Subject: Driver Feed back signs

I have two quotes (awaiting a 3rd) on driver feedback signs.

These are not permanently mounted devices.

\$4,190 from one vendor for 1 box

\$7,180 from another vendor for 2 boxes (3600+ shipping for one- discounted when buying 2).

For two permanent signs figure 14K including installation. With the Police Department's budget submission being rather skeletal and the addition of gas and electric for the two rehabbed buildings there are no "projects" to eliminate in favor of the boxes.
