NEWS RELEASE

County Highway 25 Rehabilitation Projects Begin August 18

August 12, 2014

A rehabilitation project on County Road 25 is scheduled to begin Monday, August 18, 2014. Duininck, Inc. of Prinsburg, MN was awarded the project.

The rehabilitation project involves milling, bituminous reclamation, and bituminous surfacing. The reclamation is a process where machines crush the existing black top surface in place; this material is then used as the base course for new bituminous surfacing.

The road will be closed to thru traffic; there will be no posted detour in place. Local traffic having business along the road will be permitted on the closed road and should expect a gravel type surface, minor delays, and inconveniences.

The project is expected to be completed around late September, 2014.

This \$1.9 million project is funded with State Aid and County funds.

Any questions regarding the project should be directed to Phil Schmalz, Assistant County Engineer at (320) 484-4362 or email at phillip.schmalz@co.mcleod.mn.us.
