

## **AGENDA NOTES 20201112**

### **Project Updates**

#### **PD Building Re-Use Project**

- The paving of the project area including the impound lot is complete.
- Rough framing, roof trusses and decking on the cruiser garage is complete.
- Electrical rough wiring is underway in the control building and the cruiser parking garage.
- Windows are installed.

#### **Downtown Sidewalks and Curbing**

I have been in contact with Green Mountain Engineering to work with the Town to develop bid documents and oversee the construction of this work. I believe it is in our best interest to get competitive bids for this project.

#### **Maple Street Storm Sewer & Rail Parking Lot Project**

Bidding documents are prepared and the project is out to bid. Bids are due December 7, 2020. This committee will review the bids at the January 14<sup>th</sup> meeting.

#### **Radio Repeater Upgrade for Public Works**

This project is the installation of a radio repeater across from Public Works on the high ledge near the salt building. Bill Kernan will review the project with the committee.

#### **Public Works Site Planning**

Attached an updated report from Judy Harris of Harris & Harris Consulting, Inc. They have been involved with several building projects over the years,

including the Police Dept, Fire Dept, Municipal Building, Recreation Building, and most recently the Police Dept Building Re-Use Project.

This report provides a review of the 2015 study of our current Public Works building and site. Page four (4) has the 2020 Update of the programming study. This is where we are with updating needs so we can evaluate the possibility of the Foster Farms property.

### **Capital Improvement Budget**

Review of the FY 22 Capital Improvement Budget.

The Committee will make a final review and make a recommendation to the Selectboard.
