

## **Agenda Notes 20210422**

### **Rail Platform Parking & Maple Street Storm Sewer: Engineering Services Agreement, Amendment 1 – Otter Creek Engineering**

In your packet is Amendment #1 for Construction Phase Services for the Rail Parking Lot and the Maple Street Storm Sewer Project. I have combined these two projects into one so they were constructed at the same time. This amendment combines the construction services into one document. Otter Creek's proposal for these services is \$16,500. This is about an \$11,000 savings from the original proposals at project conception.

I request the Committee send this to the Selectboard for approval.

### **Mowing Bid, Tree Pruning Bid, Crack Sealing Bid, Line Painting Bid, Water Dept. Class III Bid, Wastewater Dept. Class IV Bid.**

Bid summaries and details for the above are included in your packet. Bill Kernan will present these items. If you concur, please *motion* "to send the recommended bid of "xxxxx" to the Selectboard".
