Subject: Cross St Bridge Fund

Hi. I am out of town this week, but I would like to offer my opinion on the use of the fund. I think it should be used for identifiable infrastructure projects that we can point to and say this was paid for by the bridge fund. I would not mind using it for water & sewer projects, even though they are usually funded by fees. My first priority would be the Exchange St water line, since the food & beverage industries there are an important part of our economic base & they depend on good quality, reliable water (not to mention a school & medical office bldg). We have the quality, but not the reliability. Finally, you asked how much should be kept in reserve. I don't know but I think it should be substantial.

Have a good meeting.
Chris
