NEWS RELEASE

Seal Coating Begins Monday on Various County Roads

August 23, 2013

Seal coating will begin Monday (8/26/13) on approximately 30 miles of McLeod County roads and 2 County parking lots. The project should take around 10 days. Pearson Brothers of Hanover, MN was awarded this year's seal coat project. Value of the work is approximately \$700,000.

The locations are shown on the attached map.

The roads will remain open. Flaggers will be present to help guide traffic; which should expect minor delays.

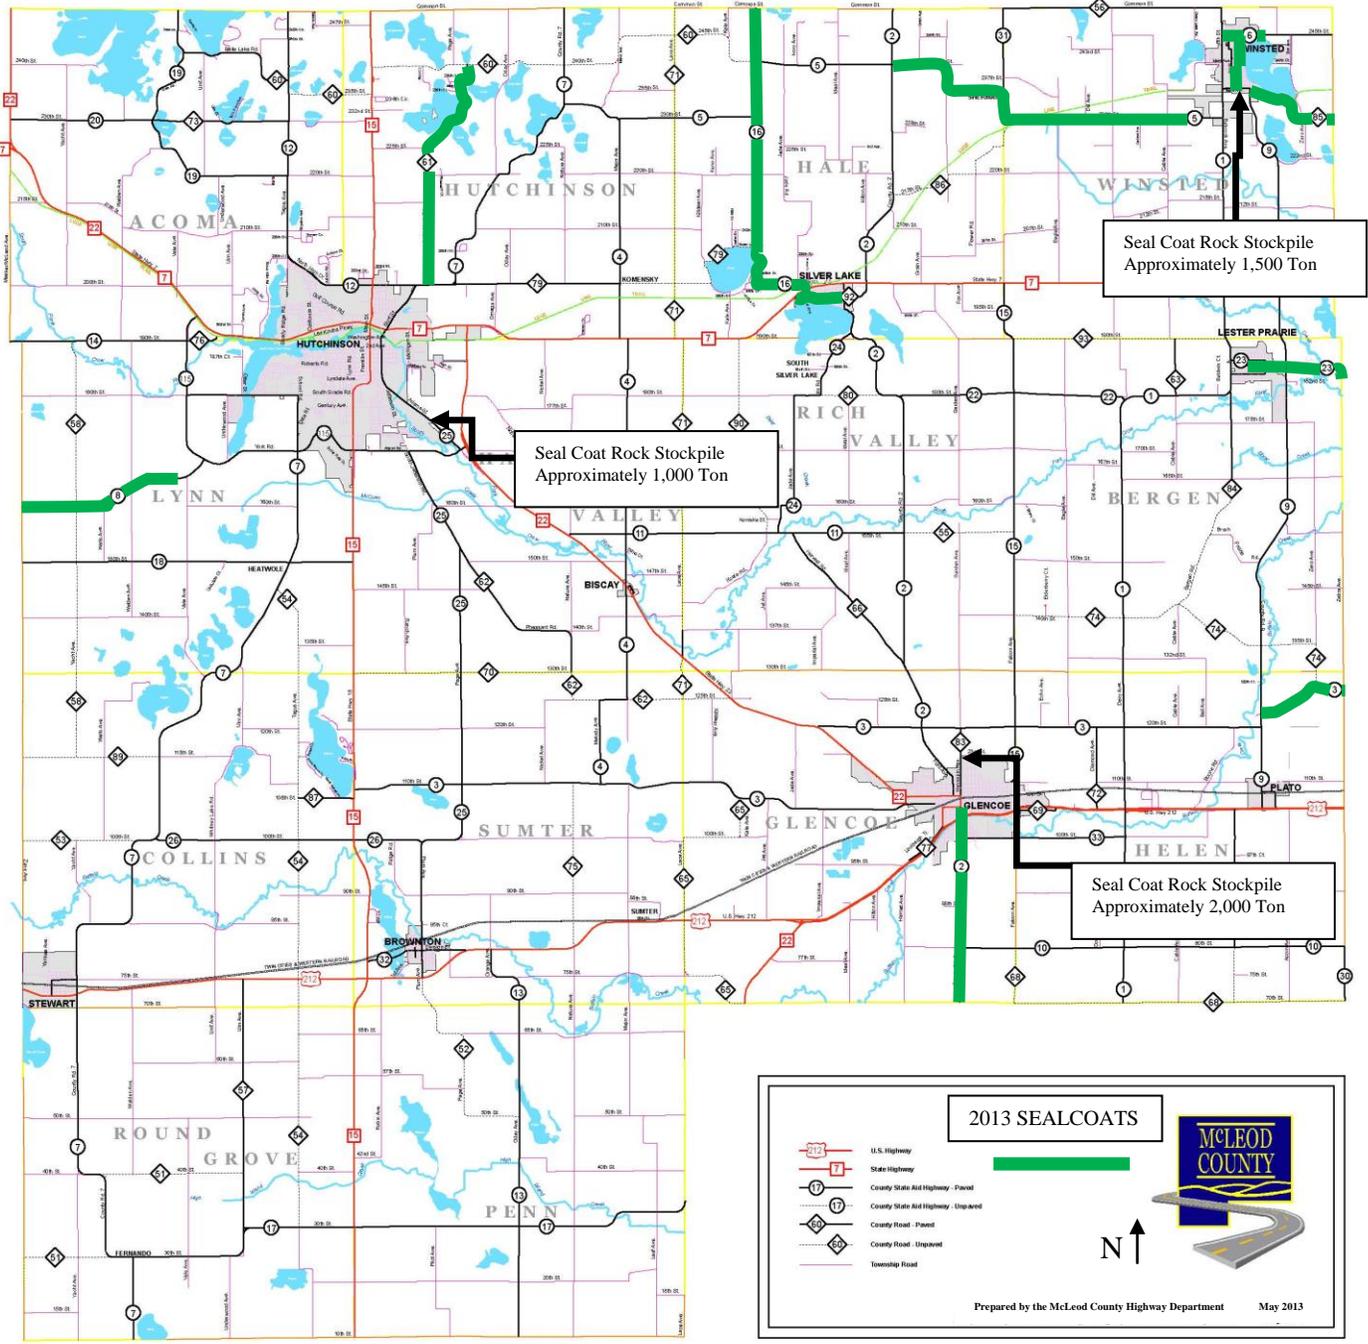

Seal coating is a preventative maintenance activity that involves applying emulsified asphalt to a blacktop surfaced road and covering with aggregate chips. This process extends the life of the roadway and helps hold off costly reconstruction.

Any questions regarding the project should be directed to Phil Schmalz, Assistant County Engineer at (320) 484-4321 or email at phillip.schmalz@co.mcleod.mn.us.

Up to date project specific information will also be posted on our [Facebook](#) and [Twitter](#) pages; username is "McLeodCoHwy".
