**Middlebury Drive-Up testing Location Change**

The drive-up testing pod at Porter Hospital has changed locations. Starting Monday, November 23, drive up testing will be administered at the Town rec center on Creek Road.

The testing will be done outside in our back parking lot of the Rec Center, using the cocoa hut and another small structure as registration/check-in and testing site. People getting tested will be given instructions and they will administer the test themselves without ever getting out of their cars.

The plan is to have testing 1-5pm Monday, Tuesday, Wednesday and Friday with evening hours from 5-8 on Thursdays. They will also be having weekend hours from 9am-2pm. Testing frequency might increase depending on how the numbers look. The initial plan is to test up to 40 people per day with the capability to test up to 120 per day if needed.
