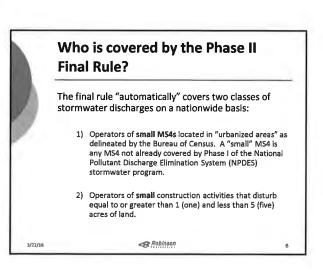

3/22/18

Rebinson

This certifies that

Robert Myers

completed the MS4 Compliance Seminar provided by Robinson Engineering Ltd. on March 22, 2018. This presentation covered issues relevant to the engineering and public works professions outlined

Presented By:

Jon Dykstra, CFM

Purpose/Content:

Six minimum control measures refresher

New permit changes and compliance

Inspection types, how to, documentation and form completion and monitoring

Annual reports

Estimated PDH's:

2 Credits

Genifor O. Prima

This certifies that

Rob Boehl

completed the MS4 Compliance Seminar provided by Robinson Engineering Ltd. on March 22, 2018. This presentation covered issues relevant to the engineering and public works professions outlined below:

GENERATOR'S INITI.

Form Approved OMB No. 2050-0039

Village of Lynwood

IEPA NPDES General Permit No. ILR40-0380

Storm Water Management Program (SWMP)

For discharges from Small Municipal Separate Storm Sewer Systems (MS4)

April 2018 to March 2021 May 3, 2018

A. General Information

1. Storm Water Management Program contact:

Name: Mr. Robert A. Myers
Title: Director of Public Works

Mailing Address: Village of Lynwood

21460 Lincoln Highway Lynwood, IL 60411

Village Number: 708-758-6101 Public Works Dept.: 708-758-8434

Email Address: bmyers@lynwoodil.us

2. State Authority Contact:

Name: Mr. Alan Keller, PE

Title: Manager, Permit Section

Mailing Address: Illinois Environmental Protection Agency

Division of Water Pollution Control

Permit Section P. O. Box 19276

Springfield, IL 62794-9276

Email Address: epa.ms4noipermit@illinois.gov

B. Governmental entities in which MS4 is located:

Cook County

C. Names of known receiving waters:

- 1. Lansing Ditch
- 2. Lansing Ditch Lynwood Tributary
- 3. Lansing Ditch Torrence Tributary

D. Storm Water Management Program Requirements:

- 1. The [Village] must develop, implement, and enforce a storm water management program designed to reduce the discharge of pollutants from [its] small municipal separate storm sewer system (MS4) to the maximum extent practicable (MEP), to protect water quality, and to satisfy the appropriate water quality requirements of the Illinois Pollution Control Board Rules and Regulations (35 Ill. Adm. Code, Subtitle C, Chapter 1) and the Clean Water Act. The storm water management program must include the 6 Minimum Control Measures (MCMs). The U.S. Environmental Protection Agency's National Menu of Storm Water Best Management Practices (http://cfpub.epa.gov/npdes/stormwater/menuofbmps/index.cfm) and the most recent version of the http://cfpub.epa.gov/npdes/stormwater/menuofbmps/index.cfm) and the most recent version of the http://cfpub.epa.gov/npdes/stormwater/menuofbmps/index.cfm) and the most recent version of the https://cfpub.epa.gov/npdes/stormwater/menuofbmps/index.cfm) and the selection of appropriate BMPs.
- 2. You may partner with other MS4s to develop and implement your storm water management program.
- 3. For further details on the requirements for each of the 6 MCMs, please refer to the latest version of the General NPDES Permit No. ILR40.

E. Minimum Control Measures (MCMs):

- 1. Public Education and Outreach (MCM 1)
- 2. Public Participation/Involvement (MCM 2)
- 3. Illicit Discharge Detection and Elimination (MCM 3)
- 4. Construction Site Runoff Control (MCM 4)
- 5. Post-Construction Runoff Control (MCM 5)
- 6. Pollution Prevention/Good Housekeeping (MCM 6)

F. Minimum Control Measures (MCMs):

| A. Public Education and Outreach | D. Construction Site Runoff Control |
|---|---|
| A.1 Distributed Paper Material | D.1 Regulatory Control Program |
| A.2 Speaking Engagement | D.2 Erosion and Sediment Control BMPs |
| A.3 Public Service Announcement | ☐ D.3 Other Waste Control Program |
| A.4 Community Event | □ D.4 Site Plan Review Procedures |
| A.5 Classroom Education Material | □ D.5 Public Information Handling Procedures |
| A.6 Other Public Education | D.6 Site Inspection/Enforcement Procedures |
| | ☐ D.7 Other Construction Site Runoff Controls |
| B. Public Participation/Involvement | |
| B.1 Public Panel | E. Post-Construction Runoff Control |
| B.2 Educational Volunteer | ☐ E.1 Community Control Strategy |
| B.3 Stakeholder Meeting | |
| | |
| ☐ B.5 Volunteer Monitoring | |
| B.6 Program Coordination | |
| ⊠ B.7 Other Public Involvement | |
| | ☐ E.7 Other Post-Const Runoff Controls |
| C. Illicit Discharge Detection and Elimination | |
| | F. Pollution Prevention/Good Housekeeping |
| | F.1 Employee Training Program |
| ☐ C.3 Detection/Elimination Prioritization Plan | |
| | F.3 Muni Operations Storm Water Control |
| | |
| C.6 Program Evaluation and Assessment | |
| C.7 Visual Dry Weather Screening | F.6 Other Municipal Operations Controls |
| C.8 Pollutant Field Testing | · |
| C.9 Public Notification | |
| C.10 Other Illicit Discharge Controls | |

<u>Statement of Fairness</u> – All BMPs shall and will be implemented, conducted, regulated, or enforced fairly throughout the entire Village as appropriate and applicable.

Revisions – BMPs C3, C4, and C5 were added to the program in 3/2018.

H. Revisions:

- 1. 10/12/07 Initial Plan
- 2. 7/27/15 Updated Plan for 2013–18
- 3. 4/15/16 Updated; added BMP C10
- 4. 5/2/18 Updated; added BMPs C3, C4, and C5
- 5.
- 6.
