

LYNWOODIAN

ISSUE 04 | JANUARY | FEBRUARY 2022

MAYORS CORNER

Happy New Year!

Just like that, the year 2021 is behind us and we find ourselves facing a new year. I hope that you have had time to reflect and plan for the upcoming year. I certainly have given much thought to what 2022 will look like for myself as well as the village.

Despite a global pandemic and the transition of a new administration, Lynwood experienced many successes in 2021! We're seeing the community grow in population and an increase in new businesses. Residents have shown an even greater sense of pride in the village. The capacity of our village government is strengthening with qualified staff who are eager to meet the needs of our citizens. I can't say enough about how proud I am of our entire team.

There's a lot more work to do as we usher in another year. It takes the full participation of everyone to keep Lynwood moving in a positive direction. The Trustees, Clerk, department heads and I are hitting the ground running as we accelerate infrastructure improvements such as new streets and sidewalks, bringing on additional law enforcement and fire personnel, improving our financial standing and striving for even greater transparency in our government. As we move forward, you will see exciting initiatives that benefit our residents, businesses, and stakeholders in making Lynwood safer, smarter, healthier and unified! I'm looking forward to continuing the journey with the greatest village in the world.

Yours In Service,

Mayor Jada D. Curry
