

**Town of Middlebury**  
**Water Dept. Utility Trailer**  
**Bid Tally Jul'18**

<u>Bid Item</u>	<u>G Stone Commercial Division</u>	<u>Technology International</u>
Hydraulic Tilt Deckover Trailer	\$ 10,780.25	\$ 12,950.00
Yacht Club Trailer Trade-In	\$ (500.00)	\$ -
<b>Totals</b>	<b>\$ 10,280.25</b>	<b>\$ 12,950.00</b>

**Notes:**

- The existing trailer used by the water department is undersized and in very poor condition. This bid dates back to discussions that the Infrastructure Committee had a couple years ago when researching the Highway Department needs for a new trailer. This trailer is an identical match to the one purchased by the Highway Department making it more versatile for cross-department usage.
- Bid packages were sent to five (5) dealers within Vermont and advertised in the local paper. Only one (1) of those bidders responded (G Stone). The other bidder is located in Florida.
- Both bids appear to meet specifications.
- The bid from the Florida company includes freight to Middlebury.
- Based on the condition of the current trailer the \$500 trade-in value seems appropriate.
- **DPW recommends accepting G Stone's bid in the amount of \$10,280.25**
