WATER and SEWER SERVICE CONTRACT

All services are to be in accordance to City Ordinance No. 94c-69 and approved by the Maysville Utility Commission.

Name: _____

Address of Service: _____
_____

I. WATER SERVICE

Size of Service: _____
Choice of Billing: _____ A. (for 5/8" to 1" service only)
_____ B. Actual cost of materials and labor plus 20% processing fee
_____ C. Other _____

II. SEWER SERVICE

A fee of $_____ shall be collected before any sewer connection is to take place within the limits of the City of Maysville.

Connection of sewer lateral service line is to take place at the expense of the homeowner/developer except where the sewer main is located in a city road or state road right-of way. In such case, the Utility Commission or Commission-approved contractor shall make the connection to the main and bring the lateral to the edge of the city/state road right-of-way. This connection will be at the expense of the homeowner/developer for materials and labor plus 20% for bookkeeping. The homeowner/developer is to make their connection at this point.

Amount collected for water service: $_____
Amount collected for sewer service: $_____

Any additional costs as described above will be billed to the homeowner/developer after the services are complete and amounts are totaled.

In consideration of the payment of $_____ and/or the future costs for services as described above, the Maysville Utility Commission shall furnish water and/or sewer to the undersigned.

I,_____, agree to the terms of the above contract. DATE: _____

Approved by: _____
